Creating American Civilization A Genealogy Of American Literature As An Academic Discipline American Culture: **Creating American Civilization** David R. Shumway, 1994 American Literature and Culture, 1900 - 1960 Gail McDonald, 2008-04-15 This introduction to American literature and culture from 1900 to 1960 is organized around four major ideas about America that is it big new rich and free Illustrates the artistic and social climate in the USA during this period Juxtaposes discussion of history popular culture literature and other art forms in ways that foster discussion questioning and continued study An appendix lists relevant primary and secondary works including websites An ideal supplement to primary texts taught in American literature courses American Literature and the Culture Wars Gregory S. Jay, 2018-09-05 Gregory S Jay boldly challenges the future of American literary studies Why pursue the study and teaching of a distinctly American literature What is the appropriate purpose and scope of such pursuits Is the notion of a traditional canon of great books out of date Where does American literature leave off and Mexican or Caribbean or Canadian or postcolonial literature begin Are today s campus conflicts fueled more by economics or ideology Jay addresses these questions and others relating to American literary studies to explain why this once arcane academic discipline found itself so often in the news during the culture wars of the 1990s While asking some skeptical questions about new directions and practices Jay argues forcefully in favor of opening the borders of American literary and cultural analysis He relates the struggle for representation in literary theory to a larger cultural clash over the meaning and justice of representation then shows how this struggle might expand both the contents and the teaching of American literature In an account of the vexed legacy of the Declaration of Independence he provides a historical context for the current guarrels over literature and politics Prominent among these debates are those over multiculturalism which Jay takes up in an essay on the impasses of identity politics In closing he considers how the field of comparative American cultural studies might be constructed Theories of American Culture. Theories of American Studies Winfried Fluck, 2003 The Latin American Literary Boom and U.S. Nationalism During the Cold War Deborah N. Cohn, 2012 How the dissemination of Latin American literature in the U S was caught between the desire to support the literary revolution of the Boom writers and the fear of revolutionary politics John King The Cambridge History of the American Novel Leonard Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre by leading experts in the field Reconceptualizing American Literary/Cultural Studies William E. Cain, 2014-04-04 Three extensively revised essays by Mailloux an influential proponent of cultural studies describe his approach in depth Following are ten essays nine of them written specifically for this volume by scholars who offer various perspectives on Mailloux s ideas Each essayist weighs the strengths and limitations of the cultural studies movement in general and Mailloux s approach in particular What America Read Gordon Hutner, 2009-11-05 Despite the vigorous study of modern American fiction today s readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated

in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class s confrontation with modernity Reading these novels now offers an extraordinary opportunity to witness debates about what kind of nation America would become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered

The American Novel 1870-1940 Priscilla Wald, Michael A. Elliott, Jonathan Arac, 2014-02 Witnessing the end of a war that nearly terminated the nation the abolition of racial slavery and rise of legal segregation the rise of Modernism and Hollywood the closing of the frontier and two World Wars the literary historical period represented in this volume constitutes the crucible of American literary history Here 35 essays by top researchers in the field detail how considerations of race and citizenship immigration and assimilation gender and sexuality nationalism and empire all reverberate throughout novels written in the United States between 1870 and 1940 Contributors discuss the professionalization of literary production after the Civil War alongside legal and political debates over segregation and citizenship while chapters on journalism geography religion and immigration offer discussions on everything from the lasting role of literary realism in American fiction to the Spanish American War's effect on developing theories of aesthetics and popular culture The volume offers thorough coverage of the emergence of serial fiction children's fiction crime and detective fiction science fiction and even cinema and comics as new media and artistic revolutions like the Harlem Renaissance helped usher in the new international aesthetic movement of Modernism The final chapters in the volume explore the relationship of the novel to the emergence of American literature as a category in the academy in public criticism and journalism and in mass culture American Studies in Dialogue Matthias Oppermann, 2010-10-04 Seit seiner Entstehung in den 1930er Jahren hat sich das Fach American Studies in den USA radikal ver ndert Als Motor dieses Prozesses galt bislang die wissenschaftliche Forschung Matthias Oppermann beleuchtet nun erstmals die Rolle der Lehre und zeigt dass das Fach von Beginn an durch Kurse und Lehrpl ne nicht nur didaktisch sondern auch theoretisch kontinuierlich neu konstituiert wurde Mit dieser Neubewertung liefert er ein revidiertes Verst ndnis der American Studies als interdisziplin re Kulturwissenschaft im Spannungsfeld unterschiedlicher Theorien Methoden und Forschungsgegenst nde Cold Warriors Suzanne Clark, 2000 Cold Warriors Manliness on Trial in the Rhetoric of the West returns to familiar cultural forces the West anticommunism and manliness to show how they combined to suppress dissent and dominate the unruliness of literature in the name of a national identity after World War II Few realize how much the domination of a white male American literary canon was a product not of long history but of the Cold War Suzanne Clark describes here how the Cold War excluded women writers on several levels together with others African American Native American poor men as well as women who were ignored in the struggle over white male identity Clark first shows how defining national individual American identity in the Cold War involved a brand new configuration of cultural history At the

same time it called upon the nostalgia for the old discourses of the West the national manliness asserted by Theodore Roosevelt to claim that there was and always had been only one real American identity By subverting the claims of a national identity Clark finds many male writers risked falling outside the boundaries not only of public rhetoric but also of the literary world men as different from one another as the determinedly masculine Ernest Hemingway and the antiheroic storyteller of the everyday Bernard Malamud Equally vocal and contentious Cold War women writers were unwilling to be silenced as Clark demonstrates in her discussion of the work of Mari Sandoz and Ursula Le Guin The book concludes with a discussion of how the silencing of gender race and class in Cold War writing maintained its discipline until the eruptions of the sixties By questioning the identity politics of manliness in the Cold War context of persecution and trial Clark finds that the involvement of men in identity politics set the stage for our subsequent cultural history Literature in the Making Nancy Glazener, 2016 In the eighteenth century literature meant learned writings by the twentieth century literature had come to be identified with imaginative aesthetically significant works and academic literary studies had developed special protocols for interpreting and valuing literary texts Literature in the Making examines what happened in between how literature came to be more precisely specified and valued how it was organized into genres canons and national traditions and how it became the basis for departments of modern languages and literatures in research universities Modern literature the version of literature familiar today was an international invention but it was forged when literary cultures traditions and publishing industries were mainly organized nationally Literature in the Making examines modern literature s coalescence and institutionalization in the United States considered as an instructive instance of a phenomenon that was going global Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer Cervantes and Shakespeare however the development of literature and literary culture in the U S was fundamentally transnational Literature in the Making argues that Shakespeare studies one of the richest tracts of nineteenth century U S literary culture was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk a foundational paradox that continues to shape literary studies and literary culture Bringing together the histories of literature s competing conceptualizations its print infrastructure its changing status in higher education and its life in public culture during the long nineteenth century Literature in the Making offers a robust account of how and why literature mattered then and matters now By highlighting the lively collaboration between academics and non academics that prevailed before the ascendancy of the research university starkly divided experts from amateurs Literature in the Making also opens new possibilities for envisioning how academics might partner with the reading public Star Authors Joe Moran, 2000-02-20 In America authors are as likely to be seen on television talk shows or magazine covers as in the more traditional settings of literary festivals or book signings Is this literary celebrity just another result of dumbing down Yet another example of the mass media turning everything into entertainment Or is it a much more unstable complex phenomenon And what does the

American experience tell us about the future of British literary celebrity In Star Authors Joe Moran shows how publishers the media and authors themselves create and disseminate literary celebrity He looks at such famous contemporary authors as Toni Morrison J D Salinger Thomas Pynchon Don DeLillo John Updike Philip Roth Kathy Acker Nicholson Baker Paul Auster and Jay McInerney Through an examination of their own work biographical information media representations and promotional material Moran illustrates the nature of modern literary celebrity He argues that authors actively negotiate their own celebrity rather than simply having it imposed upon them from reclusive authors such as Salinger and Pynchon famed for their very lack of public engagement to media friendly authors such as Updike and McInerney Star Authors analyses literary celebrity in the context of the historical links between literature advertising and publicity in America the economics of literary production and the cultural capital involved in the marketing and consumption of books and authors
