Monastic Practices Charles Cummings,2015 For three decades Monastic Practices has been a valued resource for English speaking aspirants to monastic life In this revised edition updated and expanded Charles Cummings OCSO explores the common practices of the monastic life in order to rediscover them as viable means of leading persons to a deeper encounter with God How do monks and nuns occupy themselves throughout the day Have they modernized their lifestyle or is it still cluttered with medieval customs Could any of the monastic practices be of use to those outside the monastery A certain wisdom is necessary to know how to use such practices and how to give oneself to them until they lead one to God After long monastic experience Cummings shows us how the ordinary things we do constitute our path to God In the art of living life he argues we are always beginners searching for God through our concrete circumstances and actions *The End of Captivity?* Tripp York,2015-07-30 In *The End of Captivity* Tripp York addresses how we talk about the good of other animals in light of a stark impossibility their freedom from us While all of us in the animal and plant kingdom are interdependent upon one another humans are unique in that we are the only animals who keep other animals captive We keep animals in zoos sanctuaries circuses conservatories aquariums research facilities slaughterhouses and on our farms and in our homes York asks what such forms of captivity say about us and how animal captivity shapes what we imagine to be the purpose of other animals What does the fact that elephants tigers and horses perform in circuses say about how we see the world What does the reality of zoological parks say about the people who create support decry protest and patronize them How important is wildlife conservation for the good of the earth What does who we put on our plate say about how we understand the theological role of other animals These are just a few questions York tackles as he weaves through the convoluted politics surrounding the captive animals in our midst *Animals in Heaven?* Terry Martin,2024-09-26 Christians

of all traditions have often puzzled with the question Do dogs go to heaven Drawing on Catholic teaching and on his long pastoral experience as a parish priest Terry Martin expands that concept to consider wider issues around all animals domesticated and free living and why they are here Within a context of Christian faith he seeks to understand the place of animals in God s complex creation and the relationship that human beings have for good or ill with those animals More than that he looks at the big questions which so many ask about who under God animals are and what meaning if any animal lives have from a Catholic Christian perspective
