Chapman, 2016-01-01 This work reevaluates the biblical house of the father in light of the anthropological critique of the patrilineal model It uncovers and defines the contours of an underappreciated yet socially significant kinship unit in the Bible Remembering Trauma Richard J. McNally, 2005-05-27 Synthesising clinical case reports and the the house of the mother research literature on the effects of stress suggestion and trauma on memory Richard McNally arrives at significant conclusions first and foremost that traumatic experiences are indeed unforgettable The Day Care Ritual Abuse Moral Panic Mary de Young, 2003-12-31 In the United States during the early 1980s hundreds of day care providers were accused of sexually abusing their young charges in satanic rituals that included blood drinking cannibalism and human sacrifice The panic surrounding the ritual abuse of children has spread quickly to Canada Europe and Australasia and its rapid dispersion has been unimpeded by international investigations that found no evidence to corroborate the allegations and warned that a moral panic was thrusting them into professional public attention This work is a sociologically based analysis of the day care ritual abuse panic in America It introduces the concept of moral panic and analyzes its relevance to the ritual abuse scare explores the ideological political economic and professional forces that fomented the panic discusses the McMartin Preschool case as the incident that brought attention to satanic menaces and children and examines the dialect between the various interest groups that stirred up and spread the moral panic and the day care providers accused of ritual abuse Also covered are the popular culture representations of day care ritual abuse the diffusion of the scare to areas overseas the institutionally symbolic and ideologically contradictory social ends of the panic and the outcomes of the panic in various settings The book ends with a discussion of moral panic theory and how it needs to be changed for a complex multi mediated postmodern culture and what lessons can be learned from the scare The Invention of Satanism Asbjørn Dyrendal, James R. Lewis, Jesper Aagaard Petersen, 2016 Written by three experts in the field The Invention of Satanism examines contemporary religious Satanism as the product of historical ideological and social processes Symphonic Metamorphoses Raymond

Knapp, 2003 An intimate investigation of Mahler's distinctive voice All Equally Real: Femininities and Masculinities **Today** Anna Pilińska, Harmony Siganporia, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume is a collection of research papers which deem gender identities to be dynamic and multiple categories refusing resolutely to reduce their complexity to fit neat extant binaries It attempts to grapple with the dialectic which emerges from the fact that while there is a certain resistance to being labeled in contemporary discourses on sexuality gender identities actively influence how we interpret the world and how we function within it we exist amongst patterns models and behaviours as well as among people who virtually demand to be labeled because to them this forms the basis of a stable identity Various cultural perspectives and realities are here given voice bringing to bear upon the reader the need to identify privileges they might take for granted but which are unobtainable elsewhere As the curtain of one s own cultural context is lifted this volume hopes that these privileges are even if for a moment no longer invisible Satanism: A Social History Massimo Introvigne, 2016-08-29 A 17th century French haberdasher invented the Black Mass An 18th century English Cabinet Minister administered the Eucharist to a baboon High ranking Catholic authorities in the 19th century believed that Satan appeared in Masonic lodges in the shape of a crocodile and played the piano there A well known scientist from the 20th century established a cult of the Antichrist and exploded in a laboratory experiment Three Italian girls in 2000 sacrificed a nun to the Devil A Black Metal band honored Satan in Krakow Poland in 2004 by exhibiting on stage 120 decapitated sheep heads Some of these stories as absurd as they might sound were real Others which might appear to be equally well reported are false But even false stories have generated real societal reactions For the first time Massimo Introvigne proposes a general social history of Satanism and anti Satanism from the French Court of Louis XIV to the Satanic scares of the late 20th century satanic themes in Black Metal music the Church of Satan and beyond The Science of **False Memory** C. J. Brainerd, V. F. Reyna, 2005-05-05 Findings from research on false memory have major implications for a number of fields central to human welfare such as medicine and law Although many important conclusions have been reached after a decade or so of intensive research the majority of them are not well known outside the immediate field To make this research accessible to a much wider audience The Science of False Memory has been written to require little or no background knowledge of the theory and techniques used in memory research Brainerd and Reyna introduce the volume by considering the progenitors to the modern science of false memory and noting the remarkable degree to which core themes of contemporary research were anticipated by historical figure such as Binet Piaget and Bartlett They continue with an account of the varied methods that have been used to study false memory both inside and outside of the laboratory The first part of the volume focuses on the basic science of false memory revolving around three topics old and new theoretical ideas that have been used to explain false memory and make predictions about it research findings and predictions about false memory in normal adults and research findings and predictions about age related changes in false memory between early

childhood and adulthood Throughout Part I Brainerd and Reyna emphasize how current opponent processes conceptions of false memory act as a unifying influence by integrating predictions and data across disparate forms of false memory The second part focuses on the applied science of false memory revolving around four topics the falsifiability of witnesses and suspects memories of crimes including false confessions by suspects the falsifiability of eyewitness identifications of suspects false memory reports in investigative interviews of child victims and witnesses particularly in connection with sexual abuse crimes false memory in psychotherapy including recovered memories of childhood abuse multiple personality disorders and recovered memories of previous lives Although Part II is concerned with applied research Brainerd and Reyna continue to emphasize the unifying influence of opponent processes conceptions of false memory The third part focuses on emerging trends revolving around three expanding areas of false memory research mathematical models aging effects and cognitive neuroscience False Memory will be an invaluable resource for professional researchers practitioners and students in the many fields for which false memory research has implications including child protective services clinical psychology law criminal justice elementary and secondary education general medicine journalism and psychiatry
