## **Crazy States A Counterconventional Strategic Problem:**

*Crazy States* Yehezkel Dror, 1980      *Strategic Review*, 1981 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States      *Strategic Culture and Weapons of Mass Destruction* K. Kartchner, J. Johnson, 2009-01-05 This book describes strategic culture and its value as a methodological approach to the study of International Relations In particular the book uses strategic culture to illuminate a number of case studies on countries that have made decisions regarding the acquisition proliferation or use of weapons of mass destruction      **Rogue States as Norm Entrepreneurs** Carmen Wunderlich, 2019-10-11 This book investigates whether so called rogue states assumed antagonists of a Western liberal world order could also act as norm entrepreneurs by championing the genesis and evolution of global norms The author explores this issue by analyzing the arms control policies of the Islamic Republic of Iran A comparison with the prototypical norm entrepreneur Sweden and the Democratic People's Republic of North Korea a notorious norm breaker reveals interesting insights for norm research Apparently norm entrepreneurship manifests itself in different degrees and phases of the norm life cycle The finding that Iran indeed acts as a norm entrepreneur in some cases also sheds light on those factors that might account for the success or failure of norm advocacy Lastly the book offers a new perspective on rogue states by not only regarding them as irrational antagonists of the current world order but also as legitimate participants in a discourse on what the ruling order should look like This book will appeal to scholars interested in critical norm research in international relations This book offers cutting edge norm research highlighting how norm breakers can function as norm makers Maria Rost Rublee Associate Professor of International Relations Monash University Australia So called rogue states are typically understood as norm breakers but Carmen Wunderlich makes a persuasive conceptual case backed by empirical research that we need to consider the extent to which they are in fact norm entrepreneurs in their own right In an era characterized by much concern over the status of liberal norms this is a very timely study Richard Price Department of Political Science The University of British Columbia Canada At a time when the world order is under pressure this cutting edge analysis of how dissatisfied states challenge existing global norms illuminates a topic crucial to understanding contemporary international relations Nina Tannenwald Director Watson Institute for International and Public Affairs Brown University Rhode Island USA      *Managing International Risk* Richard J. Herring, 1983 Issues addressed include the prospects for foreign exchange crises trade wars international banking crises and oil shortages      **The Capacity to Govern** Yehezkel Dror, 2012-12-06 The inadequacies of contemporary forms of governance are increasingly recognized the brain drain from politics distrust of governments the danger of mass media and money dominated elections and the failure of governments to find good policy options on major issues Industry civil society and non governmental organizations however important cannot compensate for government's incapacity to shape the future which only it is democratically entitled to do Radical improvements in governance are urgently needed but

salient proposals are scarce This book diagnoses contemporary governments as obsolete and proposes changes in values structures staffing public understanding and political culture to equip governance for the radically novel challenges of the 21st century This is the first Report dealing with governance commissioned and approved by the Club of Rome testifying to the significance of this book     Understanding Deterrence Keith B. Payne,2014-06-11 For decades the rational actor model served as the preferred guide for U S deterrence policy It has been a convenient and comforting guide because it requires little detailed knowledge of an opponent s unique decision making process and yet typically provides confident generalizations about how deterrence works The model tends to postulate common decision making parameters across the globe to reach generalizations about how deterrence will function and the types of forces that will be stabilizing or destabilizing Yet a broad spectrum of unique factors can influence an opponent s perceptions and his calculations and these are not easily captured by the rational actor model The absence of uniformity means there can be very few deterrence generalizations generated by the use of the rational actor model that are applicable to the entire range of opponents Understanding Deterrence considers how factors such as psychology history religion ideology geography political structure culture proliferation and geopolitics can shape a leadership s decision making process in ways that are specific and unique to each opponent Understanding Deterrence demonstrates how using a multidisciplinary approach to deterrence analysis can better identify and assess factors that influence an opponent s decision making process This identification and assessment process can facilitate the tailoring of deterrence strategies to specific purposes and result in a higher likelihood of success than strategies guided by the generalizations about opponent decision making typically contained in the rational actor model This book was published as a special issue of Comparative Strategy     Public Policy Making Reexamined Yehezkel Dror,2017-09-29 Public Policymaking Reexamined is now recognized as a fundamental treatise for public policy studies Although it caused much controversy when it was first published for its systematic approach to policy studies the book is acknowledged as a modern classic of continuing importance for the teaching and research of public policy planning and policy analysis and public administration The paperback includes a new introduction updating and supplementing many of the author s original ideas Professor Dror combines the approaches of policy analysis behavioral science and systems analysis in his examination of the reality of public policymaking and his suggestions for its reform Actual policymaking is carefully evaluated with the help of explicit criteria and standards based on an optimal model approach resulting in detailed proposals for improvement He applies a scientific orientation to the study of social facts and theory     *Essentials of Terrorism* Gus Martin,2021-12-19 Captivating concise and accessible Essentials of Terrorism Concepts and Controversies covers key foundational topics by defining terrorism and introducing its history and causes Author Gus Martin introduces readers to the modern landscape of terrorism and discusses terrorist environments domestic international religious etc as well as tactics targets and counterterrorism Included in the Sixth Edition is an added focus on U S hate crimes and homeland

security in addition to new introductory discussions information and data throughout each chapter      *Crisis and War* Patrick James,1988 Using an analysis of patterns of international crisis and war from 1948 to 1975 Patrick James suggests why some international crises result in war while others do not Over one hundred cases are used to assess the three most prominent explanations for crisis escalation to war 1 war is the result of rational choice by leaders who expect to gain from it 2 war is the product of the outward projection of political unrest within states and 3 war is the result of classical balance of power politics James concludes that the best explanations for war include elements from all three categories      Trends in Nuclear Proliferation, 1975-1995 Lewis A. Dunn,Herman Kahn,Hudson Institute,1976      **Deterrence Now** Patrick M.

Morgan,2003-04-17 Patrick Morgan s authoritative study revisits the place of deterrence after the Cold War

**Understanding Terrorism** Gus Martin,2006-02-17 Praise for the First Edition I am very favorably impressed with this book The author is well informed and an excellent writer The recommended readings Web sites boxes tables and the like provide very attractive features There is an abundance of very good historical and current examples I would adopt this book for my courses and look forward to its publication Frank Hagan Mercyhurst College Understanding Terrorism Second Edition is a uniquely comprehensive exploration of contemporary terrorism suitable for professional as well as for academic courses of instruction It incorporates key topics as well as discussion boxes and Web exercises intended to stimulate critical thinking in readers a true one stop shop for gaining an understanding of the field New to the Second Edition new chapters on religious terrorism a consolidated chapter on ideological terrorism and a new chapter on two cutting edge topics gender focused political violence and the nexus between criminal enterprises and terrorist violence a resource Website devoted to the book to enhance learning introductory opening viewpoints in each chapter to give an overview of the concepts explored within Understanding Terrorism is one of the first core studies on the subject of terrorism offering a comprehensive review of the events ideas motivations and histories that result in terrorist activity as well as an examination of the theories helping to explain such activity      **Conflict, Crisis, and War in World Politics** Patrick James,James M. Scott,2025-01-09 This topical

textbook outlines conflict crisis and war as central challenges in the international security arena exploring their history evolution nature dynamics and trends Patrick James and James M Scott discuss the major approaches to analysing conflict crisis and war and identify the key avenues for managing them      **The Evolution of Nuclear Strategy** Lawrence Freedman,Jeffrey Michaels,2019-07-31 The Evolution of Nuclear Strategy quickly established itself as a classic when it first appeared in 1981 This edition makes it even better incorporating as it does new material about the Cold War and up dating to include subsequent developments Filled with insights and penetrating analysis this volume is truly indispensable Robert Jervis Author of How Statesmen Think Freedman and Michaels have written a thorough and thought provoking guide to nuclear strategy The authors analyze the causes of both wise and unwise strategic decisions in the past and thereby shine a bright light on dilemmas we face in our common nuclear future Scott Sagan Stanford University USA With its comprehensive

coverage clear and direct language and judicious summaries of a vast literature this new and wholly revised edition of *The Evolution of Nuclear Strategy* will be essential reading for any student of nuclear history strategic studies or contemporary international relations Matthew Jones London School of Economics and Political Science UK Sir Lawrence Freedman's *The Evolution of Nuclear Strategy* has been the first port of call for three generations of academics and policy makers wanting to familiarize themselves with the subject matter The success of this book could have led Professor Freedman to satisfy himself with regular updates or afterwords But the tireless author is now gracing us with an entirely revised edition of his masterpiece nearly forty years after its initial publication taking into account findings from archives and declassified documents At the same time *The Evolution of Nuclear Strategy* remains true to its original purpose and spirit an easy to read manual light with footnotes focusing on policy rather than on theory and thus the best possible introduction to an arcane subject In an era when nuclear strategy issues seem to be becoming relevant again its historical scope and breadth will make its reading or re reading even more useful if only because knowing about the absurdity of the Cold war arms race is a prerequisite if one does not want to repeat its mistakes Bruno Tertrais Deputy Director Fondation pour la Recherche Stratégique France This updated and improved edition of the classic text on the evolution of nuclear strategy is a must read for anyone attempting to understand the nuclear predicament and where it is heading Impressive in every respect T V Paul James McGill Professor of International Relations McGill University Canada and the author of *The Tradition of Non Use of Nuclear Weapons* After the end of the Cold War we hoped for a world in which nuclear weapons would have low salience or might even disappear into virtual non assembled arsenals Alas they are coming to the fore again With changes in political context and technology it is thus pressing that the Bible on the Evolution of Nuclear Strategy should be updated Lawrence Freedman's great classic has been admirably updated with the help of Jeff Michaels The work just as its previous editions thus remains the definitive and authoritative point of reference on nuclear strategy in the twenty first century Beatrice Heuser Chair of International Relations University of Glasgow Scotland First published in 1981 Lawrence Freedman's *The Evolution of Nuclear Strategy* was immediately acclaimed as the standard work on the history of attempts to cope militarily and politically with the terrible destructive power of nuclear weapons It has now been completely rewritten drawing on a wide range of new research and updated to take account of the period following the end of the cold war and covering all nuclear powers

*Reflections on Multiple Modernities* Dominic Sachsenmaier, S. Shmuel Noah Eisenstadt, Jens Riedel, 2002-01-01 *Multiple Modernities* is a departure from the classic sociological homogenization theories The edition presents an interdisciplinary discussion of the topic in sociological historical and economic dimensions It explores culturally specific forms of modernity with a focus on China and Europe

**Holy War** David S. New, 2015-10-03 Temple Mount is believed by some Jews to be the locus of their ancient Temple Known to Muslims as Haram al Sharif the Noble Sanctuary this site is home to two mosques one of which is the third most holy shrine in all of Islam Jewish fundamentalists want to destroy

the mosques on Temple Mount and rebuild the Temple Christian apocalypticists are financing and supporting their efforts If the mosques are destroyed Islamic fundamentalists have vowed to destroy Israel resulting in the possibility of nuclear war This book addresses the idea that the recent rise of militant Christian Jewish and Muslim fundamentalisms and their interaction are endangering peace in the Middle East It fully examines the thesis that apocalypticist fundamentalists Christians in America Jews in Israel and America are working together to hasten the coming of the Messiah by instigating a Holy War in the Middle East Several chapters focus on three U S political figures Jerry Falwell Ronald Reagan and Pat Robertson who helped bring Christian fundamentalism into the mainstream of American politics One chapter tells of Jewish preparations for rebuilding the Temple on Temple Mount Other chapters document the rise of religious fundamentalism in Israel since 1967 Haram al Sharif Temple Mount crises involving Christian Jewish cooperation and the rise of Islamic fundamentalism Separate chapters are devoted to Israel s nuclear program and political psychology and the fact that nuclear weapons are leaving Russia and finding their way to Islamic nations and Islamic terrorists The Uncertainty Doctrine Alexandra Homolar,2023-09-14 The first account of narrative politics in US defense policy surrounding the end of the Cold War This book will appeal to a broad readership group including Foreign Policy Analysis Critical Security Studies and International Relations It will also be useful for courses on American politics **The Future Security Environment in the**

**Middle East** Nora Bensahel,Daniel Byman,2004-03-12 This report identifies several important trends that are shaping regional security It examines traditional security concerns such as energy security and the proliferation of weapons of mass destruction as well as newer challenges posed by political reform economic reform civil military relations leadership change and the information revolution The report concludes by identifying the implications of these trends for U S foreign policy

**Authoritarian Consolidation in Times of Crisis** John Polga-Hecimovich,Raul Sanchez Urribarri,2025-03-31 Bringing together experts from across the social sciences this volume examines the consolidation of authoritarianism in Venezuela under the government of Nicol s Maduro Taking a comparative perspective it explains how authoritarians can remain ensconced in power amidst profound economic crisis widespread social discontent low approval ratings and international policies aimed at their removal Moreover it seeks to understand the mechanisms and dynamics with which Maduro has consolidated an authoritarian regime in Venezuela To this end the editors differentiate the concept of authoritarian consolidation from the more studied processes of democratic erosion and democratic backsliding The book s contributors explore in detail the country s process of autocratization under Maduro at the national and international levels identifying and explaining the role of diverse actors and institutions in Venezuela s political regime and their respective contributions to safeguarding and stabilizing the Maduro administration By offering a systematic examination of the mechanisms by which regime change was fostered under Maduro s rule this volume directly engages with scholarly research on regime transitions and democratic collapse democratic breakdown and the consolidation of authoritarian rule and comparative institutional

work on Venezuelan politics The book is relevant to scholars and students of Venezuela as well as anyone interested in the pressing question of regime crisis survival and authoritarian consolidation

When people should go to the ebook stores, search commencement by shop, shelf by shelf, it is really problematic. This is why we allow the ebook compilations in this website. It will completely ease you to look guide **Crazy States A Counterconventional Strategic Problem** as you such as.

By searching the title, publisher, or authors of guide you essentially want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area within net connections.
