Aliens And Savages:

Aliens and Savages Janeen S. Webb, Andrew Enstice, 1998 **Indian Stereotypes in TV Science Fiction** Sierra S. Adare, 2009-08-17 According to an early 1990s study 95 percent of what college students know about Native Americans was acquired through the media leading to widespread misunderstandings of First Nations peoples Sierra Adare contends that negative Indian stereotypes do physical mental emotional and financial harm to First Nations individuals At its core this book is a social study whose purpose is to explore the responses of First Nations peoples to representative Indian stereotypes portrayed within the TV science fiction genre Participants in Adare s study viewed episodes from My Favorite Martian Star Trek Star Trek Voyager Quantum Leap The Adventures of Superman and Star Trek The Next Generation Reactions by viewers range from optimism to a deep rooted sadness The strongest responses came after viewing a Superman episode s depiction of an evil medicine man who uses a ceremonial pipe to kill a warrior The significance of First Nations peoples responses and reactions are both surprising and profound After publication of *Indian Stereotypes in TV Science Fiction* ignorance can no longer be used as an excuse for Hollywood s irresponsible depiction of First Nations peoples culture traditions elders religious beliefs and sacred objects **Aliens & Savages** Janeen Webb, Andrew Enstice, 2023-08-21 Aliens you can see the close relationship between the popular press and the prejudices of its readers *The Noble Savage in the New World Garden* Gaile McGregor, 1988 This book is a literary history of the Noble Savage and a comprehensive metamorphology of the American mind Wide ranging and deep diving this book suggests many reevaluations of American heroes and attitudes **Alien Constructions** Patricia Melzer, 2010-01-01 An incisive critical work that looks at Octavia Butler s writing the movies of the Matrix and Alien series and more through a feminist lens Femspec Feminist thinkers and writers are increasingly recognizing science fiction s potential to shatter patriarchal and heterosexual norms while the creators of science fiction are bringing new depth and complexity to the genre by engaging with feminist theories and politics This book maps the intersection of feminism and science fiction through close readings of science fiction literature by Octavia E Butler Richard Calder and Melissa Scott and the movies The Matrix and the Alien series Patricia Melzer analyzes how these authors and films represent debates and concepts in three areas of feminist thought identity and difference feminist critiques of science and technology and the relationship among gender identity body and desire including the new gender politics of queer desires transgender and intersexed bodies and identities She demonstrates that key political elements shape these debates including global capitalism and exploitative class relations within a growing international system the impact of computer industrial and medical technologies on women s lives and reproductive rights and posthuman embodiment as expressed through biotechnologies the body machine interface and the commodification of desire Melzer s investigation makes it clear that feminist writings and readings of science fiction are part of a feminist critique of existing power relations and that the alien constructions cyborgs clones androids aliens and hybrids that populate postmodern
