Art And Reality:

The Artist's Reality Mark Rothko, 2004-01-01 This recently discovered manuscript by the celebrated artist Mark Rothko offers a landmark discussion of his views on topics ranging from the Renaissance to contemporary art criticism and the role of art and artists in society

Create to Live Lauren Macknight, 2016 Within the field of art education there has been little to no research into the knowledge afforded by discourses around popular culture especially those specific to reality television into how the public conceptualizes contemporary art and artists This kind of foundational knowledge is critical to our own development and evolution as a field as we learn how to most effectively reach our students and advocate best for the value of arts in education Through an investigation of the television program *Work of Art: The Next Great Artist* I asked is the perception of contemporary art and practice altered by the lens of popular culture and specifically the reality television format Is this an entryway to a broader dialogue about art's value in the 21st century and to young individuals' lives and careers Results from this study were threefold First results pointed to a pattern of progressively nuanced insight and descriptive talk indicated alternative access to art's interpretability through the lens of popular culture Talk in the focus groups functioned as a way for participants to perform access to interpretive authority over subjects of contemporary art to varying degrees of success whether that meant adopting art terminology or modeling the language of judges and artist contestants Secondly analysis displayed the discursive work involved in the meaning making around understanding the artist as a figure as a myth and as a profession Participants' interactional speech performed a balancing act between critically examining the competing discourses of the artist as contestant and creative laborer and an understanding of who they are and their own identity in relation to the character of the artist Lastly analysis uncovered situated meaning of art and its value where participants conducted a critical negotiation of what is and what was not art unfettered by lack of art historical knowledge of access to art's interpretability

Everyday Aesthetics Katya Mandoki, 2016-04-22 Katya Mandoki advances in this book the thesis that it is not only possible but crucial to open up the field of aesthetics traditionally confined to the study of art and beauty toward the richness and complexity of everyday life She argues that in every process of communication whether face to face or through the media fashion and political propaganda there is always an excess beyond the informative and functional value of a message This excess is the aesthetic Following Huizinga's view of play as an ingredient of any social environment Mandoki explores how various cultural practices are in fact forms of playing since for the author aesthetics and play are Siamese twins One of the unique contributions of this book is the elaboration and application of a semiotic model for the simultaneous analysis of social interactions in the four registers namely visual auditory verbal and body language to detect the aesthetic strategies deployed in specific situations She argues that since the presentation of the self is targeted towards participants' sensibilities aesthetics plays a key role in these modes of exchange Consequently the author updates important debates in this field to

clear the way for a socio aesthetic inquiry through contexts such as the family school medical artistic or religious traditions from which social identities emerge

Art and Theory of Art Rudolf Steiner, 2021-10-19

An Author's Summary 1888 Four Essays Written between 1890 and 1898 Eight Lectures between 1909 and 1921 CW 271

The challenge of saying something about art was personal for Rudolf Steiner He experienced it as deeply connected with his biography It is not for nothing that in the last lecture of this volume he points to his repeated attempts to develop a new approach and new forms of expression for speaking about art We find at least three forms of this attempted approach in this book Zvi Szir from the introduction The subject practice and vital importance of art was a thread that ran through Rudolf Steiner's life from his early work as a scholar of Goethe through his time as an editor of a literary and arts journal in Berlin in the 1890s and to his two and a half decades as a spiritual researcher and teacher Understanding and articulating the significance of art was a perennial challenge for Rudolf Steiner This volume of Steiner's Collected Works is unique in that it showcases a survey of both early written works and later lectures to anthroposophic audiences and in doing so presents a picture of a lifetime of intensive effort to convey something essential about the arts Beginning with his early philosophical work and literary criticism at the end of the nineteenth century and on into his later lectures this volume follows Steiner's endeavor to reveal in words the mystery obscured by the vague concept of what art is Viewed as a whole this volume forms one of the most provocative collections of the twentieth century on the subject of art It offers a unique analysis of the origin foundation and method of the creative process This book is a translation of *Kunst und Kunsterkenntnis Grundlagen einer neuen sthetik* 3rd edition published by Rudolf Steiner Verlag Dornach Switzerland 2010 GA 271

The German Aesthetic Tradition Kai Hammermeister, 2002-10-17 Publisher Description

The De-Definition of Art Harold Rosenberg, 1983-06-15

Like the great German critic Walter Benjamin Rosenberg is a master of dialectics whose sense of art is continuous with his sense of society and also like Benjamin bears no taint of compromised out of work radicalism Instead his radicalism is very much at work enabling him to spot and skewer fallacies false logic and the camouflaged nudity that is a large part of the art emperor's new wardrobe The De definition of Art detects with great sensitivity the forces that are deflecting and pressuring art in the direction of esthetic and moral nullity Jack Kroll Newsweek
