Disabled Childhoods Janice McLaughlin,Edmund Coleman-Fountain,Emma Clavering,2016-02-05 A crucial contemporary dynamic around children and young people in the Global North is the multiple ways that have emerged to monitor their development behaviour and character In particular disabled children or children with unusual developmental patterns can find themselves surrounded by multiple practices through which they are examined This rich book draws on a wide range of qualitative research to look at how disabled children have been cared for treated and categorised Narrative and longitudinal interviews with children and their families along with stories and images they have produced and notes from observations of different spaces in their lives medical consultation rooms cafes and leisure centres

homes classrooms and playgrounds amongst others all make a contribution Bringing this wealth of empirical data together with conceptual ideas from disability studies sociology of the body childhood studies symbolic interactionism and feminist critical theory the authors explore the multiple ways in which monitoring occurs within childhood disability and its social effects Their discussion includes examining the dynamics of differentiation via medicine social interaction and embodiment and the multiple actors including children and young people themselves involved The book also investigates the practices that differentiate children into different categories and what this means for notions of normality integration belonging and citizenship Scrutinising the multiple forms of monitoring around disabled children and the consequences they generate for how we think about childhood and what is normal this volume sits at the intersection of disability studies and childhood studies

Overcoming Bias Sue Ellen Christian, 2021-06-28 In this practical and engaging new edition experienced reporter and teacher Sue Ellen Christian offers a fully updated and fresh take on reporting without bias examining the way that we categorize people filter information and default to rehearsed ways of thinking This book is about biases that affect journalism at every stage of reporting and writing Included throughout are stories and advice from working reporters and editors providing real world voices and experiences and covering questions of culture stereotyping sources writing editing visuals and reflective practice This advice and guidance is coupled with practical exercises that give readers the chance to apply what they learn Christian provides a career long foundation for those looking to edit their thinking and to champion a more inclusive and open minded approach to coverage of our multicultural society Offering a concise readable and highly applicable guide to managing coverage of contemporary social issues this book is an ideal resource for undergraduate and graduate students of journalism and early career journalists
