

Figure 6-2 Specify a color of point with the Color Picker.

AS A MATTER OF FACT The number values in the HSB or RGB fields of the Color Picker can be useful if you're trying to precisely match colors; otherwise, you can ignore them.

Once you see a range of desirable colors, click anywhere in the color field to choose a specific color. Watch the top color swatch as you pick different colors; it shows you a swatch of the new or adjusted color, while the swatch below it shows the original color. When you're pleased with your color choice, click **OK**.

Swatches Palette
