Aliens and Others Jenny Wolmark, 1993 Explores the radical potential of feminist science fiction to question dominant cultural definitions of difference and identity self and other It examines the way in which the generic conventions of science fiction are subverted so that notions of both genre and gender identity are redefined *Citizenship, Nationality, and Migration in Europe* David Cesarani, Mary Fulbrook, 1996 BRITAIN Tony Kushner Aliens, UFOs and Other Mysteries from Space Sarah Levene, 2021 Many people are fascinated by stories of alien sightings and unidentified objects Some people claim there is a scientific explanation for alien sightings and others insist they are real Be a mystery solver by reading stories of claimed sightings and use all the evidence to decide what you believe **Abductions and Aliens** Chris A. Rutkowski, 1999-09 Based on almost 25 years of investigation and research science writer Chris Rutkowski looks critically at abduction stories **Race, Aliens, and the U.S. Government in African American Science Fiction** Elisa Edwards, 2011 This thesis deals with contemporary African American science fiction It focuses on three texts by Derrick Bell Octavia Butler and Walter Mosley and examines the ways in which they convert the dominantly white SF genre By addressing non traditional issues such as racism racial boundaries and the politics of species these alien encounter stories demonstrate that it is not the intruders from outer space who are the real threat to U S society but their own white U S Government Thesis Series Master Research Vol 2 **The Gendered Cyborg** Fiona Hovenden, Linda Janes, Gill Kirkup, Kathryn Woodward, 2013-09-13 The Gendered Cyborg explores the relationship between representation technoscience and gender through the metaphor of the cyborg The contributors argue that the figure of the cyborg offers ways of thinking about the relationship between culture and technology people and machines which disrupt the power of science to enforce the categories through which we think about being human male and female Taking inspiration from Donna Haraway's groundbreaking *Manifesto for Cyborgs* the articles consider how the cyborg has been used in cultural representation from reproductive technology to sci fi and question whether the cyborg is as powerful a symbol as is often claimed The different sections of the reader explore the construction of gender categories through science the interaction of technoscience and gender in contemporary science fiction film such as *Blade Runner* and the *Alien* series debates around modern reproductive technology such as ultrasound scans and IVF assessing their benefits and constraints for women issues relating to artificial intelligence and the internet *Vampires Vs Aliens* P.A. as thought It is an alien invasion wanting only to replenish its food supplies with the warm bodies of the local inhabitants How can he put aside his feud with Ridley the vampire hunter his queen s killer How can he embrace the unexpected friendship of Lorna a sultry dark witch Trust Jack the alpha of the werewolf pack Then work together if they are to survive against the monstrous alien race Vampires Vs Aliens A Dark Alliance is a mash up of when the worlds of science fiction paranormal and supernatural collide This is what could happen if aliens and vampire battled Keywords vampires aliens alien invasion witches werewolves action adventure war paranormal science fiction sci fi mashup *Making Strangers: Outsiders, Aliens and Foreigners* Abbes Maazaoui, 2019-04-05 Studies on foreignness have increased substantially over the last two decades in response to what has been dubbed the migration refugee crisis Yet they have focused on specific areas such as regions periods ethnic groups and authors Predicated on the belief that this so called twenty first century problem is in fact as old as humanity itself this book analyzes cases based on both long term historical perspectives and current occurrences from around the world Bringing together an international group of scholars from Australia Asia Europe and North America it examines a variety of examples and strategies mostly from world literatures ranging from Spain s failed experience with consolidation as a nation state type entity during the Golden Age of Castile to Shakespeare s rhetorical subversion of the language of fear and hate to Mario Rigoni Stern s random status at the unpredictable Italian Austrian borders to Lawrence Durrell s ambivalent approach to noticing the physically visible other to the French government s ongoing criminalization of hospitality to Sandra Cisneros s attempt at straddling two countries and cultures while belonging to neither one to the illusive legal limbo of the DREAMers in the United States We are not born foreigners we are made The purpose of the book is to assert as denoted by the title this fundamental premise that is the making of strangers is the result of a deliberate and purposeful act that has social political and linguistic implications The ultimate expression of this phenomenon is the compulsive labeling of people along artificial categories such as race gender religion birthplace or nationality A corollary purpose of the book is to help shed light worldwide on one of the most pressing issues facing the world today the place of the other amid fear mongering and unabashedly contemptuous acts and rhetoric toward immigrants refugees and all those excluded within because of race gender national origin religion and ethnicity As illustrated by the examples examined in this book humans have certainly evolved in many areas dealing with the other might not have been one of those It is hoped that the book encourages reflection on how the arts and especially world literatures can help us navigate and think through the ever present crisis the place of the stranger among us *Novels by Aliens* Kate Marshall, 2023-10-10 A wide ranging account of the twenty first century s fascination with the weird Twenty first century fiction and theory have taken a decidedly weird turn They both show a marked interest in the nonhuman and in the preternatural moods that the nonhuman often evokes Writers of fiction and criticism are avidly experimenting with strange even alien perspectives and protagonists Kate Marshall s *Novels by Aliens* explores this development broadly while focusing on problems of genre fiction She identifies

three key generic hybrids that harness a longing for the nonhuman the old weird an alternative tradition within naturalism and modernism for the twenty first century s cowboys and aliens cosmic realism the reach for words legible only from space in otherwise terrestrial narratives and pseudoscience fiction which imagines speculative futures beyond human life on earth Offering sharp and surprising insights about a breathtaking range of authors from Edgar Rice Burroughs to Kazuo Ishiguro Willa Cather to Maggie Nelson *Novels by Aliens* tells the story of how genre became mood in the twenty first century

Bureau of Immigration, 1928 **Alien Constructions** Patricia Melzer, 2010-01-01 An incisive critical work that looks at Octavia Butler's writing the movies of the Matrix and Alien series and more through a feminist lens Femspec Feminist thinkers and writers are increasingly recognizing science fiction's

potential to shatter patriarchal and heterosexual norms while the creators of science fiction are bringing new depth and complexity to the genre by engaging with feminist theories and politics This book maps the intersection of feminism and science fiction through close readings of science fiction literature by Octavia E Butler Richard Calder and Melissa Scott and the movies The Matrix and the Alien series Patricia Melzer analyzes how these authors and films represent debates and concepts in three areas of feminist thought identity and difference feminist critiques of science and technology and the relationship among gender identity body and desire including the new gender politics of queer desires transgender and intersexed bodies and identities She demonstrates that key political elements shape these debates including global capitalism and exploitative class relations within a growing international system the impact of computer industrial and medical technologies on women's lives and reproductive rights and posthuman embodiment as expressed through biotechnologies the body machine interface and the commodification of desire Melzer's investigation makes it clear that feminist writings and readings of science fiction are part of a feminist critique of existing power relations and that the alien constructions cyborgs clones androids aliens and hybrids that populate postmodern science fiction are as potentially empowering as they are threatening
