Alzheimer Talk Text And Context Enhancing Communication:

Alzheimer Talk, Text and Context B. Davis, 2005-06-28 The contributors to this volume reference a shared longitudinal corpus of spontaneous conversation elicited in natural settings from speakers with moderate to late moderate Alzheimer's Disease utilizing other collections as appropriate to analyze conversation discourse and written text by and about Alzheimer's speech Cross disciplinary contributions from the USA Canada New Zealand and Germany representing linguistics gerontology geriatric nursing computer science and communications disorders report on empirically based investigations of social and pragmatic language competencies and strategies retained by AD patients which could ground communication enhancements or interventions

Phraseology Sylviane Granger, Fanny Meunier, 2008-06-01 Long regarded as a peripheral issue phraseology is now taking centre stage in a wide range of fields This recent explosion of interest undoubtedly has a great deal to do with the development of corpus linguistics research which has both demonstrated the key role of phraseological expressions in language and provided researchers with automated methods of extraction and analysis The aim of this volume is to take stock of current research in phraseology from a variety of perspectives theoretical descriptive contrastive cultural lexicographic and computational It contains overview chapters by leading experts in the field and a series of case studies focusing on a wide range of multiword units collocations similes idioms routine formulae and recurrent phrases The volume is an invitation for experienced phraseologists to look at the field with different eyes and a useful introduction for the many researchers who are intrigued by phraseology but need help in finding their way in this rich but complex domain

The Handbook of Clinical Linguistics Martin J. Ball, Nicole Müller, Elizabeth Spencer, 2024-01-04 The new edition of the leading reference work on Clinical Linguistics fully updated with new research and developments in the field The Handbook of Clinical Linguistics Second Edition provides a timely and authoritative survey of this interdisciplinary field exploring the application of linguistic theory and method to the study of speech and language disorders Containing 42 in depth chapters by an international panel of established and rising scholars this classic volume addresses a wide range of pathologies while offering valuable insights into key theory and research multilingual and cross linguistics factors analysis and assessment methods and more Now in its second edition The Handbook of Clinical Linguistics features nine entirely new chapters on clinical corpus linguistics multimodal analysis cognition and language the linguistics of sign languages clinical phonotactics typical and nontypical phonological development clinical phonology and phonological assessment and two chapters on instrumental analysis of voice and speech production Revised and expanded chapters incorporate new research in clinical linguistics and place greater emphasis on specific speech disorders connections to literacy and multilingualism This invaluable reference works Reflects the latest developments in new research and data as well as changing perspectives about the priorities and future of the field Features new and revised chapters throughout many with new authors or authorial teams Offers well rounded coverage of the major areas of the speech sciences in the study of communication disorders

Discusses how mainstream theories and descriptions of language are influenced by clinical research Building on the success of the first edition *The Handbook of Clinical Linguistics Second Edition* is an indispensable resource for researchers and advanced students across all areas of speech language sciences including speech disorders speech pathology speech therapy communication disorders cognitive linguistics and neurolinguistics *Fillers, Pauses and Placeholders* Nino Amiridze, Boyd H. Davis, Margaret MacLagan, 2010 Fillers are items that speakers insert in spontaneous speech as a repair strategy Types of fillers include hesitation markers and placeholders Both are used to fill pauses that arise during planning problems or in lexical retrieval failure However while hesitation markers may not bear any resemblance to lexical items they replace placeholders typically share some morphosyntactic properties with the target form Additionally fillers can function as a pragmatic tool in order to replace lexical items that the speaker wants to avoid mentioning for some reason The present volume is the first collection on the topic of fillers and will be a useful reference work for future investigations on the topic It consists of typological surveys and in depth studies exploring the form and use of fillers across languages and sections of different populations including cognitively impaired speakers The volume will be interesting to typologists and linguists working in discourse studies **Gerontological Nursing: Competencies for Care** Kristen L. Mauk, 2022-03-29 The Fifth Edition of *Gerontological Nursing* takes a holistic approach and teaches students how to provide quality patient care for the older adult preparing them to effectively care for this population *Handbook of the Clinical Psychology of Ageing* Robert T. Woods, Linda Clare, 2015-06-22 The first authoritative reference on clinical psychology and aging the *Handbook of the Clinical Psychology of Ageing* was universally regarded as a landmark publication when it was first published in 1996 Fully revised and updated the Second Edition retains the breadth of coverage of the original providing a complete and balanced picture of all areas of clinical research and practice with older people Contributions from the UK North America Scandinavia and Australia provide a broad overview of the psychology of aging psychological problems including depression anxiety psychosis and dementia the current social service context and assessment and intervention techniques **Data Collection in Sociolinguistics** Christine Mallinson, Becky Childs, Gerard Van Herk, 2013-05-29 This edited volume provides up to date succinct relevant and informative discussion about methods of data collection in sociolinguistic research It covers the main areas of research design conducting research and sharing data findings with longer chapters and shorter vignettes written by a range of top sociolinguists both veteran and emerging scholars Here is the one stop go to guide for the numerous quantitative qualitative and mixed methods that are used in sociolinguistic research ensuring that Data Collection in Sociolinguistics will be not only useful in the classroom but also as a reference tool for active researchers For more information visit sociolinguisticdatacollection.com **Language, Dementia and Meaning Making** Heidi E. Hamilton, 2019-05-07 This book investigates the ways in which context shapes how cognitive challenges and strengths are navigated and how these actions impact the self esteem of individuals with dementia and their conversational partners The

author examines both the language used and face maintenance in everyday social interaction through the lens of epistemic discourse analysis In doing so this work reveals how changes in cognition may impact the faces of these individuals leading some to feel ashamed anxious or angry others to feel patronized infantilized or overly dependent and still others to feel threatened in both ways It further examines how discursive choices made by healthy interactional partners can minimize or exacerbate these feelings This path breaking work will provide important insights for students and scholars of sociolinguistics applied linguistics medical anthropology and health communication

Applied Health Humanities for the Aging Trini Stickle, Lorna E. Segall, 2024-12-18 This book provides a collection of interventions from researchers and clinicians health humanities experiences and makes their methods available to home and institutional caregivers to aid interactions with the elderly particularly persons diagnosed with dementia As a revolutionary perspective connecting medical training and treatment with lessons from the humanities medical humanities emphasizes the treatment and care of disease the science of the human and offers an integrated approach to health professional education that include lessons from comparative religion history literature philosophy the visual and performing arts Highlighting the needs of persons with dementia and their caregivers this compilation shows how the arts can play a primary role in empowering families and communities to offer creative and meaningful care within their own homes and communities Each chapter provides an overview of a specific creative application reading and commonplacings storytelling intergenerational musical activities Bingocize haiku making and animatronic pet activities the evidence based support for its benefits and clear and accessible instructions for the reader These methods offer insightful approaches to care in which skills such as active listening can provide in roads to patient experiences as well as an array of creative approaches to ameliorate the physical and mental consequences of isolation and loneliness that too often accompany aging and disease This text will be of interest to healthcare workers and allied health professionals healthcare administrators and family members

Applying Linguistics in Health Research, Education, and Policy Brett A. Diaz, Robert W. Schrauf, 2022-11-07 Researchers in applied linguistics have found medical and health contexts to be fertile grounds for study from macro levels of conceptual analyses to micro levels of the turn by turn The rich array of health contexts include medical research itself clinical encounters medical education and training caregivers and patients in everyday life from the formal and ritualized to the ad hoc and ephemeral This volume foregrounds the crucial role of applied linguists addressing real world problems while simultaneously highlighting the varied ways that health can be understood as a rich site of language inquiry in its own right Chapters cover a range of health topics including medical training medical interaction disability in education health policy analysis and recommendations multidisciplinary research teams and medical ethics While reporting and reflecting on their specific topics in clinical and health contexts contributors also articulate their own hybrid identities as professional collaborators in health research education and policy

Corpus Linguistics Beyond the Word, 2015-07-14 This volume will be of particular

interest to readers interested in expanding the applications of corpus linguistics techniques through new tools and approaches The text includes selected papers from the Fifth North American Symposium hosted by the Linguistics Department at Montclair State University in Montclair New Jersey in May 2004 The symposium papers represented several areas of corpus studies including language development syntactic analysis pragmatics and discourse language change register variation corpus creation and annotation and practical applications of corpus work primarily in language teaching but also in medical training and machine translation A common thread through most of the papers was the use of corpora to study domains longer than the word Not surprisingly fully half of the papers deal with the computational tools and linguistic strategies needed to search for and analyze these longer spans of language while most of the remaining papers examine particular syntactic and rhetorical properties of one or more corpora

Discourse Analysis in Adults With and Without Communication Disorders Carl Coelho, Leora R. Cherney, Barbara B. Shadden, 2022-07-14 Discourse Analysis in Adults With and Without Communication Disorders A Resource for Clinicians and Researchers provides state of the art information about discourse analysis with sections on Aging Aphasia Cognitive Communication Disorders and Neurodegenerative Diseases The three renowned editors are actively engaged in the area of discourse Expert clinical researchers introduce and organize each section and chapters are authored by leaders involved in discourse research worldwide Discourse is considered the most natural unit of language Effective production of discourse requires complex interactions among linguistic cognitive and social abilities that are sensitive to even mild disruption in any one of these elements This book covers the examination of discourse in adults with acquired communication disorders including selecting elicitation tasks streamlining transcription processes expanding analysis methods and translating findings for treatment application Key Features Provides a global perspective on discourse assessment for clinicians Dedicated chapters on aging aphasia traumatic brain injury right hemisphere disorder primary progressive aphasia Alzheimer s dementia Parkinson s disease and amyotrophic lateral sclerosis Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book

An Ethno-Social Approach to Code Choice in Bilinguals Living with Alzheimer's Carolin Schneider, 2023-12-24 This book examines the under researched field of communication by bilingual people with dementia of the Alzheimer s type DAT The aging population is increasingly affected by neurocognitive diseases such as DAT and over the past 30 years the growing research body concerned with monolingual DAT discourses has seen significant growth The findings from monolingual studies and institutional settings highlight the importance of code choice for a person s sense of autonomy especially against the background of changing communicational abilities Adding a new perspective this book investigates how ten Puerto Rican speakers living with varying stages of DAT draw on their bilingual resources to accomplish verbal interaction in informal settings with their primary care partners Drawing on narrative interviews conducted in Orlando Florida this multi case study investigates situated language choices and code switches by applying the ethno social

approach i.e combining features of conversation analysis and ethnography of communication The author sheds light both on the question of how people living with DAT engage in conversations and which strategies they employ in their languages English and Spanish to reach their communicative goals Specifically by analyzing the role of code choice and code switching in a qualitative manner two main functional categories emerge discourse related and participant related code switching Bilingual competencies remain even among participants living with severe DAT symptoms as evident in retained interactional sequences such as salutations Persons living with DAT competently negotiate code either through exploratory code switching or metalinguistic commentary emphasizing the need for conversational partners to be sensitive to the communicative needs in both languages of speakers living with DAT This book will be of interest to students and researchers working on dementia discourses health communication multilingualism and ageing as well as Bilingual Multilingual families or individuals living with dementia

Cognition, Language and Aging Heather Harris Wright, 2016-03-16 Age related changes in cognitive and language functions have been extensively researched over the past half century The older adult represents a unique population for studying cognition and language because of the many challenges that are presented with investigating this population including individual differences in education life experiences health issues social identity as well as gender The purpose of this book is to provide an advanced text that considers these unique challenges and assembles in one source current information regarding a language in the aging population and b current theories accounting for age related changes in language function A thoughtful and comprehensive review of current research spanning different disciplines that study aging will achieve this purpose Such disciplines include linguistics psychology sociolinguistics neurosciences cognitive sciences and communication sciences As of January 2019 this e book is freely available thanks to the support of libraries working with Knowledge Unlatched

Dialogue and Dementia Robert W. Schrauf, Nicole Müller, 2013-11-20 This volume takes the positive view that conversation between persons with dementia and their interlocutors is a privileged site for ongoing cognitive engagement The book aims to identify and describe specific linguistic devices or strategies at the level of turn by turn talk that promote and extend conversation and to explore real world engagements that reflect these strategies Final reflections tie these linguistic strategies and practices to wider issues of the self and agency in persons with dementia Thematically the volume fosters an integrated perspective on communication and cognition in terms of which communicative resources are recognized as cognitive resources and communicative interaction is treated as reflecting cognitive engagement This reflects perspectives in cognitive anthropology and cognitive science that regard human cognitive activity as distributed and culturally rooted This volume is intended for academic researchers and advanced students in applied linguistics linguistic and medical anthropology nursing and social gerontology and practice professionals in speech language pathology and geropsychology

The Poetics and Politics of Alzheimer's Disease Life-Writing Martina Zimmermann, 2017-06-07 This book is open access under a CC BY 4.0 license This is the first book length exploration of the thoughts and experiences

expressed by dementia patients in published narratives over the last thirty years It contrasts third person caregiver and first person patient accounts from different languages and a range of media focusing on the poetical and political questions these narratives raise what images do narrators appropriate what narrative plot do they adapt and how do they draw on established strategies of life writing It also analyses how these accounts engage with the culturally dominant Alzheimer s narrative that centres on dependence and vulnerability and addresses how they relate to discourses of gender and aging Linking literary scholarship to the medico scientific understanding of dementia as a neurodegenerative condition this book argues that first patients articulations must be made central to dementia discourse and second committed alleviation of caregiver burden through social support systems and altered healthcare policies requires significantly altered views about aging dementia and Alzheimer s patients

The Handbook of Discourse Analysis Deborah Tannen, Heidi E.

Hamilton, Deborah Schiffrin, 2015-03-30 The second edition of the highly successful Handbook of Discourse Analysis has been expanded and thoroughly updated to reflect the very latest research to have developed since the original publication including new theoretical paradigms and discourse analytic models in an authoritative two volume set Twenty new chapters highlight emerging trends and the latest areas of research Contributions reflect the range depth and richness of current research in the field Chapters are written by internationally recognized leaders in their respective fields constituting a Who s Who of Discourse Analysis A vital resource for scholars and students in discourse studies as well as for researchers in related fields who seek authoritative overviews of discourse analytic issues theories and methods

Formulaic Language Alison

Wray, 2013-12-02 Presents a framework for examining the existence and function of formulaic language and tests it extensively against language data within a wide variety of language samples Formulaic language is a fast growing area of applied linguistic research and the author is a key figure in this field

Language, Culture and the Dynamics of Age Anna

Duszak, Urszula Okulska, 2011 The book explores the role of age in communication under consideration of various age groups the elderly middle aged teenagers children genres cultures and languages The social skewing of the contributions explains the book s focus on discourse mediated social identities with age implicated as a viable controller of how social action is strategically deployed for alignment and alienation accommodation and divergence The studies in the book show the particular importance of the discursive construction of age in the face of new challenges of globalization increased human mobility and rising intergenerational conflicts

Language in Dementia Louise Cummings, 2020-10 Using linguistic data

this book examines language and communication in dementias and their clinical treatment by language pathologists
