Rediscovering the West Stephen C. Rowe, 1994-01-01 An inquiry into how westerners can tap into their own philosophical and spiritual traditions to grow beyond their unsteadiness of relations inner dullness and underlying absence of vision or orientation and become more alert compassionate and intelligent Reviews the Zen worldview and such western traditions as the mystical Christ Socrates a Congressional Record United States. Congress, 1984 *Dupes* Paul Kengor, 2023-06-27 In this startling intensively researched book bestselling historian Paul Kengor shines light on a deeply troubling aspect of American history the prominent role of the dupe From the Bolshevik Revolution through the Cold War and right up to the present many progressives have unwittingly aided some of America's most dangerous opponents Based on never before published FBI files Soviet archives and other primary sources Dupes exposes the legions of liberals who have furthered the objectives of America's adversaries Kengor shows not only how such dupes contributed to history's most destructive ideology Communism which claimed at least 100 million lives but also why they are so relevant to today's politics

 Europe and the Soviet Union* Gyorgy Peteri, 2010-11-28 This volume presents work from an international group of writers
 who explore conceptualizations of what defined East and West in Eastern Europe imperial Russia and the Soviet Union The
 contributors analyze the effects of transnational interactions on ideology politics and cultural production They reveal that the
 roots of an East West cultural divide were present many years prior to the rise of socialism and the Cold War The chapters
 offer insights into the complex stages of adoption and rejection of Western ideals in areas such as architecture travel writings
 film music health care consumer products political propaganda and human rights They describe a process of mental mapping
 whereby individuals captured and possessed Western identity through cultural encounters and developed their own
 interpretations from these experiences Despite these imaginaries political and intellectual elites devised responses of
 resistance defiance and counterattack to defy Western impositions Socialists believed that their cultural forms and
 collectivist strategies offered morally and materially better lives for the masses and the true path to a modern society Their
 sentiments toward the West however fluctuated between superiority and inferiority But in material terms Western products
 industry and technology became the ever present yardstick by which progress was measured The contributors conclude that
 the commodification of the necessities of modern life and the rise of consumerism in the twentieth century made it impossible
 for communist states to meet the demands of their citizens The West eventually won the battle of supply and demand and
 thus the battle for cultural influence The Feasts of the Kingdom Maurice A. Fetty, 2002 For Christians there is no more
 important meal than Holy Communion yet there are many occasions in the Bible where Jesus taught his friends and disciples

 mealtimes today where we can develop a sense of community and Christian fellowship that is emblematic of the spiritual

Conservatism Edmund Fawcett, 2020-10-20 The sharp polarisation of left and right is commonly dwelt on as the big political handicap of our times Angry divisions on the right itself get less attention Conservatism fills that gap Across Europe and the US a liberal right is at war with an illiberal right As the leading force in politics it is vital to understand the roots of the right's struggle with itself how it stands and how it is likely to come out From its early 19th century origins to now conservatism never finally settled on how far to compromise with liberalism democracy and the capitalist world out of which both grew By the late 19th century the mainstream right had come to terms with all three Its reward was lasting success in the next century and beyond On the political fringes and among ethical cultural critics a recalcitrant right unreconciled to liberal democracy never died Resistance to liberal democracy is seen today in the hard right a strange but potent alliance of hyper liberal globalists and anti liberal localists Conservatism focuses on an exemplary core of France Britain Germany and the United States It describes the parties politicians and thinkers of the right bringing out strengths and weaknesses in conservative thought An appendix includes definitions of leading terms a brief account of conservatism's philosophical origins and mini lives of more than 200 conservatives Historical and topical neither celebration nor caricature Conservatism is a unique panoramic survey of the Western world's dominant political tradition

com 2023 01 book inventory vladimir djambov talmach html Every Orthodox Christian is placed between two worlds this fallen world where we try to work out our salvation and the other world heaven the homeland towards which we are striving and which if we are leading a true Christian life gives us the inspiration to live from day to day in Christian virtue and love But the world is too much with us We often and in fact nowadays we usually forget the heavenly world The pressure of worldliness is so strong today that we often lose track of what our life as a Christian is all about Even if we may be attending church services frequently and consider ourselves active church members how often our churchliness is only something external bound up with beautiful services and the whole richness of our Orthodox tradition of worship but lacking in real inner conviction that Orthodoxy is the faith that can save our soul for eternity lacking in real love for and commitment to Christ the incarnate God and Founder of our faith How often our church life is just a matter of habit something we go through outwardly but which does not change us inwardly does not make us grow spiritually and lead us to eternal life in God But it is easy to become lost in dreams of the future world We should be aware of what is to happen at the end of the world and of what may happen in Russia But spiritual events such as the resurrection of Russia depend upon each individual soul This seven will not happen without the participation of the Orthodox people our repentance and struggle And this involves not only the people of Russia itself it involves the whole of the Russian Diaspora and all the Orthodox people of the world
