Arms Trade Registers The Arms Trade With The Third World:

The Arms Trade with the Third World Stockholm International Peace Research Institute, 1971 The International Arms Trade Rachel Stohl, Suzette Grillot, 2013-04-29 The multi billion dollar business of the international conventional arms trade involves virtually every country in the world Around the globe people s lives are being irrevocably changed by the effects of guns tanks and missiles These weapons have the potential to cause a deadly and current threat one responsible for hundreds of thousands of deaths a year This succinct and accessible new book explores the complexities and realities of the global conventional weapons trade The first book on the subject in nearly a decade The International Arms Trade provides an engaging introduction to the trade the effects and the consequences of these weapons The authors trace the history of the arms trade and examine how it has evolved since the end of the Cold War In particular they assess the role of the largest arms exporters and importers the business of selling conventional arms around the world and shed new light on the illicit arms trade and the shadowy dealers who profit from their deadly commerce The book also looks closely at the devastating effect the business can have on countries societies and individuals and concludes with an evaluation of the various existing control strategies and the potential for future control opportunities The International Arms Trade will be invaluable for students and scholars of international relations and security studies and for policymakers and anyone interested in understanding more about the conventional arms trade **Arms Transfers to the Third World, 1971-85** Michael

Brzoska, Thomas Ohlson, 1987 The value of major conventional weapons imported by Third World countries between 1971 and 1985 was quadruple that for the previous two decades This spectacular increase reflects changes in the economic and technological relations between industrialized nations and the Third World as well as having profound political repercussions This book gives a comprehensive overview of the flow of major conventional weapons during the period 1971 85 It analyses both the suppliers and the main Third World recipients describing the inflow of arms and the reasons underlying it The facts that propel this arms trade are assessed in a concluding chapter which also analyses the structural changes that have occurred in the arms markets and their implications The detailed statistics and arms trade registers for the period in some cases from 1951 and the introduction of a new SIPRI price system for evaluating the arms trade make this a valuable reference work Milton Leitenberg: Pioneering Work on Weapons of Mass Destruction, Wars and Arms Control Kathleen

The Handbook on the Political Economy of War Christopher J. Coyne, Rachel L. Mathers, 2011-01-01 The Handbook on the Political Economy of War highlights and explores important research questions and discusses the core elements of the political economy of war *Bulletin of the Atomic Scientists* , 1987-12 **The USSR in Third World Conflicts** Bruce D. Porter, 1986-07-25 This is a thorough and sophisticated study of one of the most critical current issues in world politics Bruce Porter examines Soviet policy and behaviour in Third World conflicts in the postwar period focusing particularly on five examples the Yemeni civil war the Nigerian civil war the Yom Kippur war the Angolan civil war and the Ogaden war Aiming to illuminate various complex tactical and operational aspects of the USSR s policy in local conflicts the author draws on a wide and eclectic range of sources He pays close attention to the Soviet role as arms supplier and diplomatic actor in relation to both US policy and the dynamics of the local conflict and he concludes with a careful consideration of the effectiveness of Soviet policy and of the implications for the United States American Arms Supermarket Michael T. Klare, 2014-06-30 U S arms sales to Third World countries rapidly escalated from 250 million per year in the 1950s and 1960s to 10 billion and above in the 1970s and 1980s But were these military sales so critical in their impact on Third World nations and on America s perception of its global role achieving the ends and benefits attributed to them by U S policymakers In *American Arms Supermarket* Michael T Klare responds to this troubling still timely question with a resounding no showing how a steady growth in arms sales places global security and stability in jeopardy Tracing U S policies practices and experiences in military sales to the Third World from the 1950s to the 1980s Klare explains how the formation of U S foreign policy did not keep pace with its escalating arms sales how instead U S arms exports proved to be an unreliable instrument of policy often producing results that diminished rather than enhanced fundamental American interests Klare carefully considers the whole spectrum of contemporary American arms policy focusing on the political economy of military sales the evolution of U S arms export policy from John F Kennedy to Ronald Reagan and the institutional framework for arms export decision making Actual case studies of U S arms sales to Latin America Iran and the Middle East provide useful data in assessing the effectiveness of arms transfer programs in meeting U S foreign policy objectives The author also rigorously examines trouble spots in arms policy the transfer of arms making technology to Third World arms producers the relationship between arms transfers and

human rights and the enforcement of arms embargoes on South Africa Chile and other pariah regimes Klare also compares the U S record on arms transfers to the experiences of other major arms suppliers the Soviet Union and the big four European nations France Britain the former West Germany and Italy Concluding with a reasoned carefully drawn proposal for an alternative arms export policy Klare vividly demonstrates the need for cautious restrained and sensitive policy
