Abstract- The right alternative law implies the left alternative law in loop rings of characteristic other than 2. We show that there exists a loop which fails to be an extra loop, even though its characteristic 2 loop rings are right alternative.

Index Terms- Alternative loop, extra loop, inverse property, alternative ring, alternative loop ring.

I. INTRODUCTION

Throughout this paper $(L, \cdot)$ always denotes a loop, with identity element e and $(R, +, \cdot)$ always denotes an nonassociative commutative ring, with identity element $1 \neq 0$. Then RL denotes the loop ring constructed from R and L . Elements of RL are represented by finite formal sums of the form $\sum_{i=1}^n \alpha_i x_i$ where the x_i are elements of L and the α_i are elements

of R . The sum and product operations on RL are defined in the obvious way. Then $1e$ is the identity element of RL . For more details, background information, and references to the earlier literature see the survey by Goodaire and Milnes [1]. We note that L is embedded in to RL via the map $x \mapsto 1x$; we usually write the element $1x$ simply as x . In this paper we would like to focus on right alternative law $((x \cdot y)y = x(y \cdot y))$ and the left alternative law $((y \cdot y)x = y(y \cdot x))$. The right alternative law in RL is precisely more efficient over the right alternative law in L .

In the case that L is finite; Theorem 2 was proved by Chein and Goodaire [7]. Their proof relied on structure theorems of Bruck and Albert which are false for infinite L . Goodaire and Robinson [2 and 3] showed that the assumption in the theorem that R satisfies $1 + 1 \neq 0$ cannot be dropped.

Actually, in the study of alternative laws in loop rings RL , only L is relevant, by the following result from [7]:

REMARK : RL is associative iff L is associative.

THEOREM 1: A loop L is an RA loop if and only if L is not associative and has the following properties:

- i) if three elements of L associative in some order, then they associate in all orders;
- ii) if $g, h, k \in L$ do not associate, then $g \cdot kh = gh \cdot k = h \cdot gk$.

PROOF : First, suppose that L is an RA loop and R is some ring of characteristic different from 2. Since $L \subseteq RL$ and RL is an alternative ring, statement (i) holds by the Generalized Theorem of Artin [5]. To obtain (ii) let g, h and k be three elements of L which do not associate and put $x = h + k$, $y = g$ in the right alternative identity, $yx \cdot x = yx^2$. We obtain $gh \cdot h + gh \cdot k + gk \cdot h + gk \cdot k = gh^2 + g \cdot hk + g \cdot kh + gk^2$ and since $gh \cdot h = gh^2$ and $gk \cdot k = gk^2$, $gh \cdot k + gk \cdot h = g \cdot hk + g \cdot kh$. Because $\text{char } R \neq 2$, $gh \cdot k$ is in the support of the left side and thus in the support of the right. So, if $gh \cdot k \neq g \cdot hk$, then $gh \cdot k = g \cdot kh$. Similarly, by considering the left alternative identity, we obtain $gh \cdot k = h \cdot gk$.

Conversely, suppose that L is a loop which satisfies statements (i) and (ii) of the theorem. Let R be a commutative and associative ring with unity. For $x = \sum \alpha_i g$ and $y = \sum \beta_j g$ in RL , $yx \cdot x = yx^2$ is a linear combination of terms of the form $gh \cdot k + g \cdot hk$. If $h = k$, then $gh \cdot h = g \cdot hh$ by associativity or (ii), so $yx \cdot x = yx^2$ reduces to a sum of terms of the form $(gh \cdot k + g \cdot hk) + (gk \cdot h + g \cdot kh)$ with $h \neq k$ and this is 0 by (i) and (ii). This shows that the right alternative identity holds in RL . The left alternative identity follows in a similar way.

COROLLARY 1: An RA loop is an extra loop.

PROOF: Let L be an RA loop. If x, y and z are three elements of L which associative, then, by Moufang's Theorem, these elements generate a group, so $(xy \cdot z)x = x(y \cdot zx)$ is clear. If x, y and z do not associative, then neither do $(xy \cdot z)x = x(y \cdot zx)$ is clear. If x, y and z do not associative, then neither do xy, z, x (again by Moufang's Theorem), so $(xy \cdot z)x = (x \cdot y)(x \cdot z)$ by Theorem 1 and, since x, y, xz do not associate, $(x \cdot y)(x \cdot z) = x(xz \cdot y)$. Repeated use of Theorem 1 gives $xz \cdot y = z \cdot xy = zy \cdot x = y \cdot zx$ and so, again $(xy \cdot z)x = x(y \cdot zx)$.

We begin by eliminating the rings from the theory of loop rings. Lemma 1 almost does that, since it expresses right alternativity in RL just in terms of elements of the form $1x$ (which, recall, we are writing as x). The material through Lemma 2 is from Chein and Goodaire [7].

LEMMA 1 : RL is right alternative iff L is right alternative and RL satisfies

Alternative Loop Rings E.G. Goodaire, E. Jespers, C. Polcino Milies, 1996-10-24 For the past ten years alternative loop rings have intrigued mathematicians from a wide cross section of modern algebra As a consequence the theory of alternative loop rings has grown tremendously One of the main developments is the complete characterization of loops which have an alternative but not associative loop ring Furthermore there is a very close relationship between the algebraic structures of loop rings and of group rings over 2 groups Another major topic of research is the study of the unit loop of the integral loop ring Here the interaction between loop rings and group rings is of immense interest This is the first survey of the theory of alternative loop rings and related issues Due to the strong interaction between loop rings and certain group rings many results on group rings have been included some of which are published for the first time The authors often provide a new viewpoint and novel elementary proofs in cases where results are already known The authors assume only that the reader is familiar with basic ring theoretic and group theoretic concepts They present a work which is very much self contained It is thus a valuable reference to the student as well as the research mathematician An extensive bibliography of references which are either directly relevant to the text or which offer supplementary material of interest are also included

Alternative Loop Rings Introduction

Alternative Loop Rings Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Alternative Loop Rings Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Alternative Loop Rings : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Alternative Loop Rings : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Alternative Loop Rings Offers a diverse range of free eBooks across various genres. Alternative Loop Rings Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Alternative Loop Rings Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Alternative Loop Rings, especially related to Alternative Loop Rings, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Alternative Loop Rings, Sometimes enthusiasts share their designs or concepts in PDF format. FAQs About Alternative Loop Rings Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Alternative Loop Rings is one of the best book in our library for free trial. We provide copy of Alternative Loop Rings in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Alternative Loop Rings. Where to download Alternative Loop Rings online for free? Are you looking for Alternative Loop Rings PDF?
