Unicorn is Sutherland Lyall's starting point for this journey into the world of mythology and mystery which has been woven around the myth of the unicorn and the lady. We learn that the unicorn is the symbol for power and the lady may be mother, mistress or virgin. With an abundant collection of documents from a number of international museums, Lyall's writing is an exciting exploration, a lively new examination of old subjects. Who knows perhaps he has finally solved the mystery of The Lady and the Unicorn.

Return of the Unicorn Eriq Queen, 2019-05-22 In this third book Luzi looks into our connection to nature and gets a deeper understanding of life, nature, the planet and creation itself. This connection is initially established with a consciousness that appears as the human concept of the Unicorn. The horn is not really a horn but a swirl of energy or more precisely a point of consciousness for communication to consciousness and energy. This point is widely misunderstood to be the third eye as people imagine it to connect to the visual cortex for creating images. When Luzi visits the twenty-two crystal caves, she encounters the new energy that may benefit the one who has the consciousness to tap into it. Luzi's perspective is the artificial intelligence, AI, robotics and augmentation and evolution of the human body and how humanity will live with these things. Her daughter Julia focuses on the human coalition with the planet and the imbalance between the feminine and the masculine. Divine wisdom is given through the unicorn Alea, the white dragon Loong, the crimson dragon Shaumbra, Gaia, Pan, Kuthumi, Saint Germain, Sekhmet and others. Luzi will connect to her own divine wisdom as she continues on her journey for embodied realisation, also called enlightenment. Even though the book is part of a series, this is a complete story in its own right.
