Quinn,2021-08-10 How the American government has long used financial credit programs to create economic opportunities Federal housing finance policy and mortgage backed securities have gained widespread attention in recent years because of the 2008 financial crisis but issues of government credit have been part of American life since the nation s founding From the 1780s when a watershed national land credit policy was established to the postwar foundations of our current housing finance system American Bonds examines the evolution of securitization and federal credit programs Sarah Quinn shows that since the Westward expansion the U S government has used financial markets to manage America s complex social divides and politicians and officials across the political spectrum have turned to land sales home ownership and credit to provide economic opportunity without the appearance of market intervention or direct wealth redistribution Highly technical systems securitization and credit programs have been fundamental to how Americans determined what they could and should owe one another Over time government officials embraced credit as a political tool that allowed them to navigate an increasingly complex and fractured political system affirming the government s role as a consequential and creative market participant Neither intermittent nor marginal credit programs supported the growth of powerful industries from railroads and farms to housing and finance have

been used for disaster relief foreign policy and military efforts and were promoters of amortized mortgages lending abroad venture capital investment and mortgage securitization Illuminating America's market heavy social policies American Bonds illustrates how political institutions became involved in the nation's lending practices **Self-regulation in the Korean Securities Market**, 2002 Routledge Library Editions: Financial Markets Various, 2021-07-09 The volumes in this set originally published between 1970 and 1996 draw together research by leading academics in the area of economic and financial markets and provide a rigorous examination of related key issues The volumes examine the stock exchange capital cities as financial centres international capital the financial system bond duration security market indices and artificial intelligence applications on Wall Street whilst also exploring the general principles and practices of financial markets in various countries This set will be of particular interest to students of economics and finance respectively Regulating EU Capital Markets Union Dybiński Veil, 2025-05-27 The current framework of EU regulation concerning capital markets is complex and partly inconsistent in the way that it is applied in the various Member States Through the Capital Markets Union CMU project the European Union is pursuing the goal of establishing a true single market for capital in Europe Regulating EU Capital Markets Union Market Conduct and Corporate Disclosure in a European Code is the second of a two volume series proposing the codification of EU legislature as a way to establish this goal This volume focuses on a reform of market abuse short selling corporate disclosure and public takeovers In doing so it considers the fact that financial markets law is now characterized by the idea of promoting sustainable investments In addition the book proposes to introduce union wide civil liability and to harmonise administrative sanctions A higher degree of harmonisation will foster greater market integration and remove barriers to cross border activity A holistic codification follows the framework of Better Regulation namely the principle of proportionality and of a comprehensive and coherent approach The book proposes relief of regulatory burden for companies listed on regulated markets to incentivize growth companies to go public Codification allows for a comprehensive approach thus the consideration of all affected aspects Furthermore a codification fits into the objective of following a coherent approach codification is consistent with the high level and long term policy objectives of the Capital Markets Union and the Savings and Investment Union **Prognosefähiger Erfolg nach IAS/IFRS** Marco Schmidt, 2012-02-26 2010 mussten kapitalmarktorientierte Unternehmen die ihre Jahresabschlüsse nach IAS/IFRS offenlegen die Erfolgsrechnung erstmals nach dem geänderten IAS 1 rev 2007 erstellen Marco Schmid unterzieht einzelne Arten von Erfolgsdeterminanten der Gesamtergebnisrechnung unter konzeptionellen und bilanztheoretischen Gesichtspunkten einer kritischen Würdigung Der Autor untersucht welche Implikationen der Zweck und die Zielgrößen auf die konzeptionelle Ausgestaltung der Rechnungslegungsinformationen haben Vor einem bilanztheoretischen Hintergrund wird darüber hinaus analysiert ob durch den geänderten IAS 1 wie die Hinwendung zum fair value accounting tatsächlich die angestrebten Ziele erreicht werden Schlussendlich werden die Anforderungen formuliert die Rechnungslegungsinformationen insbesondere die

Erfolgsrechnung und die auszuweisenden Komponenten zu erfüllen haben. Es wird gezeigt, dass die IAS/IFRS nicht zu einer prognoseföhrigen Rechnungslegung bzw. zu einer prognoseföhrigen Erfolgsermittlung föhren. The Making of Global Capitalism Leo Panitch, Sam Gindin, 2013-10-08. The all-encompassing embrace of world capitalism at the beginning of the twenty-first century was generally attributed to the superiority of competitive markets. Globalization had appeared to be the natural outcome of this unstoppable process. But today, with global markets reeling and increasingly reliant on state intervention to stay afloat, it has become clear that markets and states are not straightforwardly opposing forces. In this groundbreaking work, Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state. *The Making of Global Capitalism* identifies the centrality of the social conflicts that occur within states rather than between them. These emerging fault lines hold out the possibility of new political movements that might transcend global markets.

Chiu, Iain G. MacNeil, 2023-06-01. This Research Handbook is a one-stop resource on global capital markets and the laws that regulate them. Featuring contributions from leading global experts, the Research Handbook delves into a range of issues including investment products such as equity finance, sustainable finance, fintech, impact investing, and private equity. It also provides analysis on institutional and procedural issues such as large and small companies, capital formation, the roles of institutional shareholders and information providers, and the practices and regulation of financial trading markets.

Survival of the Greenest Amir Lebdioui, 2024-05-31. The pathways to economic development are changing. Environmental sustainability is no longer a choice but a necessity to maintain a competitive edge in the global economy. Just like in nature, where survival hinges on adaptation, this Element shows how nations adjust to and take advantage of the new dynamics of structural transformation induced by climate change. First, by analysing the uneven industrial geography of decarbonisation, the inadequate state of climate financing, and the rise of green protectionism, it demonstrates that the low-carbon economy stands to increase economic disparities between nations unless action is taken. Then, by examining green industrial policies and their varied success, it explains how governments can still join the green industrialisation race. Finally, it examines how to adapt green industrial policy to different starting points, market sizes, productive structures, state-business relations, dynamics, institutional layouts, and ecological contexts.
