Bone and Horn Carving Carson I. A. Ritchie,1975 Ivory, Bone, and Related Wood Finds Wilma Stern,2007-07-30
Hundreds of richly decorated ivory and bone fragments from furniture and parts from at least three crossed leg chairs survived under seawater in an apsidal room at Kenchreai the Eastern port of ancient Corinth These excavated remains include fragments of an incised bone panel with a scene of an emperor and attendants a thiasos bucolic and hunt scenes seated philosophers erotes and a miniature ivory Corinthian order supporting a bone arcade decorated with erotes Decorative moldings and large bone rings suggest that most of these belonged to a luxuriously decorated chest Dating to the fourth century these objects provide an important addition to our knowledge of the artistic production of late Roman Egypt and the working of ivory bone and wood **Ivory, Bone, and Related Wood Finds** Wilma Olch Stern,Danae Hadjilazaro Thimme,1976 Parts of crossed leg chairs and richly decorated fragments of bone and ivory excavated at Kenchreai the Eastern port of Corinth include scenes of an emperor and a miniature ivory Corinthian arcade that decorated luxurious furniture produced in late Roman Egypt **The Archaeology of Jordan and Beyond** Lawrence E. Stager,Joseph A. Greene,Michael D. Coogan,2018-07-17 James A Sauer was for many years the Director of the American Center of Oriental Research in Amman Jordan leading it to the preeminent place it now occupies as a research institution dedicated to the archaeology and history of Transjordan This volume honors him with more than 50 contributions from colleagues and friends With this volume the Harvard Semitic Museum inaugurates a new series entitled Studies in the Archaeology and History of the Levant **Scientific Investigation of Copies, Fakes and Forgeries** Paul T. Craddock,2009 Scientific Investigation of Copies Fakes and Forgeries is a comprehensive guide to the technical and scientific study of the authenticity of a wide range of antiquities and artworks It is the first book to provide a full survey of the subject of forgery from a scientific basis examining a wide range of materials and techniques The demand for copies fakes and forgeries is driven by rising prices in an international marketplace The book examines the available new technologies and ever more sophisticated forging techniques looking at production and distribution of fraudulent artworks The subject is exemplified by numerous internationally based case studies some turning out not to be as conclusive as is sometimes believed The book is aimed at those who need to understand the available approaches to and methods of scientific and technical authentication be they curator collector conservator or scientist Book Jacket *Catalog of Copyright Entries. Publishers Weekly, 1974 **Кости: внутри и снаружи** Рой Милз, The New and Revised Catalog of American Antiques William C. Ketchum (Jr.), 1980 Trench Art Jane A. Kimball, 2004 Trench art is a highly evocative term conjuring up the image of a mud splattered soldier in a soggy trench hammering out a souvenir for a loved one at home while dodging bullets and artillery shells This is an appealing but very false conception of the reality of this art form A few types of trench art could be made easily in a trench during lulls in the fighting but the hammering involved in making many trench art pieces would have been greeted with unwelcome hostile fire from the enemy Trench art items made during wars were in fact created at a distance from the front line trenches either by soldiers at rest behind the front lines by skilled artisans among the civilian population by prisoners of war or by soldiers **Western Memorabilia** William C.
