Norman K. Denzin

Craft Of Inquiry Theories Methods Evidence:

The Craft of Inquiry Robert R. Alford, 1998 In his provocative new book Robert Alford proposes that the starting point for any researcher in the process and craft of inquiry should begin with an understanding of how to translate elements of his her own history personal experience and issues which can then be formulated into research questions He presents three basic explanatory approaches to sociology multivariate interpretive and historical and strives to illustrate the artistic rather than formulaic side of research design presenting several ways that research questions can be framed The Craft of Qualitative Research Steven W. Kleinknecht, Lisa-Jo K. van den Scott, Carrie B. Sanders, 2018-12-07 The Craft of Qualitative Research is a consultative handbook that offers students a superb introduction to the practice of conducting qualitative research Kleinknecht van den Scott and Sanders bring together a rich collection of perspectives ideas and experiences from scholars and professionals who span all stages of the academic career from graduate students to emeritus professors Highly accessible and practical this text equips readers with the tools necessary to manage and overcome obstacles biases and power dynamics while researching in the field Over the course of ten sections every stage of the qualitative research process is explored including planning reflecting on ethical considerations gaining entry to the field collecting and analyzing data leaving the field and disseminating findings Representing a diversity of academic disciplines the fifty five contributors share their knowledge gained and challenges encountered on the ground providing a behind the scenes look at the reality of doing fieldwork Filled with sound advice engaging stories and active learning exercises this edited collection will help develop the skills and confidence needed to conduct qualitative research making it the perfect resource for students in the social sciences particularly sociology anthropology criminology health studies and social work **Handbook of Survey Research** Peter V. Marsden, James D. Wright, 2010-04-28 With chapters on sampling measurement questionnaire construction and question writing survey implementation and management survey data analysis special types of surveys and integrating surveys with other data collection methods this title includes topics such as measurement models the role of cognitive psychology and surveying networks The Sage Handbook of Organizational Research Methods Professor David Buchanan, Professor Alan Bryman, 2009-05-01 The SAGE Handbook of Organizational Research Methods provides a rich resource for organizational researchers locating the technical aspects of organizational research in the wider context of the relevant personal epistemological theoretical historical ethical and political issues David Buchanan and Alan Bryman have gathered together many of the world's leading writers on theory method and analysis in organizational research and have made this the most comprehensive and cutting edge volume in this ever growing field **Methods of Social Movement Research** Bert Klandermans, Suzanne Staggenborg, 2002 Citing the critical importance of empirical work to social movement research the editors of this volume have put together the first systematic overview of the major methods used by social movement theorists Original chapters cover the range of techniques surveys formal models discourse analysis in depth interviews

participant observation case studies network analysis historical methods protest event analysis macro organizational analysis and comparative politics Each chapter includes a methodological discussion examples of studies employing the method an examination of its strengths and weaknesses and practical guidelines for its application Shaping a Science of Social Work John S. Brekke,Jeane W. Anastas,2019 Shaping a Science of Social Work provides a basic framework for a social work science in terms of basic constructs domains and characteristics considered within the context of academic disciplinaryity and professional identity Centered on the formation of social work science from a realist critical realist position contributions from eminent scholars offer detailed and rigorous analyses of various essential issues Theory Construction and Model-Building Skills James Jaccard,Jacob Jacoby,2020-02-06 This book provides young scientists with tools to assist them in the practical aspects of theory construction We take an informal journey through the cognitive heuristics tricks of the trade and ways of thinking that we have found to be useful in developing theories essentially conceptualizations that can advance knowledge in the social sciences This book is intended to provide the instructor with a useful source for helping students come up with ideas for research and for fine tuning the resultant theories that emerge from such thinking An objective of this book is to move toward a needed balance in the emphases given to theory construction and theory testing *Judging Addicts* Rebecca Tiger,2013 The number of people incarcerated in the U S now exceeds 2 3 million due in part to the increasing criminalization of drug use over 25% of people incarcerated in jails and prisons are there for drug offenses Judging Addicts examines this increased criminalization of drugs and the medicalization of addiction in the U S by focusing on drug courts where defendants are sent to drug treatment instead of prison Rebecca Tiger explores how advocates of these courts make their case for what they call enlightened coercion detailing how they use medical theories of addiction to justify increased criminal justice oversight of defendants who through this process are defined as both sick and bad Tiger shows how these courts fuse punitive and therapeutic approaches to drug use in the name of a progressive and enlightened approach to addiction She critiques the medicalization of drug users showing how the disease designation can complement rather than contradict punitive approaches demonstrating that these courts are neither unprecedented nor unique and that they contain great potential to expand punitive control over drug users Tiger argues that the medicalization of addiction has done little to stem the punishment of drug users because of a key conceptual overlap in the medical and punitive approaches that habitual drug use is a problem that needs to be fixed through sobriety Judging Addicts presses policymakers to implement humane responses to persistent substance use that remove its control entirely from the criminal justice system and ultimately explores the nature of crime and punishment in the U S today *Writing for Emerging Sociologists* Angelique Harris,Alia Tyner-Mullings,2013-01-04 A writing guide designed for upper level sociology undergraduate students and graduate students this instructional text introduces students to the variety of writing projects that sociologists undertake while also providing instruction on grammar and composition It will provide students with practical knowledge concerning

topics such as peer reviewed journal manuscripts book reviews grant proposals and field notes What makes this book unique is that it offers useful advice and instruction for sociology college students whether they plan on entering the academy or the private non profit or government sectors Writing for Emerging Sociologists uses writing as a tool to help students learn not only about sociology as a field of study but also the practice of sociology Warfighting and Disruptive Technologies Terry Pierce,2004-08-05 Occasionally during times of peace military forces achieve major warfighting innovations Terry Pierce terms these developments disruptive innovations and shows how senior leaders have often disguised them in order to ensure their innovations survived He shows how more common innovations however have been those of integrating new technologies to help perform existing missions better and not change them radically The author calls these sustaining innovations The recent innovation history suggests two interesting questions First how can senior military leaders achieve a disruptive innovation when they are heavily engaged around the world and they are managing sustaining innovations Second what have been the external sources of disruptive and sustaining innovations This book is essential reading for professionals and students interested in national security military history and strategic issues **Islamic Sisterhood** Etsuko Maruoka-Donnelly,2019-01-24 Muslims have been major targets of hate crimes and discrimination in the US since 9 11 Anti Muslim resentment increased again after Donald Trump won the U S presidency and revitalized far right politics In this hostile environment why do many young Muslim women choose to wear a headscarf and publicly display their Islamic identity This book unravels this puzzle by drawing on sociological insights and three years of ethnographic study with Muslim adolescents in New York during the post 9 11 backlash It finds that young American born Muslim women choose to cover their hair and bodies not simply out of spiritual devotion to Islamic fundamentalism but also and primarily to cope with social adversity rooted in sexism racism and patriarchy in both their ethnic community and the larger Western society This book will appeal to scholars students and other readers interested in the Muslim diaspora gender race and ethnicity youth immigration and social movements *High-Profile Crimes* Lynn S. Chancer,2010-02-15 O J Simpson The Central Park jogger Bensonhurst William Kennedy Smith Rodney King These are more than crimes and criminals more than court cases They are cultural events that for better or worse gave concrete expression to latent social conflicts in American society In High Profile Crimes Lynn Chancer explores how these cases became conflated with larger social causes on a collective level and how this phenomenon has affected the law the media and social movements An astute and incisive chronicle of some of the most polarizing cases of the 1980s and 1990s High Profile Crimes shows that their landmark status results from the overlapping interaction of diverse participants The merging of legal cases and social causes Chancer argues has wrought ambivalent effects on both social movements and the law On the one hand high profile crimes offer important opportunities for emotional expression and raise awareness of social issues But on the other hand social problems cannot be resolved through the either or determinations that are the goals of the legal system creating frustration for those who look to the outcome of these cases

for social progress Guilt or innocence through the lens of the media leads to either defeat or victory for a social cause a confounding situation that made the O J Simpson case for example unable to resolve the issues of domestic violence and police racism that it had come to symbolize Based on nearly two hundred interviews Chancer s discussions of the infamous Central Park jogger and Bensonhurst cases as well as the rape trials of William Kennedy Smith and Mike Tyson the assault cases of Rodney King and Reginald Denny and finally the O J Simpson murder trial provide a convincing multidimensional and innovative analysis of the most charged public dramas of the last two decades **Beyond the Case** Corey M.

Abramson,Neil Gong,2020 The social sciences have seen a substantial increase in comparative and multi sited ethnographic projects over the last three decades Yet at present researchers seeking to design comparative field projects have few scholarly works detailing how comparison is conducted in divergent ethnographic approaches In **Beyond the Case** Corey M. Abramson and Neil Gong have gathered together several experts in field research to address these issues by showing how practitioners employing contemporary iterations of ethnographic traditions such as phenomenology grounded theory positivism and interpretivism use comparison in their works The contributors connect the long history of comparative and anti comparative ethnographic approaches to their contemporary uses By honing in on how ethnographers render sites groups or cases analytically commensurable and comparable **Beyond the Case** offers a new lens for examining the assumptions payoffs and potential drawbacks of different forms of comparative ethnography **Critical Methods in**

Political and Cultural Economy Johnna Montgomerie,2017-04-28 **Critical Methods in Political and Cultural Economy** offers students and scholars the first methods book for the critical school of International Political Economy IPE What does it mean to do critical research How do we write about the evidence we present This volume explores our shared critical ethic to demonstrate how methods are transformative and reimagines research strategies as both an embodied practice and a social process By presenting methodologically informed ways of researching enriched by real life accounts from academics doing empirical research the volume seeks to forge a new collaborative path that builds a critical ethic and modes of inquiry within International Political Economy Substantive chapters advance the pluralism of the critical school of cultural political economy and seek to articulate its nascent research ethic Short autobiographical vignettes articulate the professional journeys of contributors who do critical political economy There is practical advice on how to develop evidence from an iterative reflexive research strategy Using this innovative format offers a guide to methods in critical political economy by engaging directly with the people doing research not only as technical practice but also as lived experience The combination of research and practice presented throughout the book offers an extensive and authoritative framework for evaluating how methods are part of critical research and will be essential reading for all students and scholars of IPE **Handbook of Qualitative**

Midnight Basketball Douglas Hartmann, 2016-07-29 Midnight basketball may not have been invented in Chicago but the City of Big Shoulders home of Michael Jordan and the Bulls is where it first came to national prominence And it s also where Douglas Hartmann first began to think seriously about the audacious notion that organizing young men to run around in the wee hours of the night all trying to throw a leather ball through a metal hoop could constitute meaningful social policy Organized in the 1980s and 90s by dozens of American cities late night basketball leagues were designed for social intervention risk reduction and crime prevention targeted at African American youth and young men In *Midnight Basketball* Hartmann traces the history of the program and the policy transformations of the period while exploring the racial ideologies cultural tensions and institutional realities that shaped the entire field of sports based social policy Drawing on extensive fieldwork the book also brings to life the actual on the ground practices of midnight basketball programs and the young men that the programs intended to serve In the process *Midnight Basketball* offers a more grounded and nuanced understanding of the intricate ways sports race and risk intersect and interact in urban America

The Landscape of Qualitative Research Norman K. Denzin, 2008 *The Landscape of Qualitative Research* Third Edition attempts to put the field of qualitative research in context Part I provides background on the field starting with history then action research and the academy and the politics and ethics of qualitative research Part II isolates what we regard as the major historical and contemporary paradigms now structuring and influencing qualitative research in the human disciplines The chapters move from competing paradigms positivist

postpositivist constructivist critical theory to specific interpretive perspectives feminisms racialized discourses cultural studies sexualities and queer theory Part III considers the future of qualitative research This text is designed for graduate students taking classes in social research methods and qualitative methods as well as researchers throughout the social sciences and in some fields within the humanities

Working Method Lois Weis,Michelle Fine,2004-08-02 Working Method focuses on the theory method and politics of contemporary social research As ethnographic and qualitative research become more popular noted scholars Weis and Fine provide a roadmap for understanding the complexities involved in doing this research

Indigenizing the Academy Devon Abbott Mihesuah,Angela Cavender Wilson,2004-01-01 Native American scholars reflect on issues related to academic study by students drawn from the indigenous peoples of America Topics range from problems of racism and ethnic fraud in academic hiring to how indigenous values and perspectives can be integrated into research methodologies and interpretive theories
