Young,2000-07-01 From biblical times through the Middle Ages and the Reformation the Christian religion enjoyed a sturdy belief in God consistent with human knowledge of the universe But modern science then introduced a new picture of this world at odds not only with the old world picture but with the miracle working God of ancient Scripture Of the many different responses to this conflict three stand out i To deny the religious view of God and the world or ii To deny many solid findings of generations of scientists concerning the evolution of stars the Earth and life or iii To deny little yet to affirm little in religion to repeat ancient rituals without serious conviction Lee Adams Young a physicist and Bible scholar claims to replace this chaos with an orderly view of God and the world in only 437 pages He makes three main points 1 The Bible consistently but falsely split the world into two separate realms Heaven and Earth God rarely or never left his celestial throne room to visit the Earth The steeples of traditional churches pointed toward this Sky God and the Lord s Prayer still speaks of a Father in Heaven The result has been a disconnect between God and the believer a chasm bridged only by armies of angels and other intermediaries or via long distance calls The solution according to At Home with God Here and Now is to proclaim as does science that there is only one realm of reality God should be seen as dwelling in this world says Young indeed within each of us available for direct communication and personal support Prayer should take the form of face to face communication with a person no farther away than the other end of a park bench 2 The Bible consistently and correctly insists upon the inseparability of the human body and soul So does Aristotle and the latest Catholic Catechism Alas in postbiblical times many Jews and Christians have come to believe that at death the human soul could detach itself from the body and ascend to Heaven Young responds as follows a If there is no Heaven the latter step has no meaning We are face to face with God now in this life Because we already live in a sacred world one need not die in order to reach the divine b The notion of a soul that can function independently of bodily support goes against ancient and modern awareness of the influence of bodily conditions on thinking and memory c Near death experiences NDEs are reports from the living not from those who died Medical research shows that NDEs are triggered not by the objective peril of death but by the subjective fear of death d Human faith in an afterlife can blunt the human need to put interpersonal relationships in order in this life We must mend our personal fences now there is no second chance as the Hebrew Bible says 3 The God depicted in Young s book is entirely consistent with modern science That God is seen as the essential governor of nature whose regularities people depend on and science describes This book is recommended to all who seek a religious faith based on reality not makebelieve a faith grounded in ancient wisdom yet believable in this modern age      What are They Saying about Environmental Theology? John Hart,2004 This book offers a comprehensive analysis of Catholic teachings on environmental themes by

exploring official statements from Rome and the bishops of the Americas as well as from contemporary visionary theologians p 4 cover

**Grounding God** Arianne Conty, 2023-12-01 Now that we have entered the Anthropocene the geological age in which humans have altered the natural world to such an extent that nature and culture can no longer be separated the modern dichotomies of mind versus body and culture versus nature have become implausible and need to be replaced In **Grounding God** Arianne Conty argues that it is in the field of religion where we can find a new ontology better suited for the Anthropocene Conty calls this new religious ontology the grounding of the sacred in that it seeks to deconstruct the binaries of modernity and provide in their place a revalorization of the immanent earth and the more than human beings that inhabit it Such a grounding of the sacred is a potent means to overcome the exploitation and desecration of the earth and its nonhuman beings and to provide in its stead an inclusive cosmopolitics that extends mind into matter and culture into nature Tracing such a grounding in the Christian Buddhist neopagan and animist traditions Conty seeks to elaborate an interdisciplinary ecosophy one that uses philosophy anthropology and religious studies to provide new values for the present age

**Ecospirituality** Rachel Wheeler, 2022-02-08 Ecospirituality for the first time comprehensively introduces and lays the foundation for further individual growth in the burgeoning field of ecospirituality Rachel Wheeler covers the background for environmentally oriented spirituality in the Christian tradition beginning with expressions of creation care and creation degradation in the Judeo Christian Scriptures and moving through important moments and figures in the history of Christian spirituality With this foundation in place she reveals how expressions of renewed interest in creation care are showing up amid our compromised living habitats today and shows what ideas laid the groundwork for beginning to speak of God human identity and human responsibility in certain ways Turning to ecospiritual practice Wheeler presents specific practices from a variety of global religious traditions paying particular attention to Indigenous spiritual traditions She also explores interdisciplinary areas that have combined some essential aspects of their own focus of engagement with ecology and furthermore with ecospirituality Such areas as ecojustice ecofeminism ecowomanism and ecopoetics all provide points of contact with the work that ecospirituality makes possible and have important implications for personal and social transformation Wheeler's concise introduction to ecospirituality is not only a foundation laying tool for educators but also a concise thorough way for individuals and students to gain a comprehensive understanding of ecospirituality and why it matters

Nature, Technology, and Society Victor Ferkiss, 1994-11 Traces cultural attitudes toward the environment and technology across the span of human civilization While all human societies have enlisted technologies to control nature the last hundred years have witnessed the technological exploitation and destruction of natural resources on an unprecedented scale As environmental groups and the scientific community sound the alarm about deforestation global warming and ozone depletion the obvious question arises how did we get where we are today In Nature Technology and Society Victor Ferkiss sets out to answer this central question arguing that we cannot escape from our present environmental predicament unless

we understand the ideas which have created it Ferkiss asks the basic questions concerning humans and their relationship to the environment He traces cultural attitudes towards the environment from early mankind to the present day This fascinating book is distinctive both in its comprehensiveness and in its attempt to place side by side influential thinkers and movements with varied views on these issues      **The Human Odyssey** Duncan S. Ferguson, 2025-04-10 These are perilous times and people need to prepare themselves to navigate these troubled days by staying informed about their challenging environment structuring their lives in a healthy way and striving for a level of maturity that allows them to cope and live in a manner that brings stability and deep peace People can arrive at a place of stability and purpose by engaging in a life that is patterned after the life and teachings of Jesus called by the first generation of Christians the Way of Jesus The central value of this pattern of living is unconditional love a commitment to the truth and a life of integrity and seeking a more just society that leads to a culture of peace and collaboration People need to prepare themselves for this way of life by cultivating a deep spirituality that will empower them to thoughtfully carefully and fully commit themselves to the divine mission of love

Paul Santmire, Santmire's much acclaimed *The Travail of Nature* The Ambiguous Ecological Promise of Christian Theology documented the unfortunate legacy of many Christian theological notions in the use abuse and destruction of the natural world along with its positive aspects This new brief but penetrating look at Christian theological concepts of nature returns to the fray this time to reclaim classic mostly pre modern Christian themes and re envision them in light of the global environmental and cultural crisis This revisionist work to revise the classical Christian story in order to identify and to celebrate its ecological and cosmic promise mines Christian cosmology the Great Chain of Being Christology Creation and Eucharist so that the Christian story can be then rediscovered history reshaped theology re experienced spirituality and re enacted ritual      **Church, Capitalism, and Democracy in Post-Ecological Societies** Cheng-tian Kuo, 2018-10-24 Most ecotheologies build their arguments on the Bible's creation story and resurrection narrative in the hope to save the ecology

through spiritual meditation reforming capitalism and or deliberative democracy However based on a Chinese Christian social scientist s perspective this book argues that few of these ecotheologies are theologically and empirically valid Instead it proposes a neuro institutional post ecology theology that builds on the major themes of the Last Judgment to refocus ecotheology toward evangelism and to adapt ecotheology to capitalism and democracy in order to embrace the already but not yet impacts of the inevitable total destruction of the ecology in the near future The vanities in current ecotheologies are divided into religious economic and political categories Among the major ones discussed in this book are the vanities of ecological meditation theology leftist and rightist economic theologies as well as ecotheologies of green authoritarianism and deliberative democracy Even if these ecotheologies work perfectly as they were intended to global ecological crises have passed the point of no return i e post ecology and rendering all of them a global vanity Based on a Chinese Christian social scientist s perspective this book proposes a moderate course of ecological spirituality economic behaviors and democratic actions but with a radical devotion to crisis management and evangelism in preparation for the Doomsdays This book is unique in its balanced interdisciplinary composition employing theories from cognitive science Christian theology economics and political science     **To Liberate and Redeem** Edward LeRoy Long,2009-12-01 In *To Liberate and Redeem* scholar Edward LeRoy Long Jr surveys the full biblical narrative setting the context by beginning with the oppression of Israel s enslavement and the Exodus liberation then looking back to the Creation and forward to Christ Paul and the early church This original approach demonstrates how the unfolding drama of the Bible is marked by those who need liberation because they are trapped in oppressive structures and those who once freed must faithfully construct communities of redemption so as not to become oppressors themselves From this basis Long explores how present day moral decisions can be informed by studying the ways in which our biblical forebears wrestled with concerns similar to our own while standing in faithful responsiveness to God     *The Tao of Liberation* Mark Hathaway,Leonardo Boff,2009 Drawing on insights from quantum physics deep ecology and the new cosmology they articulate a new vision of liberating action Hathaway and Boff lay out a path of spiritual renewal ecological transformation and authentic liberation     *Encyclopedia of Protestantism* Hans J. Hillerbrand,2004-08-02 This Encyclopedia is the definitive reference to the history and beliefs that continue to exert a profound influence on Western thought
