*Geology of World Gem Deposits* Sam L. VanLandingham, 1985      Coast Range Nick Neely, 2017-11-14

Coast the edge of land or conversely the edge of sea. Range a measure between limits or the scope or territory of a thing. Coast Range the debut collection of essays from writer Nick Neely meticulously and thoughtfully dwells on these intersections and much more. The book's title refers to the region in which these essays are set the California and Oregon coastal ranges. In deeply moving prose equal parts exhilarating and pensive each essay explores an iconic organism a few geologic so that on the whole the collection becomes a curiosity cabinet that freshly embodies this Pacific Northwest landscape. But the book also employs a playful range of forms. Just as forest gives way to bluff and ocean here narrative journalism adjoins memoir and lyric essay. These associative sensuous and sometimes saturnine pieces are further entwined by the theme of collecting itself beginning with a meditation on the impulse to gather beach agates a semiprecious stone. Another essay follows the journey of salmon from their collection at a hatchery through a casino kitchen to a tribal coming of age ceremony a third is a flitting exploration of hummingbirds.
