Current Concepts of Diagnosis and Treatment of Bone and Soft Tissue Tumors E. Stahl, H. K. Uthoff, 2012-12-06 During the past decade the prognosis of bone and soft tissue tumors has improved considerably This progress has not only been due to improved therapeutics and diagnostic methods but also due to a team approach now universally adopted Comparison of results possible today were hampered in the past by lack of a clinically relevant staging system and definitive treatment protocols The complexity of the therapeutic management of bone tumors requires a constant exposure to tumors highly skilled diagnostic techniques and specialized expertise It is therefore not surprising to learn that small and medium sized hospitals embarking on the diagnosis and treatment of bone and soft tissue tumors are generally less successful than better equipped major centers This fact has already been recognized by most physicians and surgeons who now refer their patients to specialized oncologic centers Nevertheless they all have to know the present state of the art This symposium was

therefore mostly addressed to them This international symposium organized by the Division of Orthopaedic Surgery University of Ottawa and cosponsored by the Association des Chirugiens Orthopedistes du Quebec was held in Ottawa from May 12 14 1983 Each of the 40 presentations clearly demonstrates that disregard for proper staging before initiation of treatment and omission of a clearly defined treatment protocol is definitely unacceptable in view of the knowledge we have acquired

Pediatric Bone and Soft Tissue Sarcomas Alberto S. Pappo, 2005-12-31 The field of pediatric bone and soft tissue sarcomas has experienced a gradual but surprising transformation Fundamental discoveries in the molecular biology of disease recent breakthroughs in diagnostic imaging and revolutionary surgical techniques have created unprecedented synergies and a refreshing vision with which to approach the diagnosis and treatment of these pediatric tumors This book highlights the paths leading to the emergence of such a new vision and presents salient concepts in epidemiology novel tools in imaging and molecular biology and principles of drug development as the scaffold to understanding the pathophysiology and treatment of pediatric sarcomas The book is aimed at providing an up to date comprehensive reference text which articulates a multidisciplinary approach for the diagnosis and treatment of each of these often challenging diseases

Imaging of Bone Tumors and Tumor-Like Lesions A. Mark Davies, Murali Sundaram, Steven J. James, 2009-08-21 Detection and characterization of bone tumors with imaging remains a big challenge for every radiologist notwithstanding the impressive progress achieved by the introduction of several new imaging modalities Moreover new concepts in surgical and oncological treatment of these lesions require from the radiologist appropriate and focused answers to the specific questions asked by the referring physicians in order to choose the best therapeutic approach for the individual patient This comprehensive textbook describes in detail the possibilities and limits of all modalities including MRI CT nuclear medicine and interventional radiological procedures employed for the modern imaging of tumoral and tumor like lesions of bone Their role in the diagnosis surgical staging biopsy and assessment of response to therapy is discussed in detail covering all tumor subtypes as well as their specific anatomical location Well selected and technically impeccable illustrations strongly enhance the didactic value of this work I am very much indebted and grateful to the three editors A Mark Davies Murali Sundaram and Steven L J James world authorities in musculoskeletal radiology for their superb scientific achievement in preparing and editing this wonderful volume as well as for their individual chapters I would also like to thank the large international group of collaborating authors who are also widely acknowledged for their specific expertise in the area of bone tumors for their outstanding contributions
