Unit is considered outdated and unhelpful and will be changed in the legislation Behaviour and discipline in schools
Great Britain: Parliament: House of Commons: Education Committee,2011-02-03 Poor and disruptive behaviour in the classroom reduces children s ability to concentrate and absorb information and it unsettles children and causes immense stress for teachers Persistent poor behaviour in schools can have far reaching and damaging consequences for children and can limit their horizons this is not a problem to be ignored The Department for Education should collect sample data on all serious incidents in schools complemented with survey data from teachers pupils parents and carers to allow assessment of the state of behaviour in schools A good school behaviour policy agreed and communicated to all staff governors pupils parents and carers consistently applied is the basis of an effective approach to managing behaviour The Committee supports proposals to give clearer emphasis on leading and supporting staff in maintaining and improving standards of behaviour in schools Schools should also be proactive in establishing relationships with parents and carers on behavioural matters There are various practical techniques for managing behaviour effectively but these are poorly disseminated The forthcoming Green Paper on special educational needs and disability should cover the links between special educational needs and behaviour The Committee supports the retention of independent appeals panels for exclusions There are though serious concerns over provision of educational psychology services and access to Child and Adolescent Mental Health Services CAMHS The Government should consider passing the responsibility for budgets and commissioning of all children s community health services including mental health services and speech language and communications needs specialist services to local authorities

Inequality, Education, and Social Exclusion in the Welfare State Kirsten Elisa Petersen,Niels Rosendal Jensen,2025-08-08 Focusing specifically on educational contexts this volume sheds light on how the increasing inequalities and issues of social exclusion found in the processes and systems of Nordic welfare states have a detrimental impact on the well being and development opportunities of children and young people Presenting a broad range of empirical and theoretical research conducted within a variety of institutional contexts such as day care school and leisure pedagogy as well as in more domestic disadvantaged settings chapters analyse problems and issues which foster inequality within pedagogy and education in predominantly Danish and more broadly Nordic welfare state contexts Using insights from various scientific disciplines such as psychology sociology and anthropology the volume discusses how these processes are acted out not only within welfare education systems but more broadly within social and educational policy legislation directly affecting decisions made for children and young people Ultimately the volume looks to the wider international context to argue that inequality cannot be analysed solely in relation to income and discusses different forms of inequality stemming from liberal conservative and social democratic welfare state regimes in order to recommend implications for future research This book will be of interest to researchers academics and postgraduate students in the fields of sociology of education childhood education and social inequalities within education more broadly Policymakers in these fields will also find the book

useful *Social Justice in Practice in Education* Janice Wearmouth, Karen Lindley, Uvanney Maylor, James Shea, 2024-04-12

Exploring Social Justice in Practice in Education focuses on the tensions and challenges to issues of fairness and social and cognitive justice in the sphere of education. The terms fairness and social and cognitive justice are often used to justify particular policies and practices in the sphere of education. In providing a clear definition of what they should mean in practice, this book includes a discussion of and in some cases potential resolutions to tensions and challenges in relation to notions of fairness and social and cognitive justice that are implicit within individuals' lived experiences across all phases of education. Through their personal narratives, the authors illustrate how such tensions and challenges have played out in their own lives. They go on to explore differences in interpretations and consequent challenges in putting concepts of social justice into practice. Chapters consider important implications across different sectors and phases of education, including special educational needs, leadership, and higher education. This insightful volume will enable educators at all levels to hear from students, family members, significant adults, carers, and professionals their experiences of fairness and social justice in education and about what could be done in the future to redress injustices. It will appeal to readers at all levels in education, including those studying for or teaching Education-related degrees at bachelors, masters, and doctoral levels.
