Creating Contexts For Second Language Acquisition:

Creating Contexts for Second Language Acquisition Arnulfo G. Ramirez, 1995 **The Study of Second Language Acquisition in the Asian Context**, 2006 This book will be of special interest to English teachers and those in professional development in the region and or who have classrooms with Asian learners Paradigms appear to be shifting in Asian L2 learning in a region providing huge growth in English education This will have an important bearing on the profession including researchers worldwide **Preparing Classroom Teachers to Succeed with Second Language Learners** Thomas Levine, Elizabeth Howard, David Moss, 2014-07-11 This volume identifies resources models and specific practices for improving teacher preparation for work with second language learners It shows how faculty positioned themselves to learn from resources experts preservice teachers their own practice and each other The teacher education professionals leverage their experience to offer theoretical and practical insights regarding how other faculty could develop their own knowledge improve their courses and understand their influence on the preservice teachers they serve The book addresses challenges others are likely to experience while improving teacher preparation including preservice teacher resistance the challenge of adding to already packed courses the difficulty of recruiting and retaining busy faculty members and the question of how to best frame the larger issues The authors also address options for integrating the work of improving teacher preparation for linguistic diversity into a variety of different teacher education program designs Finally the book demonstrates a data driven approach that makes this work consistent with many institutions mandate to produce research and to collect evidence supporting accreditation Conversational Interaction in Second Language Acquisition Alison Mackey, 2013-12-02 This edited collection of empirical studies examines the link between interaction and second language learning The studies provide readers with insights into a wide variety of issues at the centre of current research into the relationship between conversational interaction and second language learning outcomes **Second Language Acquisition** Susan M. Gass, 2013-08-21 Now in a fourth edition this bestselling introductory textbook remains the cornerstone volume for the study of second language acquisition SLA Its chapters have been fully updated and reorganized where appropriate to provide a comprehensive yet accessible overview of the field and its related disciplines To reflect current developments new sections on using learner corpora semantics and morphosyntax within formal approaches to SLA sociocultural approaches gesture priming research and chaos theory have been added Students will also find expanded discussions of heritage language learning bilingualism pragmatics and much more The redesigned fourth edition of Second Language Acquisition retains the features that students found useful in the current edition but also provides new pedagogical tools that encourage students to reflect upon the experiences of second language learners As with previous editions discussion questions and problems at the end of each chapter help students apply their knowledge and a glossary defines and reinforces must know terminology This clearly written comprehensive and current textbook by expert Sue Gass is the ideal textbook for the introductory SLA course

in second language studies applied linguistics linguistics TESOL and language education programs **Exploring Language Pedagogy through Second Language Acquisition Research** Rod Ellis,Natsuko Shintani,2013-07-31 Routledge

Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics primarily designed for those beginning postgraduate studies or taking an introductory MA course as well as advanced undergraduates Titles in the series are also ideal for language professionals returning to academic study The books take an innovative practice to theory approach with a back to front structure This leads the reader from real world problems and issues through a discussion of intervention and how to engage with these concerns before finally relating these practical issues to theoretical foundations Additional features include a glossary of key terms and discussion questions Following the back to front approach of the series the book takes problematic issues in language pedagogy as its starting points These are then examined in terms of second language acquisition Each chapter begins with a look at the pedagogical proposals found in teacher guides and then asks Do these proposals accord with what we know about how languages are acquired

Pedagogical topics covered include teaching methods syllabus design explicit instruction comprehension versus production based instruction task based instruction authentic materials the role of the learners first language in the classroom error correction and catering for individual differences Including a glossary of key terms and questions for discussion at the end of each chapter and assuming no prior knowledge of second language acquisition this is the ideal text for all students studying language teaching methods language teacher education English teaching methodology and second language acquisition modules in advanced undergraduate and postgraduate graduate TESOL and Applied Linguistics courses **Second**

Language Acquisition and the Younger Learner Jenefer Philp,Rhonda Oliver,Alison Mackey,2008-10-01 This new volume of work highlights the distinctiveness of child SLA through a collection of different types of empirical research specific to younger learners Characteristics of children s cognitive emotional and social development distinguish their experiences from those of adult L2 learners creating intriguing issues for SLA research and also raising important practical questions regarding effective pedagogical techniques for learners of different ages While child SLA is often typically thought of as simple and often enjoyable and universally effortless in other words as child s play the complex portraits of young second language learners which emerge in the 16 papers collected in this book invite the reader to reconsider the reality for many younger learners Chapters by internationally renowned authors together with reports by emerging researchers describe second and foreign language learning by children ranging from pre schoolers to young adolescents in home and school contexts with caregivers peers and teachers as interlocutors **Typology and Second Language Acquisition** Anna

Giacalone Ramat,2011-07-11 In recent years research on comparative typology has led to reveal regularities and to formulate new constraints upon variation for a broad range of phenomena As the amount of typological research increased a growing interest arose for the implications that findings in the typological field might have on second language acquisition Written by

experts in the field of typology and or second language acquisition this volume addresses theoretical and empirical issues on structural domains such as relative clauses and possessive constructions as well as pragmatic considerations on information organization in learners productions *A Philosophy of Second Language Acquisition* Marysia Johnson,2008-10-01

divdivHow does a person learn a second language In this provocative book Marysia Johnson proposes a new model of second language acquisition SLA a model that shifts the focus from language competence the ability to pass a language exam to language performance using language competently in real life contexts Johnson argues that current SLA theory and research is heavily biased in the direction of the cognitive and experimental scientific tradition She shows that most models of SLA are linear in nature and subscribe to the conduit metaphor of knowledge transfer the speaker encodes a message the hearer decodes the sent message Such models establish a strict demarcation between learners mental and social processes Yet the origin of second language acquisition is located not exclusively in the learner s mind but also in a dialogical interaction conducted in a variety of sociocultural and institutional settings says the author Drawing on Vygotsky s sociocultural theory and Bakhtin s literary theory she constructs an alternative framework for second language theory research teaching and testing This approach directs attention toward the investigation of dynamic and dialectical relationships between the interpersonal social plane and the intrapersonal individual plane Johnson s model shifts the focus of SLA away from a narrow emphasis on language competence toward a broader view that encompasses the interaction between language competence and performance Original and controversial *A Philosophy of Second Language Acquisition* offers an introduction to Vygotsky s sociocultural theory and Bakhtin s literary theory both of which support an alternative framework for second language acquisition an examination of the existing cognitive bias in SLA theory and research a radically new model of second language acquisition DIV DIV **English Language Learning in the Asian Context 2nd Edn** Paul Robertson,2005

Mind and Context in Adult Second Language Acquisition Cristina Sanz,2005-11-02 How do people learn nonnative languages Is there one part or function of our brains solely dedicated to language processing or do we apply our general information processing abilities when learning a new language In this book an interdisciplinary collaboration of scholars and researchers presents an overview of the latter approach to adult second language acquisition and brings together for the first time a comprehensive picture of the latest research on this subject Clearly organized into four distinct but integrated parts *Mind and Context in Adult Second Language Acquisition* first provides an introduction to information processing approaches and the tools for students to understand the data The next sections explain factors that affect language learning both internal attention and awareness individual differences and the neural bases of language acquisition and external input interaction and pedagogical interventions It concludes by looking at two pedagogical applications processing instruction and content based instruction This important and timely volume is a must read for students of language learning second language acquisition and linguists who want to better understand the information processing approaches to learning a non primary
