Horace Mann Bond

Er T Washington:

Du Bois and His Rivals Raymond Wolters, 2002 W E B Du Bois was the preeminent black scholar of his era. He was also a principal founder and for twenty-eight years an executive officer of the nation's most effective civil rights organization, the National Association for the Advancement of Colored People (NAACP). Even though Du Bois was best known for his lifelong stance against racial oppression, he represented much more. He condemned the racism of the white world but also criticized African Americans for mistakes of their own. He opposed segregation but had reservations about integration. Today he would be known as a pluralist. In *Du Bois and His Rivals*, Raymond Wolters provides a distinctive biography of this great pioneer of the American civil rights movement. Readers are able to follow the outline of Du Bois's life, but the book's main emphasis is on discrete scenes in his life, especially the controversies that pitted Du Bois against his principal black rivals. He challenged Booker T. Washington because he could not abide Washington's conciliatory approach toward powerful whites. At the same time, Du Bois's pluralism led him to oppose the leading separatists and integrationists of his day. He berated Marcus Garvey for giving up on America and urging blacks to pursue a separate destiny. He also rejected Walter White's insistence that integration was the best way to promote the advancement of black people. Du Bois felt that American blacks should be full-fledged Americans with all the rights of other American citizens. However, he believed that they should also preserve and develop enough racial distinctiveness to enable them to maintain and foster a sense of racial identity, community, and pride. *Du Bois and His Rivals* shows that Du Bois stood for much more than protest against racial oppression. He was also committed to pluralism, and his pluralism emphasized the importance of traditional standards and of internal cooperation within the black community. Anyone interested in the civil rights movement, black history, or the history of the United States during the early twentieth century will find this book valuable.

Booker T. Washington Papers Volume 9 Booker T. Washington, Louis R. Harlan, 1980. The memoirs and accounts of the Black educator are presented with letters, speeches, personal documents, and other writings reflecting his life and career.

Schoolhouse Activists Tondra L. Loder-Jackson, 2015-10-26. Examines the role of African American educators in the Birmingham civil rights movement. *Schoolhouse Activists* examines the role that African American educators played in the Birmingham, Alabama civil rights movement from the late nineteenth century to the present day. Drawing on multiple perspectives from education history and sociology, Tondra L. Loder-Jackson revisits longstanding debates about whether these educators were friends or foes of the civil rights movement. She also uses Black feminist thought and the life course perspective to illuminate the unique and often clandestine brand of activism that these teachers cultivated. The book will serve as a resource for current educators and their students grappling with contemporary struggles for educational justice.

African American Life in the Rural South, 1900-1950 R. Douglas Hurt, 2003. During the first half of the twentieth century, degradation, poverty, and hopelessness were commonplace for African Americans who lived in the South's countryside, either on farms or in rural communities. Many

southern blacks sought relief from these conditions by migrating to urban centers Many others however continued to live in rural areas Scholars of African American rural history in the South have been concerned primarily with the experience of blacks as sharecroppers tenant farmers textile workers and miners Less attention has been given to other aspects of the rural African American experience during the early twentieth century African American Life in the Rural South 1900 1950 provides important new information about African American culture social life and religion as well as economics federal policy migration and civil rights The essays particularly emphasize the efforts of African Americans to negotiate the white world in the southern countryside Filling a void in southern studies this outstanding collection provides a substantive overview of the subject Scholars students and teachers of African American southern agricultural and rural history will find this work invaluable
