Moore, 2008-04-17 Winner of the 2009 Gertrude J Robinson Book Prize presented by the Canadian Communication Association Using Toronto as a case study and focusing on a period from the opening of the first theaters showcasing moving pictures in 1906 to the end of World War I *Now Playing* locates the origins of our present day mass audience in the culture of cities Paul S Moore examines the emergence of everyday moviegoing and its regulation through neglected details like fire safety newspaper ads serial films and amusement taxes connecting them to more familiar themes of studio ownership of theaters censorship and journalism In Toronto a foreign city inside the American mass market patriotism ultimately comes to the fore as civic forms of showmanship turn the simple act of going to the movies into a form of citizenship

Reshore Production Now William A. Levinson, 2023-06-08 This book addresses the vital importance of reshoring US manufacturing capability to ensure economic and military security and then discusses the proven methods that the United States used to gain manufacturing supremacy in the first place The vital takeaway is If the job can be made sufficiently productive the per unit labor cost ceases to be relevant which means a business can pay high wages realize high profits and deliver low prices simultaneously The contest is then not between high wages and cheap labor but between efficiency and inefficiency and when automation is involved machine against machine Readers will be able to put these principles to work very quickly to achieve tangible results The relatively low Federal minimum wage has meanwhile become a major issue but inflation skyrocketed in the second quarter of 2022 when higher wages and higher demand for goods and services were not matched with higher productivity The book addresses the relationship between the money supply and the velocity of money to prices wages and productivity A manufacturing resurgence in the United States will not only increase our standard of living enormously but generate taxable economic activity that will help pay down rather than increase the Federal debt Higher productivity also delivers a greater supply of goods to accompany higher wages and thus works against inflation This can prevent looming recessions and disruptions

Monitoring the Movies Jennifer Fronc, 2017-11-15 As movies took the country by storm in the early twentieth century Americans argued fiercely about whether municipal or state authorities should step in to control what people could watch when they went to movie theaters which seemed to be springing up on every corner Many who opposed the governmental regulation of film conceded that some entity boards populated by trusted civic leaders for example needed to safeguard the public good The National Board of Review of Motion Pictures NB a civic group founded in New York City in 1909 emerged as a national cultural chaperon well suited to protect this emerging form of expression from state incursions Using the National Board's extensive files *Monitoring the Movies* offers the first full length study of the NB and its campaign against motion picture censorship Jennifer Fronc traces the NB's Progressive era founding in New York its evolving set of standards for directors producers municipal officers and citizens its city plan which called on citizens to report screenings of condemned movies to local officials and the spread of the NB's

influence into the urban South Ultimately Monitoring the Movies shows how Americans grappled with the issues that arose alongside the powerful new medium of film the extent of the right to produce and consume images and the proper scope of government control over what citizens can see and show **The Other Side** Qazi Nasir Uddin Ph.D.,2011-01-26 When one side is bright the other side must be dark To look at the other side we have to shed some light on the other side or better be there physically when the sun rises on the other side We can see pictures of the other side read books about it and talk to some people from that side to get some ideas about that side But none can be compared to going to the other side and staying there as long as it is necessary to know that side well Mad Dogs and Treasure Hunters William H.

Bohemian Los Angeles Daniel Hurewitz,2008-04-30 Historian Hurewitz brings to life a vibrant and all but forgotten milieu of artists leftists and gay men and women whose story played out over the first half of the twentieth century and continues to shape the entire American landscape In a hidden corner of Los Angeles the personal first became the political the nation s first enduring gay rights movement emerged and the broad spectrum of what we now think of as identity politics was born Portraying life over more than forty years in the hilly enclave of Edendale now part of Silver Lake Hurewitz considers the work of painters and printmakers looks inside the Communist Party s intimate cultural scene and examines the social world of gay men He discovers why and how these communities inspiring both one another and the city as a whole transformed American notions of political identity with their ideas about self expression political engagement and race relations From publisher description Electric Dreamland Lauren Rabinovitz,2012 More than two thousand amusement parks dotted the American landscape in the early twentieth century thrilling the general public with the latest in entertainment and motion picture technology Amusement parks were the playgrounds of the working class combining numerous mechanically based spectacles into one unique modern cultural phenomenon Lauren Rabinovitz describes the urban modernity engendered by these parks and their media encouraging ordinary individuals to sense interpret and embody a burgeoning national identity As industrialization urbanization and immigration upended society before World War I amusement parks tempered the shocks of racial ethnic and cultural conflict while shrinking the distinctions between gender and class As she follows the rise of American parks from 1896 to 1918 Rabinovitz seizes on a simultaneous increase in

cinema and spectacle audiences and connects both to the success of leisure activities in stabilizing society *The Human Addictions* Valentin Matcas,2016-04-20 Humans always seek pleasure humans venerate pleasure but are humans sentient or feelers by nature the way science depicts them Because if humans are defined as feelers and if they are expected to behave as feelers then this remains their meaning in life and in the world always to feel good to feel everything and to live life feeling the best even addicted Yet as you notice humans excel at reasoning the most and not mainly at feeling which describes more the animal kingdom Pleasure is very good and it is better than pain yet there is a difference between feeling and reasoning Because reasoning is more about mastering life and the world while feeling is about celebrating these Yet even this statement is insufficient because feelings are not even abilities within your cognitive system but feelings are only meant to signal needs and their fulfillment rewarding or punishing you depending on circumstances While reasoning is your main cognitive ability and you should treasure it accordingly This lack of understanding makes a difference because if you happen to live your life valuing feelings including your good feelings more than your actual human abilities including all your cognitive abilities then feelings and pleasure in special remain your focus and meaning in life And with the multitude of artificial sources of pleasure that society offers good luck to you because it is only a matter of time before you too become addicted Since as we notice throughout the book becoming addicted is not only an error of judgment that you make while trying to feel good in life as everyone else it is not only a social constraint subduing you as everyone else but addiction is integral part of the normal natural process of your cognitive system and it is even used by your subconscious intelligence in various circumstances in order to render you always eager to fulfill specific highly important activities in life as it is the case with your natural need for reproduction You have to comprehend society as it is because once you are addicted you become weak predictable and controllable and this is how others take over your living and social niche to exploit you While you end up struggling with family problems finance problems and health problems ever after Would you like to be able to manage your life your thinking and your behavior Then you have to be able to manage your feelings first And you may do so not forcefully and not directly since you are not a mechanism but you can manage your feelings only by learning everything about your feelings needs development addictions intelligences reasoning behavior society Life the world and your meaning and place in Life and in the world This book creates an entire model of the human addictions which is still easy to read teaching you everything about drugs and how they work about pleasure and how it controls you and about the world and how it interacts with you before and during addictions If you want to learn more about addictions consequences and withdrawal this book is for you [Globalizing Japan](#) Harumi Befu,Sylvie Guichard-Anguis,2003-09-02 This book explores the social and cultural dimensions of Japan s global presence as an economic giant Areas examined include Japanese multinational corporations popular music and perceptions of Japan in France and Korea **Bollywood and Globalization** David J. Schaefer,Kavita Karan,2013 The field of Bollywood studies has remained predominantly critical theoretical and historical in

focus This book brings together qualitative and quantitative approaches to tackle empirical questions focusing on the relationship between soft power hybridity cinematic texts and audiences Adopting a critical transcultural framework that examines the complex power relations that are manifested through globalized production and consumption practices the book approaches the study of popular Hindi cinema from three broad perspectives transcultural production contexts content trends and audiences It firstly outlines the theoretical issues relevant to the spread of popular Indian cinema and emergence of India's growing soft power The book goes on to report on a series of quantitative studies that examine the patterns of geographical cultural political infrastructural and artistic power dynamics at work within the highest grossing popular Hindi films over a 61 year period since independence Finally an additional set of studies are presented that quantitatively examine Indian and North American audience consumption practices The book illuminates issues related to the actualization and maintenance of cinematic soft power dynamics highlighting Bollywood's increasing integration into and subsumption by globalized practices that are fundamentally altering India's cinematic landscape and thus its unique soft power potential It is of interest to academics working in Film Studies Globalisation Studies and International Relations **Brown Skins, White**

Coats Projit Bihari Mukharji, 2023-02-17 A unique narrative structure brings the history of race science in mid twentieth century India to vivid life There has been a recent explosion in studies of race science in the twentieth and twenty first centuries but most have focused either on Europe or on North America and Australia In this stirring history Projit Bihari Mukharji illustrates how India appropriated and repurposed race science to its own ends and argues that these appropriations need to be understood within the national and regional contexts of postcolonial nation making not merely as footnotes to a Western history of normal science The book comprises seven factual chapters operating at distinct levels conceptual practical and cosmological and eight fictive interchapters a series of epistolary exchanges between the Bengali author Hemendrakumar Ray 1888-1963 and the protagonist of his dystopian science fiction novel about race race science racial improvement and dehumanization In this way Mukharji fills out the historical moment in which the factual narrative unfolded vividly revealing its moral affective political and intellectual fissures World Cities, City Worlds William

Solesbury, 2018-12-17 When living and working in cities we need to make sense of them in order to get by We must delve below their surface to understand what makes them tick and how we can best engage with them This book argues that three tropes can help us namely metaphors icons and perspectives Metaphorically we can see the city as a community a battleground a marketplace a machine or an organism Some cities are iconic they present us with characteristics that are more generally true of cities and city life such as Venice Mumbai New York Tokyo Paris and Los Angeles Cities can also be viewed from different perspectives those of artists analysts rulers and citizens This book explores these ways of understanding cities drawing on rich accounts of cities across the world and through time *The New York Concert Saloon*
