Scripts, and Chinese Texts in East Asia Peter Francis Kornicki, 2018 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia Chinese History Endymion Porter Wilkinson, 2000 Endymion Wilkinson's bestselling manual of Chinese history has long been an indispensable guide to all those interested in the civilization and history of China In this latest edition now in a bigger format its scope has been dramatically enlarged by the addition of one million words of new text Twelve years in the making the new manual introduces students to different types of transmitted excavated and artifactual sources from prehistory to the twentieth century It also examines the context in which the sources were produced preserved and received the problems of research and interpretation associated with them and the best most up to date secondary works Because the writing of history has always played a central role in Chinese politics and culture special attention is devoted to the strengths and weaknesses of Chinese historiography **A Continuous Revolution** Barbara Mittler, 2020-03-17 Cultural Revolution Culture often denigrated as nothing but propaganda was liked not only in its heyday but continues to be enjoyed today A Continuous Revolution sets out to explain its legacy By considering Cultural Revolution propaganda art music stage works prints and posters comics and literature from the point of view of its *longue durée* Barbara Mittler suggests it was able to build on a tradition of earlier art works and this allowed for its sedimentation in cultural memory and its proliferation in contemporary China Taking the aesthetic experience of the Cultural Revolution 1966-1976 as her base Mittler juxtaposes close readings and analyses of cultural products from the period with impressions given in a series of personal interviews conducted in the early 2000s with Chinese from diverse class and generational backgrounds By including much testimony from these original voices Mittler illustrates the extremely multifaceted and contradictory nature of the Cultural Revolution both in terms of

artistic production and of its cultural experience **Chinese Primer, Volumes 1-3 (GR)** Ta-tuan Ch'en, Perry Link, Yih-jian Tai, Hai-tao Tang, 2021-04-13 Four experienced teachers of beginning Chinese have developed this introductory textbook A pilot edition has been tested widely in classrooms and refined over a period of years Among its salient features are lessons that are lively amusing and relevant to everyday life concentrated training of ear and tongue in the sound system of Chinese extensive grammar notes clearly presented with attention to mistakes English speakers are likely to make a carefully sequenced character workbook embodying a new and effective approach to the learning of Chinese characters and audiovisual reinforcement via a complete set of audiotapes and two videotapes one of which offers entertaining dramatizations of the lesson dialogues The Chinese Primer is available in two versions one using the GR system of romanization which employs different spellings instead of diacritical marks for different tones the other using Pinyin romanization The contents of the four volumes are as follows 1 Blue Book Lessons Introduction foundation work on pronunciation lesson dialogues in romanized Chinese and English appendices glossary index 2 Red Book Notes and Exercises Vocabularies grammar notes and culture notes keyed to the lessons exercises 3 Yellow Book Character Workbook workbook 4 Green Book Pinyin Character Text Texts of the lessons in both traditional and simplified Chinese characters and a Chinese introduction for teachers The first three volumes Blue Book Red Book and Yellow Book are sold as a set GR Set or Pinyin Set In addition the GR Blue Book Lessons GR Red Book Notes and Exercises and GR Yellow Book Character Workbook along with the Pinyin Green Book Pinyin Character Text are sold separately The GR Audio and video materials are available from the Chinese Linguistics Project at Princeton University for use with this text These supplementary materials are not published by Princeton University Press For further information and prices contact the Chinese Linguistics Project 231 Palmer Hall Princeton University Princeton N J 08544 609 258 4269 **Chung-kuo A, Chung-kuo!** Chih-p'ing Chou, Joanne Chiang, Der-lin Chao, 1993-05-23 This textbook presents a selection of thirteen expository essays written from the 1920s through the 1980s by influential Chinese intellectuals on controversial issues of their times including the emancipation of women the reforms of the Chinese language the implementation of modernization and freedom and patriotism To provoke classroom discussion each topic is treated by essayists with opposing views Prepared for American students who have already completed two years of Chinese and who are interested in reading original documents the book juxtaposes traditional and simplified characters for the text and vocabulary so that students can be exposed to both versions of Chinese characters Each of the thirteen texts is followed by a detailed glossary annotated in English with suggested topics for class discussion An index at the end of the book allows students easy access to the vocabulary items Audio and video materials are available for use with this text For further information contact the Chinese Linguistics Project 231 Palmer Hall Princeton University Princeton N J 08544 609 258 4269
