**The Abyss Above** Silke-Maria Weineck,2012-02-01 In The Abyss Above Silke Maria Weineck offers the first sustained discussion of the relationship between poetic madness and philosophy Focusing on the mad poet as a key figure in what Plato called the ancient quarrel between philosophy and poetry Weineck explores key texts from antiquity to modernity in order to understand why we have come to associate art with irrationality She shows that the philosophy of madness concedes to the mad a privilege that continues to haunt the Western dream of reason and that the theory of creative madness always strains the discourse on authenticity pitching the controlled repeatable but restrained labor of philosophy against the spontaneous production of poetic texts said to be by definition unique      **Bible and Bedlam** Louise J. Lawrence,2020-02-20 Bible and Bedlam first critically questions the exclusion and stereotyping of certain biblical characters and scholars perceived as mad as such judgements illustrate the sanism prejudice against individuals who are diagnosed or perceived as mentally ill perpetuated within the discipline of Western biblical studies Second it seeks to highlight the widespread ideological gatekeeping protection and policing of madness in both western history and scholarship with regard to celebrated biblical figures including Jesus and Paul Third it initiates creative exchanges between biblical texts interpretations and contemporary

voices from mad studies and sources autobiographies memoirs etc which are designed to critically disturb disrupt and displace commonly projected and often pejorative assumptions surrounding madness Voices of those subject to diagnostic labelling such as autism schizophrenia and or psychosis are among those juxtaposed here with selected biblical interpretations and texts     **Journal of the American Medical Association** ,1993-10     Theory of the Moral Life John Dewey,1996     Cumulated Index Medicus ,1989     *Searching for Truth* Jacques G. LeBlanc,2023-10-30 Searching for truth is not a search for God It is a journey into the self and what shapes humanity on earth Truth seeking involves deep introspection and reflection an open mind and the courage to look into life in our society and our earth Experiences are examined with the intention of drawing on the knowledge and experience of others to illuminate the self Considering current world events what understanding of Truth is emerging illusions or realities Along my journey I acquired experience through my work my career and my life Some of it came spontaneously while other aspects came from looking back trying to understand what happened how it happened That has informed and shaped my perspective on many topics I worked hard on the quest for certainty the wisdom of uncertainty the practice of humility the art of living with paradox and the learning of compassion As I wrote this book I relied on my inquisitive mind and creativity to take me on a path of facts and truth finding in my life They became the topics of which I have written about Some texts are a cumulation of personal information while others are research based providing examples of change in our society and how one can navigate the momentum of change As I engaged myself in interests that pique my curiosity the focus was on examining my thoughts and broadening my perspective and awareness of human well being I found that writing on these various themes was humbling and generated a sense of optimism in myself of quest for wisdom in the extraordinary time we are in I hope the reading material is inspirational at many levels including personal collective and global I believe more and more in the well deserved rewards of aging     **The Bleeding of Mozart** Lucien Karhausen,2011     **Caseness and Narrative** Michael A. Susko,2020-04-22 Caseness and Narrative contrasts two ways of trying to help persons in emotional distress The first called Caseness sees signs of distress as symptoms without significant meaning makes a diagnosis which allows the psychiatric system to name the experience and then uses strong methods to minimize or stop symptom expression The second way called Narrative allows the story to unfold uses the structure of narrative to frame the process and then to avoid the person becoming stuck supports the transformative nature of the lived experience We invite you to a greater and deeper understanding which may help you family and friends support each other going through difficult emotional experiences     Remembrance of Patients Past Geoffrey Reaume,2000-01-01 Oh that I had wings I would fly like a dove and be at rest I would fly out of this asylum So wrote Ralph M a patient at the Toronto Hospital for the Insane from 1889 until his death in 1911 Winston O another inmate at the Toronto asylum actually sought to build wings like Ralph so longed for After crafting violins that he played and building from scratch an automobile he was allowed to drive on the hospital grounds Winston was reported to be working on

the construction of an aeroplane In Remembrance of Patients Past historian Geoffrey Reaume chronicles seventy years of daily life at the institution known as 999 the Toronto Hospital for the Insane at 999 Queen Street West His narrative stretches from 1870 to 1940 and examines such aspects as diagnosis and admission daily routine and relationships leisure patients labor family and community responses and discharge and death Mental patients were at times abused and they led lives of tedious monotony that could tend to flatten personality yet many of these women and men worked hard at institutional jobs for years and decades on end created their own entertainment and formed meaningful relationships with other patients and staff A moving chronicle the book is also an important argument for flexibility in treatment for mental illnesses and a challenge to the view that traditional mental institutions were of little help to their patients Encyclopedia of Creativity Mark A.
