Pilkington, 2015-05-01 Fantasy and science fiction began in print and from the first films to the latest blockbusters print stories have provided the inspirations the ideas and in some cases the detailed blueprints Adaption Studies has long been an area of intense debate in literature and film studies but no single work has ever approached fantasy and science fiction texts as unique and important areas of inquiry by themselves The Fantastic Made Visible with 16 fresh essays is the first book to do exactly that From the earliest adaptations of Jules Verne Robert A Heinlein and Shakespeare to recent films based on The Hobbit Planet of the Apes and The Hunger Games this book offers a wide range of critical approaches and films from around the world **Spinegrinder** Clive Davies, 2015-03-06 First came video and more recently high definition home entertainment through to the internet with its streaming videos and not strictly legal peer to peer capabilities With so many sources available today s fan of horror and exploitation movies isn t necessarily educated on paths well trodden Universal classics 1950s monster movies Hammer as once they were They may not even be born and bred on DAWN OF THE DEAD In fact anyone with a bit of technical savvy quickly becoming second nature for the born clicking generation may be viewing MYSTICS IN BALI and S S EXPERIMENT CAMP long before ever hearing of Bela Lugosi or watching a movie directed by Dario Argento In this world H G Lewis so called godfather of gore carries the same stripes as Alfred Hitchcock master of suspense SPINEGRINDER is one man s ambitious exhaustive and utterly obsessive attempt to make sense of over a century of exploitation and cult cinema of a sort that most critics won t care to write about One opinion 8 000 reviews or thereabouts **The Films of the Eighties** Robert A. Arguably the most compelling of Johansson's career the movie follows a unique tale of one woman's journey to self discovery This is the first book to be written about the quiet masterpiece revisiting the film scene by scene through all its cinematic elements Extensive interviews detail the challenges the filmmakers faced from hidden filming on the streets of Glasgow to defying a blizzard in the Scottish Highlands Readers are invited to explore connections between the movie and its science fiction cousins and discover the reasons why *Under the Skin* deserves to find a wider audience *New York Magazine*

**Verne on Film** Thomas C. Renzi,2004-03-24 Jules Verne Voila a name that resonates with visions of fantastic adventures and images of exotic exploits In his voyages extraordinaires the noted French author fuses his encyclopedic knowledge of science and geography with his ability to tell fascinating tales taking his readers on unprecedented journeys across the globe into the earth and out into space This revered writer who with his boundless imagination had hoped to contribute substantially to the world of letters has surpassed that expectation to become coincidentally a significant influence on film Jules Verne on Film is both a penetrating analytical overview of Verne's epic novels and a comprehensive filmography of the numerous films inspired by his stories and characters There are the obvious adaptations that come directly from the pages of Verne's writings films such as *In Search of the Castaways* and *Mysterious Island* However looking closely at the plots characters and themes of many other films science fiction and otherwise one discovers that the incomparable Verne has had a far wider influence on filmmakers than one might have thought For instance most of us are familiar with Disney's *20 000 Leagues Under the Sea* 1954 and some of us may have even seen the two 1997 television productions But Verne's classic undersea adventure also provides the underpinnings for such entertaining movies as *Fantastic Voyage* 1966 and *Innerspace* 1987 Structurally Jules Verne on Film begins with a biographical sketch and contains 23 chapters arranged alphabetically according to book title starting with *The Adventures of Captain Hatteras* and ending with *Voyage Across the Impossible* Each chapter includes a summary and analysis of Verne's story followed by a chronological treatment of the cinematic adaptations compared to their respective written work Production credits appear in the film entries along with plot synopses and thorough critical commentaries **Ten Great Lies That Threaten Western Civilization** Barry Howard
