Operation Neptune: The Normandy Landings 1944 Kenneth Edwards,2014-03-26

Operation Neptune was the codename for the naval component of the invasion of France in June 1944 The complete invasion codename was Operation Overlord and Neptune was therefore phase one of a much bigger plan Nevertheless the task of safely landing 160 000 men with all of the supporting equipment was an operation on an unprecedented scale The operation planned by a team under Lieutenant General Frederick Morgan was the largest amphibious invasion in world history and was executed by land sea and air elements under direct British command with over 160 000 troops landing on 6 June 1944 Of these 73 000 were American troops 61 715 British and 21 400 Canadian To achieve the successful landings 195 700 Allied naval and merchant navy personnel in over 5 000 ships were involved The invasion required the transport of soldiers and material from England by troop laden aircraft and ships the assault landings air support naval interdiction of the English Channel and naval fire support The landings took place along a 50 mile stretch of the Normandy coast divided into five

sectors Utah Omaha Gold Juno and Sword The planning required for such a mammoth undertaking was vast and all to be maintained under the strictest secrecy The fact that the Germans were caught by surprise is incredible and a great debt of gratitude is owed to the men and women who worked so hard to bring off the greatest sea borne invasion in history This book written only one year after the invasion by a senior British naval officer who was closely involved provides the detail behind the conception planning and successful execution of Neptune

Sailing Directions for the North Coast of France, Northwestern End of France to Belgium United States. Naval Oceanographic Office, *D-Day Gunners* Frank Baldwin,2022-07-20 Part history book and part travel guide D Day Gunners is aimed at anyone interested in the artillery on the D Day beaches and landing grounds While the heritage of the D Day beaches and landing sites is well documented this rarely includes the artillery story The author of this book aims to correct this by providing a visitors guide to the artillery stories associated with the battlefield heritage that remains on the D Day beaches mapping the fire plan for D Day against the known German locations and looking at what happened at these places There is relatively little explanation about the role of the artillery in general or the deeds of artillerymen in particular those of the Royal Regiment of Artillery This book tells of the significance of artillery on D Day and the part it played in the outcome Initial reports published stressed that the coastal defences were effectively neutralized by the bombing and that no significant counter attacks developed on D Day However post war accounts increasingly attributed allied success to allied fire power The book tells the story of the men who served the guns on the D Day beaches and the effects they had on the outcome of the battles on D Day and afterwards This volume is primarily about British Gunners and certain German Kannoniers The book has been written as a guide to the battlefields on the D Day beaches and landing grounds telling the gunners stories that are not always commemorated on memorials interpretation boards or recorded in more general guides These poignant stories include war poets and heroes decorated for bravery or just the tales of some of the men buried in the war cemeteries or commemorated on the memorials It also provides a guide in lay terms of the technical impact of field anti tank and AA artillery on the war A second volume will tell the story of artillerymen on the American beaches and landing grounds

Sailing Directions for the North Coast of France United States. Hydrographic Office,1951

From Dieppe to D-Day John 'Jock' Hughes-Hallett,2023-11-23 When studying the planning behind the Combined Operations cross Channel raids that harassed the Germans along the coast of Occupied France during the Second World War one name appears repeatedly that of Captain John Jock Hughes Hallett Hughes Hallett was Deputy Director of the Local defense Division at the Admiralty in 1940 and 1941 before becoming Naval Adviser at Combined Operations Headquarters Along with the head of Combined Operations Lord Louis Mountbatten Hughes Hallett orchestrated the Commando raids from Norway to Normandy attacks which tied down German troops far in excess of the

numbers employed on the raids Hughes Hallett became Commodore commanding the Channel Assault Force known as J Force and Naval Chief of Staff X from 1942 to 1943 He is perhaps best known for being the Naval Commander of the Dieppe Raid of August 1942 and attack which despite its disastrous outcome led to one of the most important decisions regarding the D Day landings of June 1944 At a meeting following the Dieppe raid Hughes Hallett declared that if a port could not be captured then one should be taken across the Channel Although this was met with derision at the time the concept of Mulberry Harbours began to take shape when Hughes Hallett moved to be Naval Chief of Staff to the Operation Overlord planners It was in the planning for D Day that the then Commodore Hughes Hallett s experience came to the fore The ultimate success of that enormously complex operation owed much to his many years in Combined Operations Hughes Hallett retired from the Royal Navy with the rank of Vice Admiral taking up a new career as Member of Parliament for Croydon East and then Croydon North East It is remarkable that the Hughes Hallett memoirs have not been published until now for without doubt they constitute one of the most important wartime autobiographies to presented to the world in recent decades

Normandy Beyond The Beaches Jon Diamond,2024-12-30 This latest Images of War series book examines the controversial development of the Allied campaign in Normandy in the weeks after the D Day landings After overcoming Rommel s beach obstacles and Atlantic Wall fortifications a secure Allied lodgment of the five beaches developed along the Caen Bayeux Carentan axis with a period of consolidation while reinforcements and supplies were built up The early arrival of 12th SS Hitlerjugend 21st Panzer and the Panzer Lehr Divisions delayed Montgomery s Anglo Canadian capture of Caen until mid July and prevented an early breakout into the countryside inland from Gold Juno and Sword which was suitable for armored combat An early American goal was to cut the Cotentin Peninsula in two at its southern base to prevent the Germans from supplying and strengthening the deep water port of Cherbourg which U S VII Corps captured on 26 June Inland from Omaha and Utah the close bocage country proved advantageous to the German defenders The Allied breakout occurred at the end of July with Bradley s Operation COBRA near St Lo followed by the entire Allied front first moving to close the Falaise Gap before heading southward and then pivoting to the east for the capture of the Seine River crossings These crucial and testing weeks for the Allies are described in graphic contemporary images with full captions and authoritative text

Soldier at Bomber Command Charles Carrington,1987-01-01 It was certainly not through the foresight of his senior officers that Charles Carrington a veteran of the First World War was enabled to put his experience in that earlier conflict to good use in the Second as readers of this remarkable book will soon learn However by great good fortune he found himself in a position where his experience of things past could be adapted to the needs of a virtually untried aspect of warfare that of Army Air Force Co operation As an Army Officer in a world of high ranking Airmen it was his task to walk the tightrope between the two Services in an effort to persuade both parties that neither could win the war without the other and that co operation was preferable to self interest The words prima donna crop up frequently in the story and one is

not surprised when the author remarks while we were organising signal exercises and such necessary menial chores at which the Services worked together without a hitch our problem was to get the Great Chiefs to stop quarrelling Although he describes his experiences with cheerful modesty it is clear that this unsung armchair soldier played a vital role in the back room battle that had to be resolved before the war proper could be waged with efficiency Apart from his being privy to much information that remained Top Secret for many years after the war Readers will soon see that his views on some of the Top Brass might have had unpleasant repercussions had they been aired too soon But those who have read his earlier works as well as those who come afresh to the work of this fluent and clear sighted writer will surly agree that the wait has been worthwhile Managing and Interpreting D-Day's Sites of Memory Geoffrey Bird, Sean Claxton, Keir Reeves, 2016-03-02
