Crazy For You The Making Of Womens Madness

Linda Rae Bennett, Lenore Manderson

Crazy For You The Making Of Womens Madness:

Talking Back bell hooks, 2014-10-10 In childhood bell hooks was taught that talking back meant speaking as an equal to an authority figure and daring to disagree and or have an opinion In this collection of personal and theoretical essays hooks reflects on her signature issues of racism and feminism politics and pedagogy Among her discoveries is that moving from silence into speech is for the oppressed the colonized the exploited and those who stand and struggle side by side a gesture of defiance that heals making new life and new growth possible **Women's Mental Health** Sarah E. Romans, Mary Violette Seeman, 2006 Women's Mental Health A Life Cycle Approach brings together the latest research and clinical information on the wide variety of psychiatric problems that affect women in unique ways The book is organized around the female life cycle childhood adolescence adulthood reproduction and aging and addresses specific disorders as they present at each stage Chapters examine the biological hormonal and psychosocial foundations of female psychiatric disorders at each life cycle stage and offer a framework for thinking about clinical problems Expert commentaries are included to expand on key issues and provide an insightful overview of each life cycle stage The international group of contributors ensures complete coverage of cross cultural issues Concluding chapters discuss mental health services for women worldwide

Madness Mary de Young, 2014-01-10 Madness is of course personally experienced but because of its intimate relationship to the sociocultural context it is also socially constructed culturally represented and socially controlled all of which make it a topic ripe for sociological analysis Using a range of historical and contemporary textual material this work exercises the sociological imagination to explore some of the most perplexing questions in the history of madness including why some behaviors thoughts and emotions are labeled mad while others are not why they are labeled mad in one historical period and not another why the label of mad is applied to some types of people and not others by whom the label is applied and with what consequences **Of Suffocated Hearts and Tortured Souls** Valérie Orlando, 2003-01-01 A striking number of hysterical or insane female characters populate Francophone women's writing To discover why Orlando reads novels from a variety of cultures teasing out key elements of Francophone identity struggles Women and Psychiatric Treatment Claire Henderson, Catherine Smith, Shubulade Smith, Angela Stevens, 2013-05-24 Women and Psychiatric Treatment provides a practical guide to the challenge of preserving fairness in access and quality of provision of health care and argues that equity is only achievable through greater recognition of gender differences Taking into account the main variables which influence treatment such as setting age and culture clear suggestions are given for the reform of training research and provision of services according to gender differences Divided into seven sections the book discusses the following subjects the background treatment settings treatment of particular groups specific disorders managing the sequelae of trauma therapies the future implications for training research and service provision This comprehensive and practical text offers a thorough investigation of the issues surrounding the treatment of women with mental health problems It will be welcomed by

psychiatrists clinical psychologists and other mental health workers

Women's Health in Canada Marina Morrow, Olena Hankivsky, Colleen Varcoe, 2008-05-03 In recent years healthcare professionals have recognized the distinctly different healthcare needs and concerns of men and women Women's health in particular has come into its own in the last two decades In Canada however there has been little available in the way of a general text on women's health This volume works toward filling that gap by providing a resource for teaching and understanding women's health in this country To lay out the methodological and theoretical foundations for their study editors Olena Hankivsky Marina Morrow and Colleen Varcoe bring together an interdisciplinary group of scholars and practitioners from economics anthropology sociology nursing political studies women's studies and psychology Contributors draw on the rich history of the Canadian women's health movement providing analysis of that history and of the emergent theory policy and practice Aimed at undergraduate and graduate students as well as practitioners the collection adopts an intersectional approach looking closely at social factors such as gender race ethnicity class sexuality and gender identity and analysing how they relate both to each other and to women's health Connections between the social economic and cultural contexts of women's lives and their physical spiritual and mental well being are a primary focus Providing a much needed resource for teachers students and practitioners of women's health in Canada this comprehensive volume makes an important contribution to the literature

The Wasting Heroine in German Fiction by Women 1770-1914 Anna Richards, 2004 In this broad ranging study of German fiction by women between 1770 1914 the author aims to add a new dimension to existing debates on the association of women and illness in literature She constructs a history of women's self starvation eating behaviour and wasting diseases

How to Rethink Mental Illness Bernard Guerin, 2017-03-16 The world of mental illness is typically framed around symptoms and cures where every client is given a label In this challenging new book Professor Bernard Guerin provides a fresh alternative to considering these issues based in interdisciplinary social sciences and discourse analysis rather than medical studies or cognitive metaphors A timely and articulate challenge to mainstream approaches Guerin asks the reader to observe the ecological contexts for behavior rather than diagnose symptoms to find new ways to understand and help those experiencing mental distress This book shows the reader how we attribute mental illness to someone's behavior why we call some forms of suffering mental but not others what Western diagnoses look like when you strip away the theory and categories why psychiatry and psychology appeared for the first time at the start of modernity the relationship between capitalism and modern ideas of mental illness why it seems that women the poor and people of Indigenous and non Western backgrounds have worse mental health how we can rethink the hearing of voices more ecologically how self identity has evolved historically how thinking arises from our social contexts rather than from inside our heads Offering solutions rather than theory to develop a new post internal psychology How to Rethink Mental Illness will be essential reading for every mental health professional as well as anyone who has either experienced a mental illness themselves or helped a friend or family

member who has Eloquence in Trouble James M. Wilce,2003-10-16 Eloquence in Trouble captures the articulation of several troubled lives in Bangladesh as well as the threats to the very genres of their expression lament in particular The first ethnography of one of the most spoken mother tongues on earth Bangla this study represents a new approach to troubles talk combining the rigor of discourse analysis with the interpretive depth of psychological anthropology Its careful transcriptions of Bangladeshi troubles talk will disturb some readers and move others beyond past academic discussion of personhood in South Asia

Odyssey of a Wandering Mind Jennifer Horne,2024-01-11 Sara Mayfield was born into Alabama s governing elite in 1905 and grew up in a social circle that included Zelda Sayre Fitzgerald Sara Haardt Mencken and Tallulah and Eugenia Bankhead A precocious child Mayfield befriended H L Mencken in college then visited with the Fitzgeralds and hobnobbed with the literati while traveling in Europe after a failed marriage in the 1920s Returning to Alabama during the Depression she briefly ran the family plantation before departing for New York City where she became involved in the theatre Inventing a plastic compound derived from cotton while working on theatrical sets she applied for a patent and set her sights on a livelihood as an inventor and businesswoman With the advent of World War II Mayfield returned to her family home in Tuscaloosa where she expanded her experiments freelanced as journalist and doggedly pursued a bizarre series of military and intelligence schemes prompting temporary hospitalization In 1945 she mingled with a host of cultural figures while reporting on the creation of the United Nations from Mexico and California but she struggled to find her place in Tuscaloosa society after the war becoming increasingly paranoid about conspiracies arrayed against her Finally her mother and brother committed her to Bryce Hospital for the Insane where she remained for the next seventeen years Throughout her life Mayfield kept journals wrote fiction and produced thousands of letters while nursing the overriding ambition that drove her since childhood to write and publish books During her confinement Mayfield assiduously recorded her experiences and her determined efforts sometimes delusional always savvy to overturn her diagnosis and return to the world as a sane independent adult At 59 she did just that securing her release having been returned to sanity then publishing literary biographies of Mencken and the Fitzgeralds plus a novel finally achieving her lifelong quest to become an author of books and her own life In Odyssey of a Wandering Mind noted writer Jennifer Horne draws on years of research and an intimate understanding of the vast archive Mayfield left behind to sensitively render her struggle to move through the world as the person she was and her ultimate success in surviving to define the terms of her story

Violence Against Women in Asian Societies Linda Rae Bennett,Lenore Manderson,2013-09-13 Violence against women is a violation of women s human rights and a priority public health issue It is endemic worldwide While much has been written about it in industrialized societies there has been relatively little attention given to such violence in Asian societies This book addresses the structural and interpersonal violences to which women are subject both under conditions of conflict and disruption and where civil society is relatively ordered It explores sexual violence and coercion domestic violence and violence within the broader

community and the state avoiding sensationalised accounts of so called cultural practices in favour of nuanced explorations of violences as experienced in Cambodia Thailand Burma Indonesia Malaysia the Philippines Bangladesh and India

Within the Confines Jennifer M. Kilty ,2014 Western feminists have long treated the rule of law as an essential ingredient of social justice however as the contributors to this collection remind us meaningful justice remains out of reach for many women and racialized minorities precisely because the law turns a blind eye to the inequities that structure their daily lives In fourteen chapters that open vital debates about the erosion of the welfare state and the media s complicity in concealing political injustice *Within the Confines* details the brutal ironies of a society that criminalizes the vulnerable while absolving the elite Distinctive in its focus on Canada the book traces the linkages among racial ethnic sexual and economic vulnerability and reveals the inadequacies of legislative approaches to socio historical problems such as drug trafficking homelessness infanticide and the legacies of settler colonial violence In accessible prose the authors dismantle the myths behind topics that are often sensationalized in the media pornography single motherhood sex work filicide gangs domestic abuse prison conditions HIV nondisclosure and present alternative arguments that expose the justice system s role in widening the gap between the rich and the poor What emerges is a poignant challenge to the neoliberal fable that women and minorities in Western democracies now enjoy full equality and an urgent call to action for those who seek to shift institutional norms in more equitable directions A valuable resource for a wide range of fields including criminology sociology social anthropology gender studies political science social work and legal history this multidisciplinary volume offers a fresh perspective on the disturbingly predictable judgments that criminalized women face in Canada

Silencing the Self Across Cultures Dana C. Jack,Alisha Ali,2010-04-28 This international volume offers new perspectives on social and psychological aspects of the complex dynamic of depression The twenty one contributors from thirteen countries Australia Canada Finland Germany Haiti India Israel Nepal Poland Portugal Puerto Rico Scotland and the United States represent contexts with very different histories political and economic structures and gender role disparities Authors rely on *Silencing the Self* theory which details the negative psychological effects when individuals silence themselves in close relationships and the importance of the social context in precipitating depression Specific patterns of thought about how to achieve closeness in relationships self silencing schema are known to predict depression This book breaks new ground by demonstrating that the linkage of depressive symptoms with self silencing occurs across a range of cultures We offer a new view of gender differences in depression situated in the formation and consequences of self silencing including differing motivational aims norms of masculinity and femininity and the broader social context of gender inequality The book offers evidence regarding why women s depression is more wide spread than men s and why the treatment of depression lies in understanding that a person s individual psychology is inextricably related to the social world and close relationships Authors examine not only gender differences in depression but also related aspects of mental and physical illness including treatments specific to

women Several chapters describe the transformative possibilities of community driven movements for disadvantaged women that support healing through a recovery of voice and describe the need for systemic and structural changes to counter violations of human rights as a means of reducing women's risk of depression Bringing the work of these researchers together in one collection furthers international dialogue about critical social factors that affect the rising rates of depression around the globe

Black Dogs and Blue Words Kimberly Emmons, 2010 Analyzes the rhetoric surrounding depression Maintains that the techniques and language of depression marketing strategies vague words such as worry irritability and loss of interest target women and young girls and encourage self diagnosis and self medication Further depression narratives and other texts encode a series of gendered messages about health and illness As depression and other forms of mental illness move from the medical professional sphere into that of the consumer public the boundary at which distress becomes disease grows ever more encompassing the need for remediation and treatment increasingly warranted From publisher description

Engendering International Health Gita Sen, Asha George, Pirooska Östlin, 2002 Research on gender inequity in international health in both low and high income countries

Women and Borderline Personality Disorder Janet Wirth-Cauchon, 2001 A superb up to date feminist analysis of the borderline condition Characterized by stereotypically feminine qualities such as poor interpersonal boundaries and an unstable sense of self borderline diagnosis has been questioned by many as a veiled replacement of the hysteria diagnosis Wirth Cauchon includes narratives from women exhibiting the theoretical underpinnings of the borderline diagnosis The author is rigorous in her analysis and mainstream academics and diagnosticians should take note lest they create yet another label that disregards the contradictory and conflicting expectations experienced by so many women Includes an excellent bibliography and a wealth of good reference Highly recommended Choice This book contributes to a rich feminist interdisciplinary theoretical understanding of women's psychological distress and represents an excellent companion volume to Dana Becker's book titled Through the Looking Glass Psychology of Women Quarterly Wonderfully written The argument proceeds with an impeccable and transparent logic the writing is sophisticated evocative even inspired This work should have enormous appeal Kenneth Gergen author of Realities and Relationships Impressive in its synthesis of many different ideas both clinicians and people diagnosed with BPD may find much of value in Wirth Cauchon's thoughtful and provoking analysis Metapsychology At the beginning of the twentieth century hysteria as a medical or psychiatric diagnosis was primarily applied to women In fact the term itself comes from the Greek meaning wandering womb We have since learned that this diagnosis had evolved from certain assumptions about women's social roles and mental characteristics and is no longer in use The modern equivalent of hysteria however may be borderline personality disorder defined as a pervasive pattern of instability of self image interpersonal relationships and mood beginning in early adulthood and present in a variety of contexts This diagnosis is applied to women so much more often than to men that feminists have begun to raise important questions about the social cultural and even the medical

assumptions underlying this illness Women are said to be unstable when they may be trying to reconcile often contradictory and conflicting social expectations In *Women and Borderline Personality Disorder* Janet Wirth Cauchon presents a feminist cultural analysis of the notions of unstable selfhood found in case narratives of women diagnosed with borderline personality disorder This exploration of contemporary post Freudian psychoanalytic notions of the self as they apply to women s identity conflicts is an important contribution to the literature on social constructions of mental illness in women and feminist critiques of psychiatry in general Janet Wirth Cauchon is an associate professor of sociology at Drake University Among Stone Giants JoAnne Van Tilburg,2003 A portrait of the first woman archaeologist to work in Polynesia documents Routledge s experiences on Easter Island beginning with the launch of the 1913 Mana Expedition and continuing with her emersion into local customs and beliefs and battle with schizophrenia **Handbook of Social Sciences and Global Public Health** Pranee Liamputtong,2023-09-09 This handbook highlights the relevance of the social sciences in global public health and their significantly crucial role in the explanation of health and illness in different population groups the improvement of health and the prevention of illnesses around the world Knowledge generated via social science theories and research methodologies allows healthcare providers policy makers and politicians to understand and appreciate the lived experience of their people and to provide sensitive health and social care to them at a time of most need Social sciences such as medical sociology medical anthropology social psychology and public health are the disciplines that examine the sociocultural causes and consequences of health and illness It is evident that biomedicine cannot be the only answer to improving the health of people What makes social sciences important in global public health is the critical role social cultural economic and political factors play in determining or influencing the health of individuals communities and the larger society and nation This handbook is comprehensive in its nature and contents which range from a more disciplinary based approach and theoretical and methodological frameworks to different aspects of global public health It covers Discussions of the social science disciplines and their essence concepts and theories relating to global public health Theoretical frameworks in social sciences that can be used to explain health and illness in populations Methodological inquiries that social science researchers can use to examine global public health issues and understand social issues relating to health in different population groups and regions Examples of social science research in global public health areas and concerns as well as population groups The *Handbook of Social Sciences and Global Public Health* is a useful reference for students researchers lecturers practitioners and policymakers in global health public health and social science disciplines and libraries in universities and health and social care institutions It offers readers a good understanding of the issues that can impact the health and well being of people in society which may lead to culturally sensitive health and social care for people that ultimately will lead to a more equitable society worldwide Women's Studies Linda Krikos,Cindy Ingold,2004-08-30 This truly monumental work maps the literature of women s studies covering thousands of titles and Web sites in 19 subject areas published between 1985 and

1999 Intended as a reference and collection development tool this bibliography provides a guide for women s studies information for each title along with a detailed often evaluative review The annotations summarize each work s content its importance or contribution to women s studies and its relationship to other titles on the subject Core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts This definitive guide to the literature of women s studies is a must purchase for academic libraries that support women s studies programs and it is a useful addition to any academic or public library that endeavors to represent the field A team of subject specialists has taken on the immense task of documenting publications in the area of women s studies in the last decades of the 20th century The result is this truly monumental work which maps the field covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999 Intended as a reference and collection development tool this bibliography provides a guide for women s studies information for each title along with a detailed often evaluative review The annotations summarize each work s content its importance or contribution to women s studies and its relationship to other titles on the subject Most reviews cite and describe similar and contrasting titles substantially extending the coverage Core titles and titles that are out of print are noted and reviews indicate which titles are appropriate as texts or supplemental texts Taking up where the previous volume by Loeb Searing and Stineman left off this is the definitive guide to the literature of women s studies It is a must purchase for academic libraries that support women s studies programs and a welcome addition to any academic or public library that endeavors to represent the field **International Journal of Mental Health** ,1998
