State in Postcommunist Europe David Betz, John Lowenhardt, 2014-04-08 This study explores the complex military issues that are raised by the transition to post communist rule with particular reference to Russia Ukraine Bulgaria and the new members of NATO All faced similar problems yet their responses it emerges were surprisingly diverse *Civil-Military*

Relations in Post-Communist Europe Timothy Edmunds, Andrew Cottey, Anthony Forster, 2013-10-18 Fifteen years after the fall of communism we are able to appraise the results of the multi faceted postcommunist transition in Central and Eastern Europe with authority This volume specifically addresses the fascinating area of Civil Military relations throughout this transitional period The countries of the region inherited a onerous legacy in this area their armed forces were part of the communist party state system and most were oriented towards Cold War missions they were large in size and supported by high levels of defence spending and they were based on universal male conscription Central and eastern European states have thus faced a three fold civil military reform challenge establishing democratic and civilian control over their armed forces implementing organisational reform to meet the security and foreign policy demands of the new era and redefining military bases for legitimacy in society This volume assesses the experiences of Poland Hungary Latvia Romania Croatia Serbia Montenegro Ukraine and Russia in these areas Collectively these countries illustrate the way in which the interaction of broadly similar postcommunist challenges and distinct national contexts have combined to produce a wide variety of different patterns of civil military relations This book was previously published as a special issue of European Security

Special Issue: Army and State in Postcommunist Europe David Betz, 2001 **Anatomy of Post-Communist European Defense Institutions** Thomas-Durell Young, 2017-08-24 The state of communist defense institutions and armed forces ca 1990 NATO exports its new model army why it did not take Post Soviet republics Defense institutions Post Warsaw Pact republics Defense institutions Post Yugoslav republics Defense institutions Building defense institutions sharpening the western mind Reforming western policy and management of defense reform Conclusion getting to honest defense Appendices Partnership action plan for Defence Institution Building PAP DIB U S Title 22 Security ssistance to select countries in Central and Eastern Europe Cultural tools and country comparisons Civil-Military Relations in Russia and Eastern Europe David Betz, 2004-07-31 This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened

democratic political institutions which have the right to oversee the armed forces

Democratic Control of the Military in Postcommunist Europe A. Cottey, T. Edmunds, 2001-11-28 This major comparative study examines the challenges that the countries of postcommunist Central and Eastern Europe have faced in securing democratic control of their armed forces and establishing civilian control of defence policy This book explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries shape civil military relations in this changing region Detailed country case studies written by leading experts compare the experiences of the Central European states such as Poland and Romania the Baltic republics the former Yugoslavia republics Russia and Ukraine

Civil-Military Relations in Post-Communist States Anton Bebler, 1997-02-25 This edited collection brings together experts from Europe and the United States to examine how the foundering of the autocracies of Central and Eastern Europe brought about important changes in civil military relations Divided into three parts the volume focuses on international organizations NATO WEU OSCE and Central East Europe the problems of transition to democracy in the region and relevant developments elsewhere in the world The work explores the following trends the increased transparency of defense politics civilianization of the defense ministries personnel changes in the upper echelons of the military national emancipation and new security doctrines political neutralization of the armed forces discontinuation of the military's internal security role and ideological pluralization among others An important volume for scholars and students in comparative politics international relations and the military and politics

Post Communist States in the World Community William E. Ferry, Roger E. Kanet, 2016-01-09 Post Communist States in the World Community provides a selection of papers on various aspects of the foreign and security policies of the post communist states of Europe presented originally at the Fifth World Congress of Central and East European Studies in Warsaw The articles cover Russian foreign and security policy Russian policy in Europe the foreign policies of the countries of East Central Europe and Russian policy in East Asia

Social Sciences and the Military Giuseppe Caforio, 2006-11-22 Examines the latest interdisciplinary and intradisciplinary global approaches to studying the military universe through a series of essays written by some of the most notable scholars in the field

Soldiers and Societies in Postcommunist Europe A. Forster, T. Edmunds, 2003-09-08 This major comparative study examines the development of military society relations in central and eastern Europe since the collapse of communism Soldiers and Societies in Post Communist Europe explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries are shaping patterns of military society relations in this changing region Detailed country case studies written by international experts to a common analytical framework compare the experiences of Poland the Czech Republic Slovakia Hungary Latvia Lithuania Romania Bulgaria Slovenia Croatia Yugoslavia and Ukraine

Handbook of the Sociology of the Military Giuseppe Caforio, 2007-07-23 Never before has there been so extensive a collection of what has been thought said and written about the sociology of the military This accessible handbook is the first of its kind to delve into the sociological

approach to the study of the military This book is compiled of documents coming from various researchers at universities around the world as well as military officers devoted to the sector of study Covered in this volume is a historical excursus of studies prior to contemporary research interpretive models and theoretical approaches developed specifically for this topic civic military relations including issues surrounding democratic control of the armed forces military culture professional training conditions and problems of minorities in the armed forces an examination of the structural change within the military over the years including new duties and functions following the Cold War This book is ideal for scholars of the subject as well as those coming to the sociology of the military for the first time *New Security Challenges in Postcommunist Europe* Andrew Cottey, Derek Averre, 2002 Cubism was the most influential artistic movement that emerged in the twentieth century The hallmarks of its style were stamped on the art design and architecture and its aesthetic principles governed the representation of modernity across all the arts Yet just what cubism was or stood for at the time of its emergence is still in dispute while the explanations offered for its importance for twentieth century art and its legacy for the present are bewildering in their variety This fascinating book offers a way beyond this confusion a narrative of its beginnings consolidation and dissemination that takes into account not only what the style and the movement signified at the time of its emergence but also the principal writings through which cubism's significance for modernism has been established Visually stunning with over 100 illustrations this is an essential work for all students and teachers of modern art history Military and Society in Post-Soviet Russia Stephen L. Webber, Jennifer G. Mathers, 2006 This collection provides the first comprehensive analysis of the nature of the relationship between the military and society in post Soviet Russia It brings together a multidisciplinary group of leading Western and Russian experts to investigate both the ways in which developments in the Russian armed forces influence Russian society and the impact of broader societal change on the military sphere **Armed Forces and International Security** Jean M. Callaghan, Franz Kernic, 2003 Designed as a textbook and interdisciplinary reference for the social sciences this volume examines key issues in the current global security agenda and relationships between armed forces and society around the world The book's concise chapters on a broad range of themes related to national and international security military sociology and civil military relations were written by experts from 18 countries This volume also has a groundbreaking section which using country studies and regional overviews discusses civil military relations in as well as the most salient theoretical and practical features of current means of democratic control of the armed forces in the early 21st century **The Routledge Handbook of Civil-military Relations** Thomas C. Bruneau, Florina Cristiana Matei, 2013 The Routledge Handbook of Civil Military Relations not only fills this important lacuna but offers an up to date comparative analysis which identifies three essential components in civil military relations 1 democratic civilian control 2 operational effectiveness and 3 the efficiency of the security institutions This Handbook will be essential reading for students and practitioners in the fields of civil military relations The Soldier and

the Changing State Zoltan Barany, 2012-09-16 The Soldier and the Changing State is the first book to systematically explore on a global scale civil military relations in democratizing and changing states Looking at how armies supportive of democracy are built Zoltan Barany argues that the military is the most important institution that states maintain for without military elites who support democratic governance democracy cannot be consolidated Barany also demonstrates that building democratic armies is the quintessential task of newly democratizing regimes But how do democratic armies come about What conditions encourage or impede democratic civil military relations And how can the state ensure the allegiance of its soldiers Barany examines the experiences of developing countries and the armed forces in the context of major political change in six specific settings in the wake of war and civil war after military and communist regimes and following colonialism and unification apartheid He evaluates the army building and democratization experiences of twenty seven countries and explains which predemocratic settings are most conducive to creating a military that will support democracy Highlighting important factors and suggesting which reforms can be expected to work and fail in different environments he offers practical policy recommendations to state builders and democratizers European Access, 2002 **In Pursuit of Liberalism** Rachel A. Epstein, 2008-09-29 Though the fall of the Soviet Union opened the way for states in central and eastern Europe to join the world of market oriented Western democracies the expected transitions have not been as easy common or smooth as sometimes perceived Rachel A Epstein investigates how liberal ideas and practices are embedded in transitioning societies and finds that success or failure depends largely on creating a social context in which incentives held out by international institutions are viewed as symbols of an emerging Western identity in the affected country Epstein first explains how a liberal worldview and institutions like the European Union World Bank the International Monetary Fund and the North Atlantic Treaty Organization go hand in hand and why Western nations assume that a broad and incremental program of incentives to join will encourage formerly authoritarian states to reform their political and economic systems Using Hungary Poland Romania and the Ukraine as case studies she demonstrates the limits of conditionality in the face of national social perceptions and elucidates the three key points around which a consensus within the state must emerge before international institutions can expect liberalization domestic officials must be uncertain about how changing policies will affect their interests the status of international and domestic institutions must not be in jeopardy and the proposed policies must seem credible In making her case Epstein cleverly bridges the gap between the rationalist and constructivist schools of thought Offering new data on and fresh interpretations of reforming central bank policies privatizing banks with foreign capital democratizing civil military relations and denationalizing defense policy In Pursuit of Liberalism extends well beyond the scope of previous book length studies Reshaping Defence Diplomacy Andrew Cottey, 2013-09-13 Analyses changing patterns of international military cooperation and assistance and shows that Western defence diplomacy is increasingly being directed towards new goals The new defence diplomacy runs alongside the old and there are tensions between the two in

particular between the new goal of promoting democracy and the old imperative of supporting authoritarian allies
