The Fringe of a Profession Renja Suominen-Kokkonen, 1992

Alvar Aalto Furniture Alvar Aalto, 1985

Alvar Aalto's furniture designs are a superb example of an uncompromising spirit that has managed to overcome the boundaries of style and taste, fashion and social class.

Landmarks of Twentieth-century Design Kathryn B. Hiesinger, George Marcus, 1993

Hiesinger and Marcus Phila Museum of Art have assembled 400 examples of industrial and graphic design, furniture, lighting, appliances, and decorative objects. 100 photos in color. Arrangement is chronological. About half the average page is given to photos. Artifacts are related back and forward in time; direct cross references would save index use. Good book. The title is accurate; landmarks does not suggest beauty. The 20th c has produced myriad design horrors.

Women in Design Anne Massey, 2022-11-03

The work of women designers has not traditionally been the focus of mainstream histories of design. By revealing the untold story of female design pioneers, this comprehensive introduction celebrates their crucial role in the history of modern processes of making. Arranged chronologically, this guide considers the structural barriers to professional success and how women overcame these hurdles, charting the success of designers including Anni Albers at the Bauhaus, the architect Eileen Grey, interior decorator Elsie de Wolfe, and fashion icon Mary Quant, focusing on the key subjects of architecture, craft, fashion, furniture, graphics, interior product, and textile design. The link between early twentieth-century revolutionary design and lifestyle is explored, as well as the ideas of shopping and consumerism as a liberating activity. The important contribution of designers during and after the Second World War is also discussed, along with design activism, design collectives, and the current success of women working transnationally in architecture and design.
