Alternatives to Prison Sentences J. Junger-Tas, 1994 This report surveys and summarizes the literature on the use of alternative sanctions in 12 western countries with a particular focus on its effectiveness and efficiency

Smart Sentencing James Michael Byrne, James M. Byrne, Arthur J. Lurigio, Joan Petersilia, 1992-08-20 In search of remedies to the growing problem of correctional crowding federal state and local policy makers have begun to experiment with a range of new intermediate sanctions These sanctions have taken a variety of forms intensive probation supervision home confinement boot camps day fines residential community corrections day reporting centers and community service programs In Smart Sentencing a distinguished panel of experts offers an in depth assessment of the design development and impact of each of these intermediate sanctions while also discussing the most controversial issues surrounding the use of alternative punishments e g the purpose of sanctions effectiveness issues gender bias overrepresentation of minorities The contributors also look at the future of intermediate sanctions and consider the many questions posed by criminal justice professionals and students regarding their continued development New concepts in sentencing are explored including home supervision electronic monitoring boot camps day fines community service programs residential community corrections and day reporting centers The Women s Advocate Smart Sentencing is a rich critical collection evaluating various intermediate sanctions such as community service drug treatment programs and electronic monitoring Twenty articles by leading U S researchers ably chronicle progress made and not made by the movement for intermediate sanctions Update Smart Sentencing is a rich and stimulating collection of reports from the field Contributors to this volume are astute observers of criminal justice operations and they rarely hesitate to describe problems when they see

them Smart Sentencing is highly recommended and well worth reading While this volume strongly supports the intermediate sanction movement it goes well beyond rhetoric by providing professional assessments of what works and what doesn't work It also outlines a direction for future studies of intermediate sanctions Federal Probation A major contribution to the study of this resurgent field Smart Sentencing includes previously unpublished works from some renowned authorities on intermediate sanctions The book is aimed at academics and correctional administrators who desire a better understanding of intermediate sanctions In concert with that aim the contributors keep the use of complex inferential statistics to a minimum instead relying on descriptive methods of measuring diversion and cost savings Just as important almost all of the articles lay conceptual and theoretical foundations for a particular sanction something frequently neglected by in house correctional researchers and administrators The Criminologist This book provides a fairly detailed account of the experience of intermediate sanctions in America Overall this is a useful book and the general quality of the contributions is high The Magistrate **Alternative Sentencing, Intermediate Sanctions, and Probation** Andrew R. Intermediate Sanctions in Sentencing Guidelines Michael H. Tonry, 1997 Between Prison and Probation Norval Morris, Michael Tonry, 1991-09-12 Across the country prisons are jammed to capacity and in extreme cases barges and mobile homes are used to stem the overflow Probation officers in some cities have caseloads of 200 and more hardly a manageable number of offenders to track and supervise And with about one million people in prison and jail and two and a half million on probation it is clear we are experiencing a crisis in our penal system In Between Prison and Probation Norval Morris and Michael Tonry two of the nation's leading criminologists offer an important and timely strategy for alleviating these problems They argue that our overwhelmed corrections system cannot cope with the flow of convicted offenders because the two extremes of punishment imprisonment and probation are both used excessively with a near vacuum of useful punishments in between Morris and Tonry propose instead a comprehensive program that relies on a range of punishment including fines and other financial sanctions community service house arrest intensive probation closely supervised treatment programs for drugs alcohol and mental illness and electronic monitoring of movement Used in rational combinations these intermediate punishments would better serve the community than our present polarized choice Serious consideration of these punishments has been hindered by the widespread perception that they are therapeutic rather than punitive The reality however Morris and Tonry argue is that the American criminal justice system is both too severe and too lenient almost randomly Systematically implemented and rigorously enforced intermediate punishments can better and more economically serve the community the victim and the criminal than the prison terms and probation orders they supplant Between Prison and Probation goes beyond mere advocacy of an increasing use of intermediate punishments the book also addresses the difficult task of fitting these punishments into a comprehensive fair and community protective sentencing system
