**Aspects of Time and Memory in Literature for Children and Young Adults** Tzina Kalogirou,Dorota Michulka,2025-02-07 This volume offers a wide variety of theoretical and critical reflections on the ways that different aspects of time and memory are deployed in literature and media for children and young adults that are related to historically and regionally contingent concepts of childhood from picturebooks to cross over and young adult novels from classic children's literature to adaptations of fairy tales and from musical adaptations to films The interface of the two concepts in question is explored through a range of diverse writers texts and cultural traditions across the 19th to 21st centuries The collection addresses key topics in modern critical theory and children's literature criticism such as the imaginative reconstruction of the past the depiction of time and time objects in picturebooks the notions of traumatic memory and post memory in literature It also considers how texts work as sites of memory by referring to and thus revisiting challenging or reinterpreting older genres

**Quelle place pour la littérature à l'école ?** Agnès Perrin, 2013-11-28 Un ouvrage de vulgarisation par une spécialiste de l'enseignement de la littérature à l'école. La littérature a-t-elle une place essentielle dans la construction de la culture critique ? Les derniers programmes pour l'école primaire n'abordent pas explicitement cette question et n'apportent que des claircissements quant au choix des textes et leurs modalités de lecture. C'est pourquoi il nous paraît essentiel de revenir sur la question de la place du littéraire à l'école. Interrogeons-nous sur les raisons qui doivent inciter les enseignants du premier degré à mettre son enseignement au cœur de la formation de l'apprenti lecteur et du futur citoyen. De nombreuses recherches modernes en lettres, notamment mais aussi en sciences humaines, montrent qu'il est indispensable d'enseigner dès le plus jeune âge cette lecture particulière qui est la lecture littéraire. La présentation par rapport à diverses œuvres de qualité permet en effet une prise de conscience puis une mise en distance des grandes problématiques traversant l'histoire humaine. Parce que la littérature décrit, crée ou recrée le monde, elle participe pleinement à l'éducation de la personne et la formation du citoyen. Dans cette perspective, cet ouvrage propose une synthèse des différentes recherches conduites sur la lecture littéraire et quelques pistes pédagogiques pour l'enseigner en classe. L'objectif est de conjuguer plaisir de lire et rigueur de l'apprentissage de la lecture et de la compréhension.

*L'empathie racontée aux enfants* Emmanuelle Jasmin, 2024-05-15T00:00:00-04:00 Pour contrer l'intimidation à l'école, madame Sophie propose aux élèves de devenir des jardiniers et jardiniers de l'empathie. Antoine et ses camarades feront pousser des fleurs tout en apprenant comment cultiver la bienveillance dans leur milieu. Le climat de la classe sera amélioré fortement. Après tout, on récolte ce que l'on semme. Vous aimerez promouvoir l'empathie chez votre enfant mais vous ne savez pas comment lui expliquer ce concept abstrait. Ce conte sympathique lui permettra de comprendre ce que c'est de faire simple et imaginer. Grâce à la section auto-observation, il ou elle pourra tester ses propres capacités empathiques puis se munir d'outils pour les développer davantage. Vous verrez ses aptitudes et ses relations sociales enrichies.
