Governments have a legal obligation to ensure effective control over arms exports and to monitor and supervise the movement of arms to ensure that they do not fall into unauthorized hands The purpose of this book is to provide a detailed picture of how governments discharge this responsibility Individual chapters describe national efforts to control arms transfers concentrating on the legal framework that exists to regulate arms exports The book includes a discussion of existing multilateral arms transfer control regimes including the United Nations the Coordinating Committee for East West Trade Policy CoCom the Missile Technology Control Regime MTCR and arms embargoes agreed by the Council of Ministers of the European Community Every effort has been made to produce a comprehensive compendium but total success has been prevented by the continued failure of some governments to release adequate information into the public domain

Exporting the Catholic Reformation Amos Megged, 2023-12-28 This study introduces a novel cultural interpretation to the overall impact of the Catholic Reformation in Europe on the changing facets of the religious life in the indigenous communities of southern Mexico during the sixteenth and seventeenth centuries It examines the modes by which Spanish mendicant priests translated norms standards and mores enforced by the Tridentine dogma into the far removed contexts of the New World Using a rich variety of both Spanish and Maya colonial sources it closely examines Dominican preaching local cosmology and the state of faith in the area as well as the changing ritual practices that emerged within the Indian parish during this era Moreover it vividly illustrates how the Indians adopted transformed or rebuffed the Catholic notions impressed upon them in the process of religious conversion The study is characterized by a profound sympathy with and respect for the local Maya and their resourcefulness in negotiating the cultural politics of colonial domination Rather than seeing Christian evangelization as a wholly one sided process Megged emphasizes the active role of the Indian populations in reformulating alien doctrines and rituals within native frameworks The study also draws on a substantial body of secondary works on contemporary developments in Europe and among its innovative tenets is that New World evangelization was not a wholly separate but an integral aspect of the Catholic Reformation that proceeded in an interactive fashion on both sides of the Atlantic

Exporting the Rapture Donald H.

Akenson,2018-08-14 Apocalyptic millennialism is one of the most powerful strands in evangelical Christianity It is not a single belief but across many powerful evangelical groups there is general adhesion to faith in the physical return of Jesus in the Second Coming the affirmation of a Rapture heavenward of saved believers a millennium of peace under the rule of Jesus and his saints and eventually a final judgement and entry into deep eternity In *Discovering the End of Time* 2016 Donald Harman Akenson traced the emergence of the primary packaging of modern apocalyptic millennialism back to southern Ireland in the 1820s and 30s In *Exporting the Rapture* he documents for the first time how the complex theological construction that has come to dominate modern evangelical thought was enshrouded in an organizational system that made it exportable from the British Isles to North America and subsequently around the world A key figure in this process was John Nelson Darby who was at first a formative influence on evangelical apocalypticism in Ireland then the volatile central figure in Brethren apocalypticism throughout the British Isles and also a crusty but ultimately very successful missionary to the United States and Canada Akenson emphasizes that as strong a personality as John Nelson Darby was the real story is that he became a vector for the transmission of a terrifically complex and highly seductive ideological system from the old world to the new So beguiling adaptable and compelling was the new Dispensational system that Darby injected into North American evangelicalism that it continued to spread logarithmically after his death By the 1920s the system had become the doctrinal template of the fundamentalist branch of North American evangelicalism and the distinguishing characteristic of the bestselling Scofield Bible
