The African American Struggle for Secondary Schooling, 1940-1980 John L. Rury, Shirley A. Hill, 2015-04-24 This is the first comprehensive account of African American secondary education in the postwar era Drawing on quantitative datasets as well as oral history this compelling narrative examines how African Americans narrowed the racial gap in high school completion The authors explore regional variations in high school attendance across the United States and how intraracial factors affected attendance within racial groups They also examine the larger social historical context such as the national high school revolution the civil rights movement campaigns to expand schooling and urging youth to stay in school and Black migration northward Closing chapters focus on desegregation and the urban crisis of the 1960s and 1970s that accelerated White flight and funding problems for urban school systems The conclusion summarizes these developments and briefly looks at the period since 1980 when secondary attainment levels stopped advancing for Blacks and Whites alike Book Highlights A comprehensive history drawing on statistical analysis archival research and interviews with African Americans who attended school in the 1940s and 1950s Lessons from the past showing how parents and local communities played the most direct and dynamic role in the fight for access to education Today s major challenges including the growth of inner city poverty and changing family structures John L Rury is professor of education and by courtesy history at the University of Kansas Shirley A Hill is professor of sociology at the University of Kansas Based on prodigious research The African American Struggle for Secondary Schooling sets a new standard of excellence in social history and policy studies The authors evocatively recreate the passions of the civil rights movement and centrality of public schools in the ongoing quest for justice opportunity and freedom William J Reese Carl F Kaestle WARF Professor of Educational Policy Studies and History University of Wisconsin Madison This book is a rich and compelling addition to the literature on secondary education generally and on secondary education for African Americans specifically It will set the standard for historical studies on American high schools for a long time to come Jeffrey Mirel David L Angus

Collegiate Chair of Education Professor of History University of Michigan The African American Struggle for Secondary Schooling fills a major gap in the history of African American educational history This book will be on my shelf and will no doubt be on the shelves of scholars and students who study African American educational history Thomas V O'Brien Professor and Chair Department of Educational Studies and Research University of Southern Mississippi This is the only book length account of the growth and impact of secondary education for African Americans post 1930 With a unique and original analysis the authors frame key themes not only within the common historiographical tradition of an unfolding of growth and development over time but correctly understand that high school entailed opportunities for attainment in a broader social sense as well Michael Fultz Professor Department of Educational Policy Studies University of Wisconsin Madison

Black Male Teachers Chance W. Lewis, Ivory Toldson, 2013-04-23 This edited volume offers sound suggestions for advancing diversity in the teaching profession It provides teacher education programs with needed training materials to accommodate Black male students and school district administrators and leaders with information to help recruit and retain Black male teachers

Creating Caring and Nurturing Educational Environments for African American Children Vivian Gunn Morris, **American Educational History Journal** J. Wesley Null, 2009-11-01 The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history

Education For All Terese C. Jimenez, 2008-02-12 Education for All provides readers with a historical perspective regarding the education of students with disabilities in the U S over the past 30 years while critically examining current practices and making recommendations for the future Chapter topics address important overarching issues in the field that cut across individual disabilities These include issues related to establishing early intervention in K 12 settings including students with disabilities in general education settings working collaboratively with families as partners providing appropriate instructional practices reducing the over identification of minorities in special education programs and implementing special education law for the benefit of all children and families The book helps readers gain a better understanding of the most pressing issues in the world of special education so they can improve their own educational clinical and research practices

Interrogating Critical Pedagogy Pierre Wilbert Orelus, Rochelle Brock, 2014-11-13 Educators teacher practitioners and social activists have successfully used critical pedagogy as a tool to help marginalized students develop awareness and seek alternative solutions to their poor educational and socioeconomic situations However this theory is often criticized as being mostly dominated by privileged white males bringing issues of race and gender to the forefront This volume provides insight on how

critical pedagogy can be helpful to scholars and teachers alike in their analysis of racial gender linguistic and political problems It features a wide range of respected scholars who examine the way and the degree to which critical pedagogy can be used to improve education for students of color women and other marginalized groups Resources in Education,2001-04 The Price They Paid Vivian Gunn Morris,Curtis L. Morris,2002-07-25 In this compelling book Curtis and Vivian Morris put a human face on desegregation practices in the South Focusing on an African American community in Alabama they document not only the gains but also the significant losses experienced by students when their community school was closed and they were forced to attend a White desegregated school across town This in depth volume includes A letter by Dr William Hooper Councill and speeches by George Washington Trenholm two African American leaders who worked with communities to provide quality schooling for African American children during segregation An insider s view of what life was like inside a segregated African American school including interviews with graduates who discuss how it felt to be in a caring and nurturing school that provided an atmosphere much like that of a family Actual events that demonstrate the profound negative impact of using skin color and race as a basis for preferential treatment including testimonials from parents and students who experienced racial discrimination in their new school A valuable look at the unmet promises of school desegregation that can help us provide a quality education for all children in the 21st century Handbook of Classroom Management Carolyn M. Evertson,Carol S. Weinstein,2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems continue to be a major cause of teacher burnout and job dissatisfaction Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field The Handbook of Classroom Management has four primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research in this area To this end 47 chapters have been organized into 10 sections each chapter written by a recognized expert in that area Cutting across the sections and chapters are the following themes First positive teacher student relationships are seen as the very core of effective classroom management Second classroom management is viewed as a social and moral curriculum Third external reward and punishment strategies are not seen as optimal for promoting academic and social emotional growth and self regulated behavior Fourth to create orderly productive environments teachers must take into account student characteristics such as age developmental level race ethnicity cultural background socioeconomic status and ableness Like other research handbooks the Handbook of Classroom Management provides an indispensable reference volume for scholars

teacher educators in service practitioners and the academic libraries serving these audiences It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management

Narrowing the Achievement Gap
Susan J. Paik, Herbert J. Walberg, 2007-06-04 The subject of minority children's learning has long been the concern of civic leaders parents scholars and educators The federal legislation No Child Left Behind emphasizes the concern even more It specifically requires assessing the academic achievement of minority students particularly in economically disadvantaged areas and holding schools accountable for their progress Schools that fail to attain Adequate Yearly Progress face the real possibility of being forced to close if they continually fail to perform Unlike the past these are increasingly high stakes consequences for educators parents students and the schools that serve them This book is timely and relevant because it addresses these issues and recommends solutions for Latino Black and Asian students This book also has implications for the problems the nation faces in helping all students to learn well particularly those that lag in academic achievement In considering the broad problems and in recommending solutions the book provides breadth concision and unique organization As the introductory chapter makes clear the book simultaneously considers not only the three most visible minority groups in the U S but draws upon the perspectives of anthropology education ethnic studies psychology and sociology From these several perspectives this book is organized within three broad sections 1 culturally diverse families and schooling 2 issues of immigration and schooling experiences and 3 socio cultural perspectives on teaching learning and development Within each section the authors marshal research literature regarding each ethnic minority group

The Color of Teaching
June Gordon, 2002-11-01 One of the major concerns in education at present is how to recruit and attract more teachers from ethnic minorities In an attempt to move beyond the superficial and simplistic responses as to why these students are not entering teaching this book presents in depth interviews with over two hundred people from four ethnic groups African Americans Native Americans Asian Americans and Latinos These interviewees many of them teachers or education professionals express their attitude towards teaching and their understanding of why others may not choose teaching as a career One of the most significant and surprising findings is that regardless of academic or socio economic standing students from these ethnic groups tend not to be encouraged to enter the teaching profession by their own families communities and peers The book concludes with a discussion of programmatic changes and calls for the reconceptualization of the role of teachers Such changes can only arise out of a fundamental change in attitude of communities of color towards teaching which must be led by teachers themselves

Hello Professor
Vanessa Siddle Walker, 2009-08-16 Like many black school principals Ulysses Byas who served the Gainesville Georgia school system in the 1950s and 1960s was reverently addressed by community members as Professor He kept copious notes and records throughout his career documenting efforts to improve the education of blacks Through conversations with Byas and access to his extensive archives on his principalship Vanessa Siddle Walker finds that black principals were well positioned in the community to serve as conduits of ideas

knowledge and tools to support black resistance to officially sanctioned regressive educational systems in the Jim Crow South Walker explains that principals participated in local regional and national associations comprising a black educational network through which power structures were formed and ideas were spread to schools across the South The professor enabled local school empowerment and applied the collective wisdom of the network to pursue common school projects such as pressuring school superintendents for funding structuring professional development for teachers and generating local action that was informed by research in academic practice The professor was uniquely positioned to learn about and deploy resources made available through these networks Walker s record of the transfer of ideology from black organizations into a local setting illuminates the remembered activities of black schools throughout the South and recalls for a new generation the role of the professor in uplifting black communities

Schoolhouse Activists Tondra L. Loder-Jackson, 2015-10-26 Schoolhouse Activists examines the role that African American educators played in the Birmingham Alabama civil rights movement from the late nineteenth century to the present day Drawing on multiple perspectives from education history and sociology Tondra L Loder Jackson revisits longstanding debates about whether these educators were friends or foes of the civil rights movement She also uses Black feminist thought and the life course perspective to illuminate the unique and often clandestine brand of activism that these teachers cultivated The book will serve as a resource for current educators and their students grappling with contemporary struggles for educational justice

African American Women Educators Karen A. Johnson, Abul Pitre, Kenneth L. Johnson, 2014-03-18 This book examines the lived experiences and work of African American women educators during the 1880s to the 1960s Specifically this text portrays an array of Black educators who used their social location as educators and activists to resist and fight the interlocking structures of power oppression and privilege that existed across the various educational institutions in the U S during this time This book seeks to explore these educators thoughts and teaching practices in an attempt to understand their unique vision of education for Black students and the implications of their work for current educational reform

Reframing Financial Literacy Thomas A. Lucey, James D. Laney, 2012-06-01 Scholarship related to financial and consumer education largely concerns itself with the acquisition management and growth of financial resources In a global setting that witnesses increasing competition for natural resources along with diminishing appreciation for human rights a challenge for financial and consumer educators involves developing foundation for bettering individual wealth in manners that respect all members of a global society Reframing Financial Literacy fills this need by providing literature that examines a broad view of financial literacy by connecting financial practice with issues of citizenship along with personal and professional identity It relates these issues to educational theory and practice to provide the reader with information about the relevance of improving social worth while bettering financial wealth Boasting 14 previously unpublished chapters from an international slate of authors and classroom adaptable lesson plans for each chapter Reframing Financial Literacy will interest both teachers and researchers with its exciting

classroom activities and its provocative content This is a must work that no education professional should be without

Using Past as Prologue Dionne Danns,Michelle A. Purdy,Christopher M. Span,2015-08-01 In 1978 V P Franklin and James D Anderson co edited New Perspectives on Black Educational History For Franklin Anderson and their contributors there were glaring gaps in the historiography of Black education that each of the essays began to fill with new information or fresh perspectives There have been a number of important studies on the history of African American education in the more than three decades since Franklin and Anderson published their volume that has pushed the field forward Scholars have redefined the views of Black southern schools as simply inferior demonstrated the active role Blacks had in creating and sustaining their schools sharpened our understanding of Black teachers and educational leaders role in educating Black students and themselves with professional development provided a better understanding and recognition of the struggles in the North particularly in urban and metropolitan areas expanded our thinking about school desegregation and community control and broadened our understanding of Black experiences and activism in higher education and private schools Our volume will highlight and expand upon the changes to the field over the last three and a half decades In the shadow of 60th anniversary of Brown v Board of Education and the 50th anniversary of the 1964 Civil Rights Act contributors expand on the way African Americans viewed and experienced a variety of educational policies including segregation and desegregation and the varied options they chose beyond desegregation The volume covers both the North and South in the 19th and 20th centuries Contributors explore how educators administrators students and communities responded to educational policies in various settings including K 12 public and private schooling and higher education A significant contribution of the book is showcasing the growing and concentrated work in the era immediately following the Brown decision Finally scholars consider the historian s engagement with recent history contemporary issues future directions methodology and teaching
