Creating Dynamic Presentations With Streaming Media

Borko Furht, Oge Marques

Creating Dynamic Presentations With Streaming Media:

Creating Dynamic Presentations with Streaming Media Matt Lichtenberg, Jim Travis, 2002 With CREATING DYNAMIC PRESENTATIONS WITH STREAMING MEDIA you don't have to be a digital media professional to produce stunning digital media. This easy-to-follow handbook introduces Microsoft Producer for PowerPoint 2002, an all-in-one tool for turning ordinary slides, audio, video, and still images into impressive online presentations. From product demos to documentaries, e-learning to executive briefings, you'll discover how to make your message come alive with rich streaming media you produce and publish yourself. Get professional production tips, tools, and how-tos direct from the Microsoft Windows Media team. Learn how to record high-quality live video and audio. Reuse your prerecorded material from sound bites to Web content. Easily edit and arrange your footage and files using the timeline tool. Synchronize audio and video with slides. Add scene transitions and special effects. Stream your presentation on demand over any network.

Hands-On Guide to Streaming Media Joe Follansbee, 2006-05-24 This book describes the steps for creating an on-demand and live streaming video in an all-in-one reference guide for new users and companies that need to be introduced to the technology. After reading this book, you will understand how the Internet works in relation to streaming media. Client-server technology specifically related to streaming media. Strengths and limits of streaming media, including best uses for the technology. Choices of streaming media content creation tools.

KOSTA Webcasting, Webcasting as a Medium to Deliver Dynamic Presentations Jia Lee Chun, 2002 *Get Streaming!* Joe Follansbee, 2012-10-12 Get Streaming with this fun, easy-to-read guide. Streaming your audio and video online is inexpensive, easy, and fun. Get the fast results you need with *Get Streaming*, a step-by-step introductory-level book that gets you up and running today. Streaming media technology is growing into an indispensable part of a successful business communications strategy. This book will not only give you a professional boost, it will help you deliver your home videos to family and friends anywhere in the world. Why slog through a technology tome for weeks when you can start right now with the simple, easy-to-follow procedures in this book? Use the comprehensive glossary of terms with one-sentence definitions to lay the foundation for your streaming know-how. You'll take away a practical understanding of streaming media without feeling overwhelmed by confusing detail. Tips and insights from leading streaming pros are also at your fingertips. Whether you want to stream a corporate video, home videos, or your favorite music for friends, after reading this book, you will understand the three steps of streaming: Capture, Encode, Broadcast. Install free streaming software, capture raw media, encode into a streamable file, place that file on a streaming server, and link it all up to the Internet. Know the fundamentals of how the Internet works in relation to streaming media. Build simple, effective streaming applications with free tools. Learn how to make the right streaming media technology choices, including codecs for your specific situation. Understand RealVideo, Windows Media, QuickTime, Flash MX, and MPEG-4 software. Make informed choices from among the leading streaming media content creation tools made by RealNetworks, Microsoft, Apple Computer, and Macromedia. Master

the steps for creating on demand streaming audio and video files as well as learning about live audio and video streaming Understand the computer hardware and Internet bandwidth you ll need for maximum success Glimpse the future business and career opportunities in the expanding streaming media field Digital Libraries: Research and Development Costantino Thanos,Francesca Borri,Leonardo Candela,2007-11-25 This book constitutes the thoroughly refereed post proceedings of the First International Conference on Digital Libraries DELOS 2007 held in Pisa Italy in February 2007 The 33 revised full papers presented were carefully reviewed and selected for inclusion in the book The papers are organized in topical sections on similarity search architectures personalization interoperability evaluation miscellaneous preservation video data management 3D objects and peer to peer *Applied E-Learning and E-Teaching in Higher Education* Donnelly, Roisin,McSweeney, Fiona,2008-07-31 This book presents international practices in the development and use of applied e Learning and e Teaching in the classroom in order to enhance student experience add value to teaching practices and illuminate best practices in the area of e Assessment This book provides insight into e Learning and e Teaching practices while exploring the roles of academic staff in adoption and application Provided by publisher **Advances in Web-Based Learning -- ICWL 2003** Wanlei Zhou,Paul Nicholson,Brian Corbitt,Joseph Fong,2003-09-09 nd The 2 International Conference on Web Based Learning ICWL 2003 took place in Melbourne Australia ICWL 2003 followed the tradition of the successful ICWL 2002 held in Hong Kong and aimed at providing an in depth study of the technical and pedagogical issues as well as incorporating management issues of Web based learning Additionally there was a focus on issues of interest to the learner o ering the optimal Web based learning environment to achieve high academic results akin University organized this conference in conjunction with the Hong Kong WebSociety toprovideaforumwhichgatherededucators researchers technologists and implementers of Web based learning from around the world to discuss collaborate and advance all relevant issues pertaining to this area of research The main focus of ICWL 2003 was on the most critical areas of Web based learning in particular Web based learning environments virtual universities pedagogical issues related to Web based learning multimedia based e learning interactive e learning systems intelligence in on line education e learning solutions CSCL and authoring tools for e learning In total the conference received 118 papers from researchers and practitioners from 13 countries Each paper was reviewed by at least three internationally renowned referees Papers were riously examined and selected based on their originality significance correctness relevance and clarity of presentation Among the high quality submissions 50 papers were accepted and included in the proceedings Later the proceedings editors will recommend that some high quality papers from the conference be published in a special issue of an international journal **Streaming and Digital Media** Dan Rayburn,2012-07-26 Streaming and Digital Media gives you a concise and direct analysis to understand a scalable profitable venture as well as the common and hidden pitfalls to avoid in your business By focusing on both the business implications and technical differences between online video and traditional broadcast distribution you will learn

how to gain significant time to market and cost saving advantages by effectively using streaming and digital media technologies As part of the NAB Executive Technology Briefing series the book is geared towards the manager or executive and no technical prerequisite is required You can quickly learn the technical speak as well as the market and business implications New In The Book Consumer generated content and portals Distribution of full length video content New distribution outlets for delivering content Sling TiVO IPTV Addition of Flash streaming technology and Podcasting Up to date market research and data New industry pricing data

Information Management George Ditsa,2003-01-01 Geared for managers and business practitioners operating in a web centric environment this text presents the most current research on information management in conjunction with support systems and multimedia technology The useful models of decision making provided incorporate cooperative information processing knowledge based personalizations and intelligent transportation systems Electronic journalism distance learning and activity theory are also covered

The Business of Streaming and Digital Media Dan Rayburn,Michael Hoch,2012-08-06 This book answers the question What is the value of using streaming and digital media for my business and what can I expect in return The Business of Steaming and Digital Media gives you a concise and direct analysis of how to implement a scalable profitable venture as well as the common and hidden pitfalls to avoid in your business By focusing on both the business implications and technical differences between rich media and traditional broadcast distribution you will learn how to gain significant time to market and cost saving advantages by effectively using streaming and digital media technologies

Developer's Digital Media Reference Curtis Poole,Janette Bradley,2013-04-26 Designed for media professionals working across a broad range of formats Developer s Digital Media Reference is an excellent reference guide for those keeping pace with this dynamic industry As convergence between the World Wide Web multimedia and television production communities continues there is an increased demand for professionals to familiarize themselves with the many new delivery contexts including hybrid DVD where digital video content and computer data live on the same disc interactive TV and streaming media Developer s Digital Media Reference covers essential technologies such as SVG scalable vector graphics SMIL Synchronized Multimedia Integration Language a markup language for creating animations on the web MPEG 4 compression standard for streaming audio video and Dynamic Web Applications In addition to serving as a quick look up guide this text is organized to explain today s major media server based architectures disc based architectures distribution architectures and merging shared architectures Each topic is discussed in terms of the technological background evolution current tools and production tips and techniques

Oracle 10g Developing Media Rich Applications Lynne Dunckley,Larry Guros,2011-04-08 Oracle 10g Developing Media Rich Applications is focused squarely on database administrators and programmers as the foundation of multimedia database applications With the release of Oracle8 Database in 1997 Oracle became the first commercial database with integrated multimedia technology for application developers Since that time Oracle has enhanced and extended these features to

include native support for image audio video and streaming media storage indexing retrieval and processing in the Oracle Database Application Server and development tools Databases are not only words and numbers for accountants but they also should utilize a full range of media to satisfy customer needs from race car engineers to manufacturing processes to security The full range of audio video and integration of media into databases is mission critical to these applications This book details the most recent features in Oracle's multimedia technology including those of the Oracle10gR2 Database and the Oracle9i Application Server The technology covered includes object relational media storage and services within the database middle tier application development interfaces wireless delivery mechanisms and Java based tools Gives broad coverage to integration of multimedia features such as audio and instrumentation video from race cars to analyze performance to voice and picture recognition for security data bases As well as full multimedia for presentations Includes field tested examples in enterprise environments Provides coverage in a thorough and clear fashion developed in a London University Professional Course

Advances in Multimedia Information Processing - PCM 2004 Kiyoharu Aizawa, Yuichi Nakamura, Shin'ichi Satoh, 2004-10-29 Welcome to the proceedings of the 5th Pacific Rim Conference on Multimedia PCM 2004 held in Tokyo Waterfront City Japan November 30 December 3 2004 Following the success of the preceding conferences PCM 2000 in Sydney PCM 2001 in Beijing PCM 2002 in Hsinchu and PCM 2003 in Singapore the fifth PCM brought together the researchers developers practitioners and educators in the field of multimedia Theoretical breakthroughs and practical systems were presented at this conference thanks to the support of the IEEE Circuits and Systems Society IEEE Region 10 and IEEE Japan Council ACM SIGMM IEICE and ITE PCM2004 featured a comprehensive program including keynote talks regular paper presentations posters demos and special sessions Were received 385 papers and the number of submissions was the largest among recent PCMs Among such a large number of submissions we accepted only 94 oral presentations and 176 poster presentations Seven special sessions were also organized by world leading researchers We kindly acknowledge the great support provided in the reviewing of submissions by the program committee members as well as the additional reviewers who generously gave their time The many useful comments provided by the reviewing process must have been very valuable for the authors work

This conference would never have happened without the help of many people We greatly appreciate the support of our strong organizing committee chairs and advisory chairs Among the chairs special thanks go to Dr Ichiro Ide and Dr Takeshi Naemura who smoothly handled publication of the proceedings with Springer Dr Kazuya Kodama did a fabulous job as our Web master

Resource Management of Mobile Cloud Computing Networks and Environments Mastorakis, George, Mavromoustakis, Constandinos X., Pallis, Evangelos, 2015-03-31 As more and more of our data is stored remotely accessing that data wherever and whenever it is needed is a critical concern More concerning is managing the data banks and storage space necessary to enable cloud systems Resource Management of Mobile Cloud Computing Networks and

Environments reports on the latest advances in the development of computationally intensive and cloud based applications. Covering a wide range of problems, solutions and perspectives, this book is a scholarly resource for specialists and end users alike making use of the latest cloud technologies. **Multimedia Technologies and Applications for the 21st Century** Borko Furht, 1997-11-30. Multimedia Technologies and Applications for the 21st Century Visions of World Experts presents contributions from leading researchers and experts describing their current research and their views of the future trends in the field. The book consists of thirteen chapters in five parts. These chapters tackle a number of critical issues in distributed multimedia systems and applications from VLSI processors that support multimedia and multimedia servers through multimedia databases and multimedia networks and communications to merging multimedia applications. Only a few years ago multimedia seemed like a brand new research field and an emerging new industry. Today at the edge of the 21st century multimedia research is coming of age and the multimedia industry has significantly grown with the total market estimated to be about 50 billion. Several years ago it was felt that the digital media revolution had just started, however the seeds had been sown long before. Fundamental technologies such as interactive laser disks, video games and electronic encyclopedias were invented in the 1970s and 80s. They represented the seeds for current hot applications such as digital libraries, video on demand, interactive television and videoconferencing. Another aspect of the digital media revolution is the formation of a new media industry composed of computer entertainment, communication and consumer electronics companies. Many industry segments are currently involved in creating new products and services positioning themselves for the 21st century. They include telephone cable and satellite TV companies, communication equipment companies, TV and radio broadcasters on line, Internet service providers, cable channels, movie studios, record companies, book publishers, CD ROM title creators, Internet tool vendors, multimedia software tools companies, computer companies, general software tools companies, computer add on vendors, semiconductor vendors and consumer electronics vendors. **Multimedia Technologies and Applications for the 21st Century Visions of World Experts** should stimulate the curiosity of its readers and inspire new technological breakthroughs in this exciting field. It serves as a valuable reference for system designers, engineers, programmers and managers who are involved in multimedia systems, the Internet and their applications. This book can also be used as a textbook for advanced courses on multimedia in engineering curricula. **Streaming Media Delivery in Higher Education: Methods and Outcomes** Wankel, Charles, Law, J. Sibley, 2011-06-30. This book is both a snapshot of streaming media in higher education as it is today and a window into the many developments already underway forecasting of areas yet to be developed. Provided by publisher. **MMS** Daniel Ralph, Paul Graham, 2004-04-21. MMS has evolved from the huge popularity of the SMS text service for GSM networks. It is a departure from the transport mechanism used for SMS which is based on the GSM signalling channels to the use of IP to transport messages within the MMS network. To this end MMS has similarities with Internet email and standard IETF protocols. As with any new technology it is difficult to accurately predict the position within

the next 5 years although based on previous experience with WAP and SMS it would be fair to say that these protocols will increase in usage over the next 5 years and become legacy for a further 5 years following which users will migrate onto the next wave of messaging Significant revenue growth and data usage is expected to be driven by consumer usage of MMS But MMS technology offers more than just a broadening of message content With MMS it is not only possible to send your multimedia messages from one phone to another but also from phone to email and vice versa This feature dramatically increases the possibilities of mobile communication both for private and corporate use Multimedia messaging will reshape the landscape of mobile communication making it more personal more versatile and more expressive than ever before MMS Is the first book to address how MMS and the use of IP to transport messages will affect existing infrastructure and business models Covers the fundamental changes to mail and billing systems Includes future recommendations such as interoperability and evolution Presents an overview of the MMS technology components Drawing on the authors hands on experience in the implementation of MMS technology developing billing and delivering services at BT this innovative book will appeal to engineering managers network operators market analysts business decision makers content providers and operator organizations

BTEC National IT Practitioners Jenny Lawson, 2004 This text provides all the necessary underpinning knowledge for the BTEC National IT Practitioners qualification It offers case studies to enable students to apply theory to vocational practice portfolio builders providing activities and guidance and IVA Advice on completing assignments

Handbook of Video Databases Borko Furht, Oge Marques, 2003-09-30 Technology has spurred the growth of huge image and video libraries many growing into the hundreds of terabytes As a result there is a great demand among organizations for the design of databases that can effectively support the storage search retrieval and transmission of video data Engineers and researchers in the field demand a comprehensive reference that will help them design and implement the most complex video database projects Handbook of Video Databases Design and Applications presents a thorough overview in 45 chapters from more than 100 renowned experts in the field This book provides the tools to help overcome the problems of storage cataloging and retrieval by exploring content standardization and other content classification and analysis methods The challenge of these complex problems make this book a must have for video database practitioners in the fields of image and video processing computer vision multimedia systems data mining and many other diverse disciplines

PC Mag, 2000-10-03 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology

Getting the books **Creating Dynamic Presentations With Streaming Media** now is not type of inspiring means. You could not lonely going past ebook heap or library or borrowing from your associates to entry them. This is an categorically simple means to specifically get guide by on-line. This online declaration Creating Dynamic Presentations With Streaming Media can be one of the options to accompany you subsequently having extra time.

It will not waste your time. take me, the e-book will enormously declare you additional situation to read. Just invest little become old to right of entry this on-line revelation **Creating Dynamic Presentations With Streaming Media** as skillfully as evaluation them wherever you are now.
