Holian, Charles L.

Prysby, 2014-10-03 Voter perceptions of the personal traits of presidential candidates are widely regarded to be important influences on the vote Media pundits frequently explain the outcome of presidential elections in terms of the personal appeal of the candidates Despite the emphasis on presidential character traits in the media the scholarly investigation in this area is limited In this book David Holian and Charles Prysby set out to examine the effect that trait perceptions have on the vote how these perceptions are shaped by other attitudes and evaluations and what types of voters are most likely to cast a ballot on the basis of the character traits of the presidential candidates Using the American National Election Studies ANES surveys the authors find that traits do have a very substantial effect on the vote that different candidates have advantages on different traits and that the opinions expressed by media pundits about how the candidates are viewed by the voters are often simplistic and sometimes quite mistaken Character traits are important to voters but we need a better and more complete understanding of how and why these factors influence voters An essential read which provides a clear and original argument to all those interested in furthering their understanding of the importance of candidate character traits for the quality of American elections and democracy Using Picture Books in Middle School Teacher Created

Resources, 2004-08-24 Explains how to use picture books with middle school students to teach a variety of topics and introduce new concepts across the curriculum **Catalog of Copyright Entries. Third Series** Library of Congress.

Copyright Office, 1977 **The Compulsive Personality** Peter A. Magaro, Ph.D., 2020-09-29 This book is an analysis of the personality who is the backbone of the most powerful political and religious groups in Western society This book applies contemporary psychological constructs to explain the power structure from a psychosocietal perspective We describe national institutions such as universities and corporations and explain who succeeds in these settings and how the members of these groups are no more than a gathering of those with the Compulsive Personality As contrasted with other current books on personality or society I have written a psychosocietal work that profiles the complete personality of this person and their niche to reveal how their Everyman commonness contains the telltale signs of their eventual power My emphasis is on the personality and cognitive attributes of a person who is drawn to a life of intellectual organization and the social avenues that become available to express their singular personality They could become the most controversial people of our time the most despised and the most revered but not due to their own making but due to the groups they lead Their life is a paradox in that they create whirlwinds when they are not living in complete obscurity As individuals they are the dumbest but as social actors they are the most outrageous The point of this book is that social actions do not occur in a personal vacuum

People's traits and cognitive styles fill them until they coalesce into a recognizable form which is the shape of a public group. The decision for social action originates under the skin only later is it exhibited as a public posture. This book reveals the person behind the social action. I will describe the psychological processes and feelings of a breed of individuals as they blend into a group that promotes and creates the dominant institutions in our society. The Compulsive Personality rules. We only try to emulate. *The Comic Worlds of Peter Arno, William Steig, Charles Addams, and Saul Steinberg* Iain Topliss, 2005

Iain Topliss presents a scholarly study of the drawings by Peter Arno, William Steig, Charles Addams, Saul Steinberg that have graced the pages of the New Yorker magazine. **Using Web 2.0 and Social Networking Tools in the K-12 Classroom**

Beverly Crane, 2012-04-30. Here's a book that describes Web 2.0 tools in depth, models Web 2.0 tools through classroom examples, explains how to get started with each tool, presents practical unit plans illustrating the use of Web 2.0 in the K-12 content area curricula, and identifies and describes what tools are most useful to educators for networking, productivity, and insight into the technologies. Part 1 of each chapter answers many questions you will have about Web 2.0 and social networking tools: What is the tool? Why use it with students? How are K-12 classrooms using the tool? Can you provide me with specific examples for my science, history, or language arts curriculum? Part 2 describes specific tools and the steps to get started. Part 3 contains a detailed sample unit plan, teacher exercises, and a summary. Following screen shots of websites are used to make the advice straightforward and easy to understand. You'll find an entire chapter on special instruction for ESL students with objectives, tools, and K-12 classroom examples. To help you implement Web 2.0 tools beyond the curriculum, there's even a chapter devoted to technology tools specifically designed for teachers and librarians to use for personal productivity, communication, and collaboration. The conclusion offers ideas for integrating Web 2.0 in art, music, and health. Exciting examples of the book's contents include: Collaborating and Communicating with Blogs, Creating Multidisciplinary Wikis, Google Tools Enhancing Instruction in the Science Curriculum, K-12 Classrooms Join the Social Networking Revolution, Using VoiceThread and Video to Improve Language Development, Creating Community. In addition to the great content you'll find in the book, *Using Web 2.0 and Social Networking Tools in the K-12 Classroom* features a companion Web site that provides the most current curriculum examples from pioneering educators around the world, as well as up-to-date exercises and lessons in subject areas and grade levels. *The New Taxonomy* Quentin D. Wheeler, 2008-04-09. Finalist for 2009 The Council on Botanical/Horticultural Libraries Literature Award.

A Fresh Look at Taxonomy The most fundamental of all biological sciences, taxonomy underpins any long-term strategies for reconstructing the great tree of life or salvaging as much biodiversity as possible. Yet we are still unable to say with any certainty how. *Geological Survey Professional Paper* Geological Survey (U.S.), 1943. **A Guide for Using *To Kill a Mockingbird* in the Classroom, Based on the Novel**

Written by Harper Lee Mari Lu Robbins, 1999. Teaching literature unit based on the popular children's story *To Kill a Mockingbird*. **How Picturebooks Work** Maria Nikolajeva, Carole Scott, 2013-02-01. *How Picturebooks Work* is an

innovative and engaging look at the interplay between text and image in picturebooks The authors explore picturebooks as a specific medium or genre in literature and culture one that prepares children for other media of communication and they argue that picturebooks may be the most influential media of all in the socialization and representation of children Spanning an international range of children s books this book examine such favorites as Curious George and Frogand Toad Are Friends along with the works of authors and illustrators including Maurice Sendak and Tove Jansson among others With 116 illustrations How PicturebooksWork offers the student of children s literature a new methodology new theories and a new set of critical tools for examining the picturebook form **Bulletin** ,1960 **Phylogenetic Relationships of the Lizard**

Families Richard Estes,Charles Lewis Camp,1988 A Stanford University Press classic *Ethos and Narrative Interpretation* Liesbeth Korthals Altes,2014-07-01 *Ethos and Narrative Interpretation* examines the fruitfulness of the concept of ethos for the theory and analysis of literary narrative The notion of ethos refers to the broadly persuasive effects of the image one may have of a speaker s psychology world view and emotional or ethical stance How and why do readers attribute an ethos of for example sincerity reliability authority or irony to literary characters narrators and even to authors Are there particular conditions under which it is more appropriate for interpreters to attribute an ethos to authors rather than to narrators In the answer Liesbeth Korthals Altes proposes to such questions ethos attributions are deeply implicated in the process of interpreting and evaluating narrative texts Demonstrating the extent to which ethos attributions and hence interpretive acts play a tacit role in many methods of narratological analysis Korthals Altes also questions the agenda and epistemological status of various narratologies both classical and post classical Her approach rooted in a broad understanding of the role and circulation of narrative art in culture rehabilitates interpretation both as a tool and as an object of investigation in narrative studies **Using Graphic Novels in the Classroom** Melissa Hart,2010 Since todays young readers live in a highly visual world its no surprise that graphic novels are growing in popularity With this book teachers can lead students in literary analysis of this unique genre introduce them to good quality graphic novels and encourage them to write and illustrate a graphic short story Each lesson in the book is based on standards *Crustaceans and the Biodiversity Crisis* Frederick Schram,Carel von Vaupel Klein,2023-07-03 This important and extensive volume presents part of the Proceedings of the Fourth International Crustacean Congress held in Amsterdam in 1998 As the title implies Crustaceans and the Biodiversity Crisis was the general underlying theme of all contributions at the congress With the turn of the century someone ought to assess the balance of our natural environment and of the various branches of biology that study its rapidly declining diversity From the five subthemes covered at the conference those of 1 Diversity in Time and Space including Systematics Phylogeny and Palaeontology 2b Biogeography 3c Larvae and 4 Physiology and Biochemistry including Molecular Biology and Genetics are represented in this volume along with a few contributions from other subthemes e g 2a Invasive Crustacea 3a Ecology 3b Behaviour and 5 Fisheries and Aquaculture The book is primarily meant for scientists working at institutes involved in

research on the group Crustacea marine freshwater or terrestrial and or the disciplines covered Individual carcinologists working on one of the themes discussed in this volume will find a wealth of interesting and timely contributions as will other scientists working in marine or freshwater biology or in soil ecology

Vygotsky's Notebooks Ekaterina Zavershneva, René van der Veer, 2018-01-24 This book consists of previously unpublished manuscripts by Vygotsky found in the first systematic study of Vygotsky's family archive The notebooks and scientific diaries gathered in this volume represent all periods of Vygotsky's scientific life beginning with the earliest manuscript entitled The tragicomedy of strivings 1912 and ending with his last note entitled Pro domo sua 1934 written shortly before his death The notes reveal unknown aspects of the eminent psychologist's personality show his aspirations and interests and allow us to gain insights into the development of his thinking and its internal dynamics Several texts reflect the plans that Vygotsky was unable to realize during his lifetime such as the creation of a theory of emotions and a theory of consciousness others reveal Vygotsky's involvement in activities that were previously unknown and still others provide outlines of papers and lectures The notes are presented in chronological order preceded by brief introductions and accompanied by an extensive set of notes The result is a book that allows us to obtain a much deeper understanding of Vygotsky's innovative ideas

Situational Traits of Character Candace L. Upton, 2009-08-28 Philosophical tradition holds that character traits are global if you possess a particular character trait you will perform trait related behavior across a broad range of situations In *Situational Traits of Character* Dispositional Foundations and Implications for Moral Psychology and Friendship a groundbreaking study at the intersection of ethics moral psychology and metaphysics Candace L Upton offers an intriguing alternative to this philosophical tradition By appealing to both normative considerations and the metaphysics of dispositions Upton argues that character traits should be understood situationally After developing and defending her situational account of character traits Upton uses this account to adjudicate the debate over the compatibility of the demands of consequentialism with those of genuine friendship in favor of the friendly consequentialist

Origins of the Higher Groups of Tetrapods Hans-Peter Schultze, Linda Trueb, 1991 This edited volume explores the various views on the origins of tetrapods amphibians reptiles birds and mammals views that agree or differ depending in part on how certain fossil animals are classified and which methodology is used for classification Eighteen chapters by an international group of paleontologists and neontologists here present current hypotheses emphasizing the kinds of data needed to answer controversial questions as well as the variety of solutions that emerge from different analyses of the same data set The book is arranged in five sections each of which contains an overview essay that either describes the development of various schools of thought regarding the origin of the tetrapod group in question or critically summarizes the arguments presented in the section The first section addresses the origins of tetrapods as a group focusing on lobe finned fishes and early tetrapods Next is a section dealing with

amphibians followed by one on reptiles. The fourth section concerns avian origins and the final section treats the origins and early diversification of mammals. With an overall goal of stimulating critical evaluation by the reader rather than providing unequivocal answers, this volume will be of particular interest to vertebrate paleontologists, evolutionary morphologists, and ichthyological, herpetological, avian, and mammalian systematists.
