Michael Hall,Siamak Seyfi,S. Mostafa Rasoolimanesh,2022-07-26 This timely volume brings together various issues in Muslim consumer cultures and provides a comprehensive account of Muslim tourism and tourist behaviour Islam is a major international religion and Muslims are a majority of the population in many countries in Asia the Middle East and North Africa The growth of a substantial middle class the development of Islamic consumer cultures rising Muslim market consumption in non Muslim majority destinations and the growing significance of intra Muslim traffic and rising outbound

tourism expenditure in emerging Muslim markets have all contributed to substantial interest in Muslim tourism. However, travel by Muslims is about far more than the Hajj and Umrah as important as they are as acts of devotion. Instead, although often portrayed in the West as a monolithic religion, Muslim travel and leisure behaviour is very diverse with different traditions and cultures leading to a range of expressions of tourism related consumption culture and practices. Drawing on a range of empirical studies undertaken in different social and economic contexts and countries, this book provides a well balanced portrayal of the Muslim tourism experience and practices. This book makes a substantial contribution to an improved understanding of Muslim travel culture and will be required reading for anyone interested in this fast growing market.

Minority and Indigenous Trends 2022: Focus on Work Peter Grant, 2022-06-15. Work is central to a whole host of other rights providing the basis for a safe, healthy and dignified existence. For members of minorities, indigenous peoples and other marginalized groups such as migrants, however, it is all too often an arena of discrimination, abuse and exploitation. From poor pay and dangerous working conditions to a lack of basic labour protections and barriers to promotion, the challenges they face are wide ranging and often entangled in other areas of inequality such as access to education. This volume brings together thematic chapters and case studies that explore different dimensions of work related exclusion from the legacy of colonialism in today's economy to the persistence of slavery and caste based discrimination. While abuse and exploitation are often rooted in specific local histories and social contexts, the increasingly interlinked nature of globalization has meant that companies, governments and consumers are now complicit in forced labour and other rights violations taking place elsewhere. A truly fair and inclusive labour market would deliver a wide range of economic and societal benefits, creating opportunities for marginalized workers to participate fully in the formal economy with the same rights, protections and support as those enjoyed by others guaranteed by international law. Beyond this, however, it has the potential to deliver lasting change to the situation of minorities, indigenous peoples and migrants worldwide, ensuring they receive a proper share of any economic gains in their countries and can participate fully in public life.
