Cracks In The Great Wall The Ufo Phenomenon And Traditional Metaphysics:

Cracks in the Great Wall Charles Upton, 2005 Can we really know what UFO s are The answer is Yes but only if we study them armed with a kind of knowledge that explains the true and complete structure of the universe spiritual psychic and material a knowledge that only traditional metaphysics can provide Science can supply one piece of the puzzle detective work another psychic investigation still another But only metaphysics can put the puzzle together and give us a complete and satisfying picture of the UFO phenomenon Cracks in the Great Wall analyzes of the findings of UFO researcher Jacques Vallee and some of his colleagues in light of the teachings of Ren Gunon particularly as expressed in his prophetic masterpiece The Reign of Quantity and the Signs of the Times According to Gunon one of the signs of the End Times is the erosion of the energy barrier or Great Wall between the material plane and the world of subtle realities which is why our world is now being invaded by infra psychic forces of a terribly destructive nature Author Charles Upton shows how one of the most obvious examples of this invasion is the UFO phenomenon including the experience of alien abduction A lifetime student of comparative religion and mysticism he explains the true nature of UFOs the quality of the world they come from and also something about the agenda these beings or some of them are trying to impose upon our world If you want to remain merely mystified or fascinated by the UFO phenomenon this book is not for you But if you want to understand it Cracks in the Great Wall will give you the conceptual tools you need With the help of UFOlogists Jacques Vallee and John E Mack Christian writers C S Lewis and Seraphim Rose Kaballah authority Leo Schaya and traditionalist writers Ren Gunon and Whitall Perry Charles Upton has provided the most comprehensive explanation of the UFO phenomenon yet written It is difficult to be objective in areas outside our collective view of reality but if as the author contends his argument is based on sound principles it deserves serious consideration by all who are interested in the UFO phenomenon and its effect on our world Charles Upton is a serious writer from whom I have learned much His writing deserves close attention Prof Huston Smith author of The World s Religions etc Legends of the End Charles Upton, 2005-03 Whether the world ends tomorrow or lasts for centuries we all exist in a climate of the End of Days As Thomas Merton wrote We live in an age of two superimposed eschatologies that of secular anxieties and hopes and that of revealed fulfillment Sometimes the first is merely mistaken for the second sometimes it results from complete denial and despair of the second The end of time obviously relates to history but just as obviously it cannot be contained within it Legends of the End have always been with us every spiritual tradition that has a story of the beginning of things must also have one of their final end the end of the earth of the universe of time itself And just as all such myths symbolize invisible realities so every historical event is precisely an invisible reality made visible and tangible This book takes a look at eight Legends of the End Hindu Buddhist Zoroastrian Jewish Christian Muslim Hopi and Lakota When these stories are placed side by side great differences and startling similarities become apparent similarities both in broad outlines and in minute details In light of this traditional lore the author begins

and concludes with a penetrating spiritual meditation on the meaning of the End Without a grasp of this meaning to date the End is impossible With such a grasp even the most accurate dating is irrelevant for to know the meaning of the End of Days is already to be beyond it Charles Upton is a serious thinker from whom I have learned much His writing merits close attention Huston Smith author of *The World's Religions* etc Light and Dark Trevor J. Hawkeswood,2013 Trevor J Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime In *Light and Dark* he recounts some of these incredible interactions He believes that reality occurs on two separate but interwoven planes of existence the Earth plane and the multiple levels of the spiritual planes including the lower levels from where the dark souls of humans who have died reach out to us He has experienced more than one hundred sightings of the shadow people or black ghosts He credits guardian angels with saving him from harm or certain death on a number of occasions Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs He has personally experienced clairaudience voices from beyond and precognition or the ability to see the future His detailed account of a unique out of body experience OOB challenges what is known about this remarkable ability His OOB was unlike anything that has ever been described by others who have experienced it and he shares it all in *Light and Dark* But it hasn't all been safe or pleasant At eighteen he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralyzing him A comprehensive handbook for the paranormal enthusiast Hawkeswood's work also provides a glossary and reference list of English language UFO books In *Light and Dark* he shares a lifetime of experiences ideas and theories about this fascinating field of study **Psychology and the Perennial Philosophy** Samuel Bendeck Sotillos,2013-02-26 Modern psychology is at an impasse as it searches anxiously for new therapies to address the increasing occurrence of mental illness in contemporary society In this groundbreaking anthology leading authors from the perennialist school including Huston Smith Seyyed Hossein Nasr and Frithjof Schuon draw on the age old insights of the world's wisdom traditions to argue that modern psychology behaviorism psychoanalysis humanistic and transpersonal psychology overlooks the specifically spiritual factors contributing to mental health and illness **The System of Antichrist** Charles Upton,2001 Investigates the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities Presents lore relating to the latter days and the Antichrist from various religious traditions Drawing on the writings of the leading perennialist thinkers Ren Gu non and Frithjof Schuon sketches the particular quality of spirituality proper to apocalyptic times both its dangers and the opportunities open to it Folk Metaphysics Charles Upton,2008 Among these few was Ananda K Coomaraswamy who said The content of folklore is metaphysical Our failure to recognize this is primarily due to our own abysmal ignorance of metaphysics and of its technical terms The true folklorist must be not so much a psychologist as a theologian and metaphysician if he is to understand his material **The Reign of Quantity & the Signs of the Times** René Guénon,2001 The reign of quantity gives a concise but comprehensive view of the present state of affairs in the world

as it appears from the point of view of the ancient wisdom formerly common both to the East and to the West but now almost entirely lost sight of The author indicates with his fabled clarity and directness the precise nature of the modern deviation and devotes special attention to the development of modern philosophy and science and to the part played by them with their accompanying notions of progress and evolution in the formation of the industrial and democratic society which we now regard as normal Gu non sees history as a descent from Form or Quality toward Matter or Quantity but after the Reign of Quantity modern materialism and the rise of the masses Gu non predicts a reign of inverted quality just before the end of the age the triumph of the counter initiation the kingdom of Antichrist This text is considered the magnum opus among Gu non s texts of civilizational criticism as is Symbols of Sacred Science among his studies on symbols and cosmology and Man and His Becoming according to the Vedanta among his more purely metaphysical works Descripci n del editor

Reflections of

Tasawwuf Charles Upton, 2008 Sufism is the practice of remaining aware of the real presence of God in every circumstance until Certainty is reached The dizzying complexity of Sufi metaphysics the passionate beauty of Sufi poetry and the profound Sufi science of spiritual psychology are all based on this The Sufi Path is the process of spiritual transformation ultimately resulting God willing in self transcendence produced by the Certainty of God s presence In traditional Muslim society many different moral intellectual and spiritual functions were performed by those estates responsible for maintaining them Parents imams and grammar school teachers transmitted the fundamental ritual and moral principles of Islamic society The madrasas took care of such traditional sciences as Qur anic exegesis and the study of prophetic ahadith The schools of fiqh maintained and applied the shari ah The mutakallimiin developed and taught kalam Islamic scholastic theology The falasifa or philosophers carried on an intellectual tradition largely inherited from the Greeks The ishraqiyyun developed a mystical theosophy based on direct spiritual insight Physicians employed systems of healing derived in part from metaphysics Poets often transmitted sophisticated spiritual lore many other traditional craftsmen did the same The mathematicians astronomers and other scientists sought to uncover the Signs of God in numbers in geometrical shapes and in the heavens And the alchemists worked on the reconstitution of the original human form al fitra in psycho physical terms So when a seeker applied for admittance to a Sufi tariqa he likely knew his Goal The lower rungs of the ladder of moral intellectual and spiritual aspiration were clearly defined and largely taken care of consequently the aspirant to Sufi initiation could be more certain than he was seeking God Alone In modern semi Muslim societies however things are not so clear And as for those Sufi tariqas that have emigrated to the West and the individuals who seek admittance to them the situation is even more ambiguous The traditional supports for a collective worldview that places God first and sees His hand in everything are no longer readily available and no one whose worldview is basically secular can follow the Sufi path as the great Sufis of the past once did In the secular West especially Sufi tariqas lack the exoteric religious culture in relation to which they could be truly esoteric without the Zahir one might say there can be no Batin Therefore This book is not so much a text on Sufism

itself as an attempt woefully inadequate to indicate certain elements of the original context that allowed Sufism to be what it is

Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond

The Reign of Quantity and the Signs of the Times René Guénon, 2001 The Reign of Quantity gives a concise but comprehensive view of the present state of affairs in the world as it appears from the point of view of the ancient wisdom formerly common both to the East and to the West but now almost entirely lost sight of The author indicates with his fabled clarity and directness the precise nature of the modern deviation and devotes special attention to the development of modern philosophy and science and to the part played by them with their accompanying notions of progress and evolution in the formation of the industrial and democratic society which we now regard as normal Guénon sees history as a descent from Form or Quality toward Matter or Quantity but after the Reign of Quantity modern materialism and the rise of the masses Guénon predicts a reign of inverted quality just before the end of the age the triumph of the counter initiation the kingdom of Antichrist This text is considered the magnum opus among Guénon's texts of civilizational criticism as is Symbols of Sacred Science among his studies on symbols and cosmology and Man and His Becoming according to the Vedanta among his more purely metaphysical works

American Book Publishing Record, 2003 [Etheric Ufo Portals](#) Nigel Mortimer, 2017-05-17 Scientific Genius and Prophet Nikola Tesla envisaged a quality of the atmosphere which he called the Aetheric Energy Field This energy enveloped all of reality on planet Earth and beyond He was certain that all matter drew its energy from this hidden force The author has studied Tesla's findings concerning the Ether and looked at the problem from a dowsers point of view He suggests that it is from this strange hidden energy that information can be extracted by the human mind Further he speculates that some UFO phenomenon and Other Worldly Entities may be able to communicate with us using this Ether at energy cross over points in the sacred landscape Using the Ether energy these Beings can manipulate

matter project thought forms and change the way we understand our everyday world Taking us through a journey from the hidden and amazing life of Tesla to modern day Quantum Physics the book explores how Etheric Energy may play a vital part in allowing UFOs and visitors from other planets to travel through portals Nigel Mortimer s refreshing new look at UFOs Portals and Earth Energies brings about a brand new theory concerning the Ether which modern science is beginning to appreciate once again This is no ordinary UFO book It is an exploration into the unknown chapters of the mind and how we are able to appreciate in a better way some of the true mysteries and conspiracies of today
