described and illustrated almost anything that anybody could possibly need or want in the way of store bought goods In fact in that pre department store era it was usually the only source for such goods Imagine if Montgomery Ward had issued an illustrated catalogue in the days of Louis XIV or Elizabeth I or Charlemagne what insights would we have into the daily life of the common folk the farmers and shopkeeper housewives and schoolchildren what sources of information for historians and scholars collectors and dealers what models for artists and designers In 1895 Montgomery Ward was the oldest largest and most representative mail order house in the country The brainchild of a former traveling salesman it issued its first catalogue in 1872 a one page listing of items By 1895 the catalogue reprinted here had grown to 624 pages and listed some 25 000 items almost all of them illustrated with live drawings Montgomery Ward was by then a multi million dollar business that profoundly affected the American economy and since it reached the most isolated farms and backwoods cabins its effect on American culture was almost as great Now once again available it is our truest most unbiased record of the spirit of the 1890s An introduction on the history of the Montgomery Ward Company and its catalogue has been prepared especially for this edition by Boris Emmet Ph D Johns Hopkins a foremost expert on retail merchandising His monumental work *Catalogues and Counters* has long been recognized as a landmark in the study of American economic history

Clark,2016-04-11 Driving across the country in the early twentieth century was high adventure In 1925 Willie Chester Clark and his family piled into a modified Chevrolet touring car affectionately named Leaping Lena and took off for the West Clark s account of the journey will acquaint readers with cross country travel at a time when Americans were just inventing the road trip Editor David Dary discovered a copy of Clark s account among his grandfather s personal papers Dary introduces the tale of how Leaping Lena clocked some 12 000 miles in five months starting from West Virginia and traveling to the Northwest down the Pacific Coast to Southern California through the Desert Southwest and

back home via the Southern Plains Among the highlights of the trip were visits to Yellowstone Yosemite Mount Rainier and Crater Lake Writing while sitting on a camp stool his typewriter resting on the car s front bumper W C Clark turned out lively descriptions of the family s experiences with all the wit and panache of his later journalism career Clark details road conditions the quality of accommodations the cost of gas and food user fees at national parks and the number and variety of fellow tourists his party encountered He also describes the pitfalls of life on the road Flat tires were a daily occurrence mechanical breakdowns almost as frequent and the crude mostly unpaved roads were named but not yet numbered and only intermittently marked And if the Clarks were not lucky enough to stay with friends they had to camp Framed by an introduction and annotations that set the story in context and illustrated with photographs of gas stations roadside attractions and roadsters typical of the day Touring the West with Leaping Lena gives a firsthand glimpse into the early days of cross country automobile trips Readers will enjoy its historical detail even as they realize that when it comes to family road trips some things haven t changed
