Summa Theologiae, Prima Pars: Volume 2, On the Holy Trinity and Creation in General, QQ 27-74 Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23 When Leo XII promulgated Aeterni Patris in 1879 he stipulated that the Leonine or official edition of the Summa should always be printed in conjunction with Cajetan s Commentary For five hundred years they were studied together Generations were trained by reading through the Summa article by article with Cajetan s commentaries in hand Early printed editions of the Summa typically included them in a Talmudic arrangement as marginal text running around each article by Aquinas This edition imitates that example Recently serious thinkers of all denominations and none have found new reasons to be interested in St Thomas His text is deceptively simple yet important issues are handled in every article sometimes below the surface Cajetan extracts these hidden issues and explains and elaborates on them with remarkable affinity to modern analytical philosophy Part of that affinity lies in the use of modal logic a tool whose importance was overlooked between the Renaissance and the twentieth century The time is ripe for an analytically inspired translation of Thomas hence this volume Never until now has Cajetan s Commentary been put into English in its entirety William Marshner s translation is consistent with fidelity to the technical force of the original The translator s footnotes acknowledge what empirical science has made obsolete in the work of St Thomas and also make clear how much today s science would have saved Thomas useless labor This volume will for the first time make Cajetan s help available to the modern reader

The Holy Bible, Containing the Old and New Testaments: Job to Solomon's Song ,1837      **De Aeternitate Mundi** John Peckham,1993 This dual language book is a translation of John Peckham s De aeternitate mundi On the Eternity of the World written probably in 1270 Peckham was born in England around 1230 He pursued studies in Paris where he may have been a student of Roger Bacon s and at Oxford He returned to Paris some time between 1257 and 1259 to study theology and in 1269 1270 became magister theologiae It was at this time that he presumably wrote the essay translated here and presented it as part of his inception the equivalent of a doctrinal defense in 1271 when he sought to become a magister regens a member of the theological faculty While Peckham was studying in Paris two controversial theological innovations were being debated The first issue involved the founding of the mendicant orders Franciscans and Dominicans in the first decade of the thirteenth century Their active moving about preaching and teaching represented a departure from the established Rule of St Benedict in which Orders were largely confined to monasteries The second debate was over the introduction of the new philosophy of Aristotle The Dominicans and Franciscans found themselves allied against the Latin Averroists or Radical Aristotelians on such issues as the unicity of the intellect and the assertion of the world s eternity in the sense that it was not created The two Orders disagreed however on the truth of other Aristotelian theses such as the unicity of substantial form and the demonstrability of the world s having a beginning in time On another front having to do with the legitimacy of the Dominicans and Franciscans interpretation of religious life the two Orders united under attacks from the secular clergy Peckham a Franciscan witnessed his Order allied with the Dominicans against Averroists and secular clergy and at odds with them over Aristotelianism in orthodox theology During this tumultuous time Peckham met and probably discussed his inception with Thomas and his position on the eternity of the world can be compared to the treatment of the topic found in the writings of St Thomas Aquinas and St Bonaventure In 1279 Peckham was named the Archbishop of Canterbury by Pope Nicolas III in this position it was expected that he carry out reforms mandated by the Council of Lyons The ruling of that

council included the eradication of the Averroists radical departures from theological philosophy and some of the theses held by the Thomists Pecham died in 1291 no doubt in disappointment that the reforms for which he had strived never came to pass
