Alice In Acidland:

Alice in Acidland Thomas Fensch, 2002 If you love Lewis Carroll or if you remember the hippie days the flower power generation of the 1960s you ll love Alice in Acidland Was Alice s Adventures in Wonderland really a drug trip Men who cleaned top hats in the days of Charles Dodgson s England used solutions of mercury which caused brain damage thus mad as a hatter Could the caterpillar really have been smoking something hallucinogenic in his waterpipe Charles Dodgson may have passed Thomas DeQuincey on the streets of London after all this was generally the same era that DeQuincey wrote Confessions of an English Opium Eater Originally published in 1970 Alice in Acidland suggests that Alice s experiences and the curiouser and curiouser animals that she encounters echo the LSD trips of the hippie 1960s and could easily have been visualized by Thomas DeQuincey and the mad hatters of Lewis Carroll s time The author suggests this all with tongue firmly in cheek We think *Alice's adventures in wonderland-Through the looking glass* Lewis Carroll, 2002 [Alice Beyond Wonderland](#) Cristopher Hollingsworth, 2009-12 Alice beyond Wonderland explores the ubiquitous power of Lewis Carroll s imagined world Including work by some of the most prominent contemporary scholars in the field of Lewis Carroll studies all introduced by Karoline Leach s edgy foreword Alice beyond Wonderland considers the literary imaginative and cultural influences of Carroll s 19th century story on the high tech postindustrial cultural space of the twenty first century The scholars in this volume attempt to move beyond the sexually charged permutations of the Carroll myth the image of an introverted man fumbling into literary immortality through his love for a prepubescent Alice Contributions include an essay comparing Dantean and Carrollian underworlds one investigating child characters as double agents in untamed lands one placing Wonderland within the geometrical and algebraic fourth dimension one investigating the visual and verbal interplay of hand imagery and one exploring the influence of Japanese translations of Alice on the Gothic Lolita subculture of neo Victorian enthusiasts This is a bold capacious and challenging work *The Dark Side of Alice in Wonderland* Angela Youngman, 2022-10-04 A unique exploration of the character the author and the many transformations of Alice in modern culture often in edgy and menacing ways The Dark Side of Alice in Wonderland is the first investigation of the vast range of darker more threatening aspects of this famous story and the way Alice has been transformed over time Although the children s story has been in print for over 150 years the mysteries and rumors surrounding the story and its creator Lewis Carroll have continued to grow Alice has been transformed this is the Alice of horror films Halloween murder and mystery spectral ghosts political satire mental illnesses weird feasts Lolita Tarot pornography and steampunk The Beatles based famous songs such as Lucy in the Sky with Diamonds and I am the Walrus on Alice s Adventures in Wonderland and she has even attracted the attention of world famous artists including Salvador Dali The Japanese version of Lolita is so different from that of novelist Vladimir Nabokov yet both are based on Alice This is Alice in Wonderland as you have never seen her before a dark sometimes menacing and threatening character Was Carroll all that he seemed The stories of his child friends

nude photographs and sketches affect the way modern audiences look at the writer Was he just a lonely academic a closet pedophile a brilliant puzzle maker or even Jack the Ripper For a book that began life as a simple children s story it has resulted in a vast array of dark concepts ideas and mysteries With this book you can step inside the world of Alice in Wonderland and discover a dark side you never knew existed **Spinegrinder** Clive Davies,2015-03-06 First came video and more recently high definition home entertainment through to the internet with its streaming videos and not strictly legal peer to peer capabilities With so many sources available today s fan of horror and exploitation movies isn t necessarily educated on paths well trodden Universal classics 1950s monster movies Hammer as once they were They may not even be born and bred on DAWN OF THE DEAD In fact anyone with a bit of technical savvy quickly becoming second nature for the born clicking generation may be viewing MYSTICS IN BALI and S S EXPERIMENT CAMP long before ever hearing of Bela Lugosi or watching a movie directed by Dario Argento In this world H G Lewis so called godfather of gore carries the same stripes as Alfred Hitchcock master of suspense SPINEGRINDER is one man s ambitious exhaustive and utterly obsessive attempt to make sense of over a century of exploitation and cult cinema of a sort that most critics won t care to write about One opinion 8 000 reviews or thereabouts **Alice's Adventures in Wonderland** Lewis Carroll,2024-02-07 I mean what is an un birthday present A present given when it isn t your birthday of course Alice considered a little I like birthday presents best she said at last You don t know what you re talking about cried Humpty Dumpty In versione integrale i pi grandi classici della letteratura angloamericana in lingua originale Le opere sono accuratamente commentate e riportano la biografia dei singoli autori **Cultural Encyclopedia of LSD, 2d ed.** Wayne Glausser,2024-08-15 Albert Hofmann referred to lysergic acid diethylamide better known as LSD as his problem child The wonderful but worrisome psychedelic drug discovered by Hofmann both inspired and unsettled the world with the mischief of Timothy Leary the acid tests of the Merry Pranksters and social experiments during the Summer of Love and Woodstock two events that altered popular music capturing headlines in the 1960s This second edition encyclopedia updates and adds more than 200 new entries from Hank Williams III and Tucker Carlson to dinosaurs New entries provide documentation of LSD s influence during the 1960s and address a recent resurgence of cultural relevance for the drug **The Cambridge Introduction to Postmodernism** Brian McHale,2015-06-26 This Introduction surveys the full spectrum of postmodern culture from architecture and visual art to fiction poetry and drama *Lewis Carroll's "Alice" and Cognitive Narratology* Francesca Arnavas,2021-01-18 We live in an age that is witnessing a growing interest in narrative studies cognitive neuroscientific tools mind studies and artificial intelligence hypotheses This book therefore aims to expand the exegesis of Carroll s Alice books aligning them with the current intellectual environment The theoretical force of this volume lies in the successful encounter between a great book and all its polysemous ramifications and a new interpretative point of view powerful enough to provide a new original contribution but well grounded enough not to distort the text itself Moreover this book is one of the first to offer a complete

thorough analysis of one single text through the theoretical lens of cognitive narratology and not just as a series of brief examples embedded within a more general discussion It emphasises in a more direct effective way the actual novelty and usefulness of the dialogue established between narrative theory and the cognitive sciences It links specific concepts elaborated in the theory of cognitive narratology with the analysis of the Alice books helping in this way to discuss question and extend the concepts themselves opening up new interpretations and practical methods **Empires of the**

Imagination Alec Worley,2021-01-05 The warlocks and ghosts of fantasy film haunt our popular culture but the genre has too long been ignored by critics This comprehensive critical survey of fantasy cinema demonstrates that the fantasy genre amounts to more than escapism Through a meticulously researched analysis of more than a century of fantasy pictures from the seminal work of Georges Melies to Peter Jackson s recent tours of Middle earth the work identifies narrative strategies and their recurring components and studies patterns of challenge and return setting and character First addressing the difficult task of defining the genre the work examines fantasy as a cultural force in both film and literature and explores its relation to science fiction horror and fairy tales Fantasy s development is traced from the first days of film with emphasis on how the evolving genre reflected such events as economic depression and war Also considered is fantasy s expression of politics as either the subject of satire or fuel for the fires of propaganda Discussion ventures into the subgenres from stories of invented lands inhabited by fantastic creatures to magical adventures set in the familiar world and addresses clashes between fantasy and faith such as the religious opposition to the Harry Potter phenomenon From the money making classics to little known arthouse films this richly illustrated work covers every aspect of fantasy film *Alternative Alices* Carolyn Sigler,2021-11-21 Lewis Carroll s Alice in Wonderland 1865 and Through the Looking Glass 1871 are among the most enduring works in the English language In the decades following their publication writers on both sides of the Atlantic produced no fewer than two hundred imitations revisions and parodies of Carroll s fantasies for children Carolyn Sigler has gathered the most interesting and original of these responses to the Alice books many of them long out of print Produced between 1869 and 1930 these works trace the extraordinarily creative and often critical response of diverse writers These writers male and female radical and conservative appropriated Carroll s structures motifs and themes in their Alice inspired works in order to engage in larger cultural debates Their stories range from Christina Rossetti s angry subversion of Alice s adventures Speaking Likenesses 1874 to G E Farrow s witty fantasy adventure The Wallypug of Why 1895 to Edward Hope s hilarious parody of social and political foibles Alice in the Delighted States 1928 Anyone who has ever followed Alice down the rabbit hole will enjoy the adventures of her literary siblings in the wide Wonderland of the human imagination
