**Ourselves as Students** Kaaren Ancarrow,1996 These essays by Old Dominion University students deal with two questions What impact do their own race class gender and ethnic identities have upon them as students How do their culture and the university culture interact to affect their ability to learn The focus of these essays is on the overlap between the students identities as students and their identities based on gender race class and ethnic origin The project began as an assignment in a women s studies class at Old Dominion University in 1993 when students in a mixed graduate and undergraduate course were asked to write a brief analysis of themselves as students accounting for the impact of gender race and social class on what they studied what they heard in class how they were treated in the classroom how they treated others there and what their level of comfort in the university was Invited to add other variables such as religion nationality age sexual orientation or disability if they considered these significant to their identities as students the students were urged to consider not only the disadvantages these various identities gave them but also the privileges and advantages The resulting essays stimulated great interest in what students had to say and led to the formation of The Broad Minds Collective made up of four students from the class as well as its instructor which set about the task of soliciting and collecting additional essays Although most essays contain overlapping themes the editors detected four motifs that encompass virtually every essay included in the book In the section Cultural Perceptions and Assumptions students show their awareness of how culturally defined categories affect education Essays in Belonging and Alienation in the Classroom discuss the students level of comfort in the classroom and the degree to which they feel they belong at the university The essays in Making Sense of Our Lives Through Education reveal the students use of education to learn more about the forces that shape them In Search of an Education highlights students efforts to wrest what they feel they need from a college education Rather than presenting a multicultural educational theory or conducting a sterile sociological study The Broad Minds Collective has allowed students to speak for themselves Abstraction is replaced by stories of personal conflict struggle and victory

**Failing at Fairness** Myra Sadker,David Sadker,2010-05-11 Failing at Fairness the result of two decades of research shows how gender bias makes it impossible for girls to receive an education equal to that given to boys Girls learning problems are not identified as often as boys are Boys receive more of their teachers attention Girls start school testing higher in every academic subject yet graduate from high school scoring 50 points lower than boys on the SAT Hard hitting and eye opening Failing at Fairness should be read by

every parent especially those with daughters      **Teaching: Dilemmas, Challenges & Opportunities** Robyn Ewing, Lisa Kervin, Christine Glass, Brad Gobby, Rosie Le Cornu, Susan Groundwater-Smith, 2019-09-26 We have not sought in this book to define best practice for you but have rather challenged you to think about ways in which to teach intelligently insightfully and respectfully How does a teacher deal with a student's challenging behaviour in the classroom Is it fair to adopt information and communication technologies that favour students who have access to sophisticated devices such as tablets in their own home How during the professional experience is an education student to act when his or her beliefs about learning are not congruent with those of the supervising teacher Should students be grouped in terms of their ability These and many more issues arise daily in our early childhood primary and secondary learning environments Teaching 6e takes a holistic approach to classroom teaching and learning It considers the complexities and opportunities embedded in meeting learners' needs in diverse and ever-changing contexts It encourages pre-service teachers to become active learners of teaching how to think like teachers and to consider the fundamental aspects of teaching It directs pre-service teachers to useful teaching resources in text in references and online Case studies and reflection opportunities encourage pre-service teachers to consider their own strengths and issues the diversity of learning styles in their students their school and wider community as well as government and ethical requirements It raises student awareness of what it really means to teach and how they can do it Students will continue to refer to this well researched and easy to use text throughout their qualification in their professional placement and into their teaching career      *Handbook for Achieving Gender Equity Through Education* Susan S.
