Charlie Wilson's War George Crile, 2015-09-30 Two recent events have transformed the world the collapse of the Soviet Union and the rise of militant Islam This is the first book to explain the link between these two occurrences George Crile spent nearly a decade researching and writing this original account of the biggest most expensive secret war in history the arming of the Afghan resistance to Soviet occupation Moving from the secret chambers in CIA headquarters to stand offs in the Khyber Pass Charlie Wilson's War is one of the most thorough and vivid descriptions of CIA operations ever written It is the missing chapter in the geopolitics of our time *Library Journal* ,2003 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **The Means to Kill** Gerrit Dworok, Frank Jacob, 2015-11-12 Throughout human history technological innovation has functioned as a driver of civilization and inspired many people's belief in progress When it comes to warfare where technology is applied with a cruel and deadly logic a nuanced view is needed From siege engines to drones innovation has often served a less enlightened aim elimination of the enemy This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives **Unhumans** Jack Posobiec, Joshua Lisec, 2024-07-09 NEW YORK TIMES USA TODAY and PUBLISHERS WEEKLY NATIONAL BESTSELLER If you don't understand communist revolutions you aren't ready for what's coming The old rules are over The old order is over Accusations are evidence Activism means bigotry and hate Criminals are allowed to roam free Citizens are locked up An appetite for vengeance is unleashed to deplatform debank destroy This is the daily news yet none of it's new Patterns from the past make sense of our present They also foretell a terrifying future we might be condemned to endure For nearly 250 years far left uprisings have followed the same battle plans from the first call for change to last innocent executed from denial a revolution is even happening to declaration of the new order Unhumans takes readers on a shocking sweeping and succinct journey through history to share the untold stories of radical takeovers that textbooks don't teach And there is one conclusion We're in a new revolution right now But this is not a book about ideology or politics Unhumans reveals that communism socialism Marxism and all other radicalisms are not philosophies but tactics tactics that are specifically designed to unleash terror on everyday people and revoke their human rights to life liberty and property These are the forces of unhumanity This is what they do Every Single Time Unhumans steals their playbook breaks apart their strategies piece by piece and lays out the tactics of what it takes to fight back and win using real world examples Unhumans is an essential read for every concerned citizen both in the US and worldwide We must stop what is coming **Studies in Intelligence** ,2014

Keeping the Republic: 4th Edition Full Christine Barbour, Gerald C. Wright, 2008-12-23 **The Holy Warrior: Osama Bin Laden and his Jihadi Journey in the Soviet-Afghan War** Reagan Fancher, 2022-05-10 Fought between 1979 and 1989 the Soviet Afghan War provided vital combat experience for Osama bin Laden and his senior lieutenants in al

Qaeda allowing them to hone their newly acquired skills in guerrilla warfare to later support Islamist insurgencies worldwide Yet the ruthless al Qaeda chief's success depended on the Soviet leadership's reluctant prolonging of its military occupation out of fear of leaving Afghanistan in hostile hands As relative latecomers to the ferocious Afghan frontlines the inexperienced Arab fighters benefitted militarily from the combat training unwittingly provided by their Soviet foes After skillfully obtaining this command and battle experience by working within the wartime atmosphere bin Laden channeled al Qaeda's efforts in a global jihadi campaign targeting a second superpower and its allies While allegations of U S support for the Arab jihadis have contributed to a popular image of bin Laden and al Qaeda as C I A creations the historical facts appear to demonstrate that the combat opportunities provided by the Soviet occupation forces played a far larger role in transforming them into seasoned guerrilla fighters In contrast to the dozens of previous works on bin Laden and al Qaeda this book is the first to focus primarily on the Soviet Afghan War's impact on training the Arab fighters from Yemen Saudi Arabia and elsewhere in battle and preparing them to export their guerrilla war to assist their comrades in their native countries As a teaching tool that re-examines and clarifies the impact of bin Laden's wartime actions this book will be particularly useful to scholars of history and international relations seeking to acquire and spread new knowledge in the classroom and to better understand the origins of al Qaeda's deadly skills and martial resilience It offers an opportunity for today's decision makers to learn from history and avoid creating new generations of bin Ladens

Exporting the Bomb Matthew H. Kroenig, 2011-10-15 In a vitally important book for anyone interested in nuclear proliferation defense strategy or international security Matthew Kroenig points out that nearly every country with a nuclear weapons arsenal received substantial help at some point from a more advanced nuclear state Why do some countries help others to develop nuclear weapons Many analysts assume that nuclear transfers are driven by economic considerations States in dire economic need they suggest export sensitive nuclear materials and technology and ignore the security risk in a desperate search for hard currency Kroenig challenges this conventional wisdom He finds that state decisions to provide sensitive nuclear assistance are the result of a coherent strategic logic The spread of nuclear weapons threatens powerful states more than it threatens weak states and these differential effects of nuclear proliferation encourage countries to provide sensitive nuclear assistance under certain strategic conditions Countries are more likely to export sensitive nuclear materials and technology when it would have the effect of constraining an enemy and less likely to do so when it would threaten themselves In *Exporting the Bomb* Kroenig examines the most important historical cases including France's nuclear assistance to Israel in the 1950s and 1960s the Soviet Union's sensitive transfers to China from 1958 to 1960 China's nuclear aid to Pakistan in the 1980s and Pakistan's recent technology transfers with the help of rogue scientist A Q Khan from 1987 to 2002 Understanding why states provide sensitive nuclear assistance not only adds to our knowledge of international politics but also aids in international efforts to control the spread of nuclear weapons

Afghanistan in the Cinema Mark Graham, 2010-04-07 In this timely critical

introduction to the representation of Afghanistan in film Mark Graham examines the often surprising combination of propaganda and poetry in films made in Hollywood and the East Through the lenses of postcolonial theory and historical reassessment Graham analyzes what these films say about Afghanistan Islam and the West and argues that they are integral tools for forming discourse on Afghanistan a means for understanding and avoiding past mistakes and symbols of the country s shaky but promising future Thoughtfully addressing many of the misperceptions about Afghanistan perpetuated in the West Afghanistan in the Cinema incorporates incisive analysis of the market factors funding sources and political agendas that have shaped the films The book considers a range of films beginning with the 1970s epics *The Man Who Would Become King* and *The Horsemen* and following the shifts in representation of the Muslim world during the Russian War in films such as *The Beast* and *Rambo III* Graham then moves on to Taliban era films such as *Kandahar* *Osama* and *Ellipsis* the first Afghan film directed by a woman Lastly the book discusses imperialist nostalgia in films such as *Charlie Wilson s War* and destabilizing visions represented in contemporary works such as *The Kite Runner*
