Creating America Joyce Moser,Ann Watters,1995 CREATING AMERICA FOURTH EDITION presents readings and JOYCE MOSER images that depict the political and social changes in America from the Revolutionary War to the twenty first century Its argumentative focus will teach you how to persuade others through written words and visual ideas   **Creating America** Joyce Moser,Ann Watters,2001-08 For Writing Composition courses especially those with a focus on argument and or research This reader emphasizes the argumentative strategies students need to analyze and write arguments At the same time it helps students see that Americans have always defined themselves and maintained a sense of unity despite great diversity through ongoing public debate about what America means Selections reflect colonial times to the present and include posters photographs advertisements and court cases in addition to essays poems and stories   The Transatlantic Dialogue on Higher Education Ulla Krieger,2011 Comparing apples and oranges frequently this is what we do when we talk about similarities and differences regarding higher education in the United States and Europe Based on the assumption that higher education policy texts are cultural texts to be interpreted this book deconstructs four US American cultural narratives within higher education co operation the frontier myth McDonaldization and the narrative of security and compares these to discourses prevailing in Europe Disputing the prevalent claim that both the recent European higher education transformation initiative the Bologna Process and the establishment of the European Higher Education Area EHEA have had absolutely no impact on US institutions of higher learning this study proves that cultural narratives in the last decade have strongly determined political and structural developments in higher education on both sides of the Atlantic This book therefore adds another facet to the transatlantic dialogue on higher education by providing a cultural critical perspective including the Foucauldian theory of governmentality as well as aspects of postcolonial theory   **Creating America** Joyce Moser,Ann Watters,1999 The editors present selections from arguments that have interested and engaged Americans throughout the nation's history in an effort to show students how to analyze and criticize those arguments An index of authors titles and rhetorical terms makes selection of specific essays easier   *Journal of American Studies* ,2001

Goering,Paul L. Thomas,2018-04-16 This edited collection is not a response to the 2016 United States Presidential Election so much as it is a response to the issues highlighted through that single event and since when incredibly smart sophisticated and intelligent members of our society were confused by misinformation campaigns While media literacy and critical media literacy are ideas with long histories in formal education including K 12 students and higher education the need for increased attention to these issues has never reached a flash point

like the present The essays collected here are confrontations of post truth fake news mainstream media and traditional approaches to formal schooling But there are no simple answers or quick fixes Critical media literacy we argue here may well be the only thing between a free people and their freedom     *Forthcoming Books* Rose Arny,2003     **Subject Guide to Books in Print** ,1997     06-2009, ۱۹۹۷-۲۰۰۹ ۱۹۹۷-۲۰۰۹     *A History of the Book in America* David Paul Nord,Joan Shelley
