Book Design of the Russian Avant-Garde, 1999 An Ecology of the Russian Avant-Garde Picturebook Sara Pankenier Weld, 2018-02-15 An Ecology of the Russian Avant Garde Picturebook takes a new approach to interpreting 1920s and 1930s picturebooks by prominent Russian writers artists and intellectuals by examining them within the ecological environment that first made them possible and then led to their demise It argues that naturalistic models of the complex interactions of dynamic systems offer effective tools for understanding the fraught interrelations of art and censorship in the early Soviet period Through illustrative case studies it mounts a close analysis of word and image and their synergistic interplay in avant garde picturebooks while also recontextualizing them within the ecology of their original environment where extraordinary countervailing forces played out a drama of which these books survive as telling artifacts Ultimately it argues that the Russian avant garde picturebook offers a uniquely illustrative example of literary ecology that sheds light on issues of creativity and censorship politics and art more broadly as well **The New Big Book of Color** David E. Carter, 2006-10-31 The New Big Book of Color is the second volume of its kind The Big Book of Color in Design became a top seller in the graphics world As we approached the new book our goal was to make an even better volume One change you will notice is that color formulae shown for each piece now includes not only CMYK for printed pieces but also RGB for Internet use So for the designer who sees a great color combination and wants something just like that the process is simple the color mix is right there for you to use Russian Avant-garde Books 1917-34 Susan P. Sharp,2021-12-30 Esfir Shub was the only prominent female director of nonfiction film present at the dawning of the Soviet
film industry She was in fact the first woman both to write critical texts on cinema and then practically apply these
theorisations in her own films As such her syncretism of cinema theory and praxis inspired her to ask questions regarding
both the nature of nonfiction film such as the problem of authenticity and reality and the function of the artist in society
issues which are still relevant in contemporary discussions about the documentary Accordingly this book demonstrates Shub
