Alphabets and Reading Sir James Pitman, John Richard St. John, 1969 **Evaluating the Initial Teaching Alphabet** John A. Downing, William Latham, 1967 **Dictionary of British Educationists** Richard Aldrich, Peter Gordon, 2016-04-01

This dictionary provides the reader with an easily accessible guide to the biographies of approximately 450 educationists. It covers the period from 1800 to the present day and includes a wide range of people who were active in promoting education at different levels Library of Congress Subject Headings Library of Congress, Library of Congress. Subject Cataloging Division, Library of Congress. Office for Subject Cataloging Policy, 2013 **Research in Education**, 1974 The Great Reading Disaster Mona McNee, 2012-02-20

By the late 1980s half the nation's children were receiving eleven years of progressivist schooling that failed to give them even the elementary basis of education that was completed by the age of seven in earlier days. This great reading disaster was caused by the look-say method of teaching which presented whole words not individual letters. This book explains the causes and provides the solution to this problem. In 2006 the Secretary of State for Education and Skills has ordered schools to use the phonic method but there seems little evidence that its implications are properly understood or that any serious re-training programme for teachers is being put in place. The authors believe their explanations and recommendations in this book are thus needed just as much as ever **Resources in Education**, 1990 **Library of Congress Subject Headings** Library of Congress. Committee on Education and Labor, 1967 *Technical Writing*, **Reading Instruction in America** Barbara Ruth Peltzman, 2015-10-02

The diversity of student populations in the United States presents educators with many challenges. To provide effective reading instruction for the individual student, teachers must understand the enormous variety of reading methods and materials that exist and make independent decisions based on their students' particular needs. Research indicates that educators are often influenced by reading instruction fads that quickly fade, making it more challenging to develop a repertoire of teaching strategies in which a teacher may have confidence. This book examines a variety of reading methods used in American schools from the 19th to the 21st century and the literature promoting or critiquing them to help teachers become informed decision makers and better meet the needs of students **Education** Douglas Foskett, Joy Foskett, 2011-08-02
