Creative Conscience:

The Creative Conscience as Human Destiny Eduard Hugo Strauch, 2004 The Creative Conscience as Human Destiny explains how human nature derived from our biogenetic evolution Whereas human ingenuity and self realization replicate nature s creativity its morphogenesis human conscience epitomizes the integration of organic life its symbiosis These mutual processes became incarnate as humanity s creative conscience Similarly the co evolution of man and woman has enabled us to create cultures and civilization From our intimation of a Supreme Being in nature human beings have also evolved a supraconscience By acknowledging the wisdom of nature we have a philosophy of life for the future

The Critique of Bioethical Principlism in Contrast to an African Approach to Bioethics Jude Thaddaeus Buyondo, 2024-08-16 Though some argue that bioethics in the Black African world is simply a reflection of the Western approach to bioethics this work suggests otherwise While the Western approach bioethical principlism claims to offer an absolute approach to bioethics in a universalized common morality this book argues that bioethical principlism can be complemented with African approaches to bioethics Western principlism as primarily presented by Thomas L Beauchamp and James F Childress can hardly be incarnated in the African context of bioethical problems unless it is complemented by a contextual normative understanding of African social realities realities that themselves must be enriched by bioethical principlism Without claiming to offer the last word on intercultural bioethics or disputing which bioethical approaches deserve prioritization the work interactively relies on ordinary moral experiences that are practically visible in lived social realities as well as the community realities surrounding Africans south of the Sahara Prescriptively in order to not simply promote life but to do so fully the African ethical system supports an integral community life by continuously promoting the norm of solidarity continued vitality and the hierarchization of life within the corporate community which the individual must not blindly follow but responsibly interact with without her identity freedom and conscience being crushed

living a Gospel centered life and its unique collection of personalities and insight makes it of interest to all men and women seeking to live and lead with purpose and depth Arguing About Sex Joseph Monti,1995-01-01 This book is about current issues in sexual morality the Christian church and moral argument in late modernity **Sex and the Marriage Covenant** John Kippley,2014-01-23 The thesis of this book is that God intends that sexual intercourse should be at least implicitly a renewal of the marriage covenant From this it follows that the marriage covenant provides the criterion to evaluate the morality of every sexual act Thus the title Sex and the Marriage Covenant is an appropriate description of the book s contents Marriage comes into being by a couple unreservedly entering God s covenant of marriage contraceptive intercourse contradicts the very essence of the marriage covenant From these considerations Kippley developed the covenant theology of sexuality described in this book Nonlinear Dynamics in Human Behavior William H. Sulis,Allan Combs,1996 This book represents a selection of papers presented at the Fourth Annual Conference of the Society for Chaos Theory in Psychology and the Life Sciences held at Johns Hopkins University in Baltimore June 24 27 1995 The book reflects the Society as a whole consisting of applications of nonlinear methodology in psychophysics neurophysiology business and social science as well as applications of the nonlinear paradigm to issues arising in psychotherapy and the study of creativity Unique are contributions on the use of Boolean networks in the study of psychosis and quality of life Review articles on the appropriate use of time series methods in psychology and psychophysics provide a valuable reference Sex and Dehumanization David Holbrook,2018-04-24 Never before published in the United States David Holbrook s study offers the sort of common sense all too uncommon in this area of study His essential premise is that sex has become converted from an instrument for the expression of happiness and affection into an end unto itself In the search for sexual liberation all that has been accomplished is the mechanization of sexuality and the destruction of the full range of emotions that nourish the human search for social and biological meaning Sex and Dehumanization is one of those rare books that will immediately strike the reader as part of the common wisdom that has somehow been lost in a search for the pleasure principle unhinged from other values and goals During the past quarter century Holbrook argues not only has the concept of sex become increasingly separated from the rest of existence but sex casualties have increased disastrously The spread of AIDS has brought an ominous and deadly manifestation of this thesis into the human equation yet at the same tune the response to this menace has been nothing short of manic denial A similar picture emerges in less deadly forms Whatever statistics one examines whether those of sexual activity among young children abortion or sexual disease one finds a grim antidote to any hopes of progress in the sphere of human dealings with the sexual Holbrook locates many of the problems involved in this separation of sex and affection in the emergence of the idea that our lives are governed by impersonal forces beyond human control Sex and Dehumanization is in the great tradition of social history and psychiatric analysis Robert Nye writing in the Scotsman says that Holbrook s diagnosis of our unease should be attentively studied by all who really care about sex and love and the

responsibility of freedom Gabriel Pearson in the Guardian echoes this sentiment adding that never has such a secular ethic been so firmly and urgently and usefully stated And John Rex sees the book as containing the germs of important and central moral discussion

American Immigration Aesthetics Markose Abraham, 2011-09-27 AMERICAN IMMIGRATION AESTHETICS Bernard Malamud Bharati Mukherjee as Immigrants is a well researched Doctoral study of the dynamics of immigration into America in the second half of the twentieth century and beyond As immigrant writers both Bernard Malamud 1914 1986 a second generation East European Russian Jew and Bharati Mukherjee b 1940 a first generation South Asian Indian Hindu have proven to the outer world their capabilities as excellent storytellers in their novels short stories Together about 15 novels and 50 short stories are discussed In America the Jews and the Indians have resisted the domination of the majority community Resistance has tightened the internal cohesion of the two ethnic groups Suffering has chastened the Jews after their experience of the four thousand year history Similarly the long tradition and history of spirituality and adaptability in Hinduism has moulded the Hindu Indian to survive adversity The human element in man woman with its struggles between fulfillment and non fulfillment makes them feel a mutual responsibility Delineating life's losers and victims with deep concern and compassion the two writers seek redemption in this world itself in an ethical uprightness The terminal point marks the emergence of a new set of values equipped for a second quest this time one of heroism The contours of a real new better life are visible It leads to a definition and evaluation of the world on one's own terms

Journeys of Faith Mike Brock, 2023-06-20 Journeys of Faith examines the contributions of the leading figures of the humanistic psychology movement with particular attention to their spiritual journeys Rising to prominence in America during the post World War II years humanistic psychology is experiencing a resurgence in the present day in response to the need for a psychological approach that addresses meaning and purpose in life The key players Abraham Maslow Carl Rogers Erich Fromm and Rollo May all rejected the orthodoxy of their religious inheritance in favor of a more humanistic approach and in the process discovered a renewed spirituality that they hoped would address the concerns of a world yearning for something to believe in While the humanistic psychologists confronted the world's problems through the lens of psychology other thinkers such as the evolutionary biologist Julian Huxley approached them through different though equally humanistic perspectives Others still such as Paul Tillich Martin Buber and Pierre Teilhard de Chardin confronted the times through a religious lens The influence of the centuries long Jewish tradition of scholarship and social justice and the frequent examples of friendship and professional cooperation between the secular and the religious worlds provide critical subthemes for the lasting appeal of humanistic psychology

A Call to Fidelity James J. Walter,Timothy E. O'Connell,Thomas A. Shannon,2002-10-17 A Call to

Fidelity seeks to thoughtfully examine and critically evaluate the contributions that Charles E Curran has made to the field of Catholic moral theology over the past forty years. It also seeks to assess the development of specific topics in contemporary moral theology to which Curran has made his unique mark particularly in fundamental ethics sexual and medical ethics social and political ethics and topics related to dialogue with other traditions and approaches to Catholic ethics. Reviewing the many years of his influential writings thought and scholarship fourteen distinguished scholars examine his contributions and the current state of the topics under discussion which are as far ranging as academic freedom birth control gay and lesbian relationships and feminism. Each contributor also provides a critical evaluation of Curran's work and outlines how these areas will hold or undergo transformation as the church looks toward its relationship with society and culture in the coming decades.

Christian Ethics, Volume 1 Karl-Heinz Peschke, 2012-08-21 This recent edition of Christian Ethics Volume I is a thoroughly revised and updated version of fundamental moral theology. As in the previous editions the author makes himself an interpreter of the demands of Vatican Council II and its request that moral theology be rooted more fully in Holy Scripture. At the same time account is taken of the new developments in the field of ethics. New issues of actual concern are taken up such as the deontological and teleological conditions of moral norms the confrontation between conscience and civil or ecclesiastical law the communal roots of Christian identity the requirement of liberty and the ethical compromise. The book addresses itself to all who are interested in the moral teaching of the Christian faith and endeavors to be a helpful instrument to this end.
