Growing Up in Nineteenth-century Ireland Mary Hatfield,2019 A comprehensive cultural history of childhood in nineteenth century Ireland which explores how the notion of childhood fluctuated depending on class gender and religious identity and presents invaluable new insights into Irish boarding schools the material culture of childhood and the experience of boys and girls in education Ireland Gustave de Beaumont,2009-07-01 Beaumont chronicles the history of the Irish and offers up a national portrait on the eve of the Great Famine This rediscovered masterpiece includes an introduction on Beaumont and his world This volume also presents Beaumont s impassioned preface in which he portrays the appalling effects of the Great Famine *Land!* Graham Davis,2002 The only successful European impresarios in mid nineteenth century Mexican Texas men authorized to bring immigrants to settle the vast spaces of Mexico s northern territories were Irish On their land grants Irish settlers founded Refugio and San Patricio and went on to take active roles in the economic and political development of Texas It required a hardy spirit and strong ambition to weather the perils that accompanied these opportunities the long journey shipwrecks hostile Indians injury and disease and Irish pioneers proved fit for the task They were not seeking relief from famine or English oppression in their own country These were vigorous strong willed people who possessed the monetary means to remove themselves from their insular surroundings What they were seeking and what they obtained was land Graham Davis tells this Irish Texan story of the search for land by recounting the experiences of the original empresarios John McMullen James McGloin James Power and James Hewetson and he finishes the

book with an impressive description of the ranching empire of Power's nephew Thomas O'Connor. In between he examines the marriages, commercial contacts, political alliances, and language ties that Mexicanized these successful entrepreneurs. Living in the heart of the war zone, some of the Irish settlers fought for independence while others remained loyal to the Mexican government that had made them citizens and given them land. Davis offers a vivid picture of the hardships of pioneer life and the building of communities, churches, and schools. He describes how Irish ranchers had the opportunity to thrive after the annexation of Texas and emphasizes their willing acceptance of Mexican ranching methods. He makes a convincing case that the Irish came to Texas not as victims but as entrepreneurs and opportunists in search of land.

A Book of Migrations Rebecca Solnit, 2011-09-05 In this acclaimed exploration of the culture of others, Rebecca Solnit travels through Ireland, the land of her long forgotten maternal ancestors. *A Book of Migrations* portrays in microcosm a history made of great human tides of invasion, colonization, emigration, nomadism, and tourism. Enriched by cross-cultural comparisons with the history of the American West, *A Book of Migrations* carves a new route through Ireland's history, literature, and landscape.

The American Irish Kevin Kenny, 2014-07-22 *The American Irish: A History* is the first concise general history of its subject in a generation. It provides a long overdue synthesis of Irish American history from the beginnings of emigration in the early eighteenth century to the present day. While most previous accounts of the subject have concentrated on the nineteenth century and especially the period from the famine 1840s to Irish independence 1920s, *The American Irish: A History* incorporates the Ulster Protestant emigration of the eighteenth century and is the first book to include extensive coverage of the twentieth century. Drawing on the most innovative scholarship from both sides of the Atlantic in the last generation, the book offers an extended analysis of the conditions in Ireland that led to mass migration and examines the Irish immigrant experience in the United States in terms of arrival and settlement, social mobility, and assimilation, labor, race, gender, politics, and nationalism. It is ideal for courses on Irish history, Irish American history, and the history of American immigration more generally.

Bardic Nationalism Katherine M. Trumpener, 2021-01-12 This magisterial work links the literary and intellectual history of England, Scotland, Ireland, and Britain's overseas colonies during the late eighteenth and early nineteenth centuries to redraw our picture of the origins of cultural nationalism, the lineages of the novel, and the literary history of the English-speaking world. Katie Trumpener recovers and recontextualizes a vast body of fiction to describe the history of the novel during a period of formal experimentation and political engagement between its eighteenth-century rise and its Victorian heyday. During the late eighteenth century, antiquaries in Ireland, Scotland, and Wales answered modernization and anglicization initiatives with nationalist arguments for cultural preservation. Responding in particular to Enlightenment dismissals of Gaelic oral traditions, they reconceived national and literary history under the sign of the bard. Their pathbreaking models of national and literary history, their new way of reading national landscapes, and their debates about tradition and cultural transmission shaped a succession of new novelistic genres from Gothic and sentimental fiction to

the national tale and the historical novel In Ireland and Scotland these genres were used to mount nationalist arguments for cultural specificity and against internal colonization Yet once exported throughout the nascent British empire they also formed the basis of the first colonial fiction of Canada Australia and British India used not only to attack imperialism but to justify the imperial project Literary forms intended to shore up national memory paradoxically become the means of buttressing imperial ideology and enforcing imperial amnesia

Thomas Davis and Ireland Helen F. Mulvey, 2003 His first biography written by his friend and collaborator Duffy was published in 1890 and is an invaluable source for Davis's life and his part in the Irish nationalist struggle Duffy's work was as well a eulogy presenting Davis in so favorable a light that he seems at times unreal To provide a more thorough objective portrait of Davis historian Helen F Mulvey here presents a scholarly examination of Davis's life and thoughts

The Great Famine Ciarán Ó Murchadha, 2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades

Melancholy Accidents Carolyn Conley, 1999-01-01 While most scholarly attention on violence in post famine Ireland has focused on political crimes this book examines non political violence which made up the vast majority of incidents in that period Ireland's overall crime rate was below that of England and Wales but the proportion of violent offenses to non violent ones was significantly higher in Ireland In *Melancholy Accidents* Carolyn Conley decries the commonly held belief that recreational and domestic violence was generally the result of understandable emotions Conley demonstrates that the meaning of violence in post famine Ireland was complex personal and often deeply traditional and idiosyncratic This unique book will be valuable to a wide variety of scholars including those who study women's history European history and social problems

Irish Nationalism and the British State Brian Jenkins, 2006-05-12 No detailed description available for *Irish Nationalism and the British State*

The Oxford History of the Irish Book, Volume IV James H. Murphy, 2011-09 Volume IV *The Irish Book in English 1800-1891* details the story of the book in Ireland during the nineteenth century when Ireland was integrated into the United Kingdom The chapters in this volume explore book production and distribution and the differing of ways in which publishing existed in Dublin Belfast and the provinces

Making Ireland Modern Enda Delaney, 2025-10-02 A provocative and original reinterpretation of modern

Irish history There is a widespread misconception that Ireland became modern much later than its neighbours in the 1960s and 1970s This is grounded in several enduring stereotypes and caricatures of Ireland as a timeless and unchanging land of saints and scholars of its society and culture in the long nineteenth century as puritanical regressive or archaic of Gaelic language and culture as backward or inward looking in contrast to a modern English counterpart and of the island as natural and rural in the face of the urban and technological progress of modernity Drawing on an extensive range of sources from poetry and novels to contemporary historical documents acclaimed historian Enda Delaney here offers a reinterpretation of Ireland s encounter with modernity that corrects these stereotypes By situating the island s history between 1780 and 1916 within its broader European global and colonial contexts he demonstrates that Ireland s pathway to modernity was not inevitable belated or uni directional over a complex and centuries long process it was made modern and in its own distinctive way This was related to but distinct from Ireland s complicated colonial relationship with Britain and played out in the broader contexts of globalisation and the rise of capitalism And at the heart of this history are the Irish people themselves both those who lived on the island and the millions of those who left during this period and made their lives in Britain America Australia and beyond who made sense of modernity in a variety of conflicting ways and in so doing sought to shape their own destinies and adapt the old ways of doing things in the face of relentless waves of progress Changes in values consciousness and beliefs interacted with broader social political and cultural revolutions to create a distinctive experience of becoming modern The result is a bold and wide ranging new history of modern Ireland that restores agency to those who lived and made its history raising important and timely questions about modernity globalisation modern history and post colonialism *Prostitution and Irish Society, 1800-1940* Maria Luddy,2007-12-13 The first book to tackle the controversial history of prostitution in modern Ireland **Creating Irish Tourism** William H. A. Williams,2011 Based on the accounts of British and Anglo Irish travelers *Creating Irish Tourism* charts the development of tourism in Ireland from its origins in the mid eighteenth century to the country s emergence as a major European tourist destination a century later The work shows how the Irish tourist experience evolved out of the interactions among travel writers landlords and visitors with the peasants who as guides jarvis venders porters and beggars were as much a part of Irish tourism as the scenery itself
