Army Of Alexander The Great:

The Army of Alexander the Great Stephen English, 2009-03-19 Alexander the Great is one of the most famous men in history and many believe he was the greatest military genius of all time Julius Caesar wept at the feet of his statue in envy of his achievements Most of his thirteen year reign as king of Macedon was spent in hard campaigning which conquered half the known world during which he was never defeated in open battle and never besieged a city he did not take Yet while biographies of Alexander abound there are relatively few full length books dedicated to the Macedonian army which made his dazzling conquests possible and which proved itself the most formidable machine of the age Stephen English investigates every aspect of the Macedonian forces analysing the recruitment equipment organisation tactics command and control of the fighting arms including the famous pike phalanxes elite Hypaspists and incomparable Companion cavalry Some of Alexander's most famous battles and sieges are described in detail to show the army in action With forensic thoroughness he draws on recent archaeological evidence and scholarship to present a detailed portrait of the army which demonstrated a superiority over its opponents equal to but much longer lasting than that enjoyed by the German forces in the blitzkrieg campaigns of 1939 40 Alexander's navy is also covered *Alexander the Great and the Logistics of the Macedonian Army* Donald W.

A YOUNG MACEDONIAN in the Army of Alexander the Great Alfred J. Church, 2014-08-21 ABOUT six months have passed since the events recorded in my last chapter Charidemus had reported to Alexander so much of the young Theban's answer as it seemed to him expedient to communicate and the king had been pleased to receive it very graciously I am glad he said that you will have a friend in your campaigns I should like to have such friendships all through my army Two men watching over each other helping each other are worth more than double two who fight each for his own hand You shall be a captain in the Guards I can't give your friend the same rank It would give great offence My Macedonians would be terribly annoyed to see a young untried Greek put over them He must make his way I promise you that as soon as my men see that he is fit to lead they will be perfectly willing to be led by him Meanwhile let him join your company as a volunteer He can thus

be with you And I will give orders that he shall draw the same pay and rations as you do And now that is settled the king went on I shall want you with me for a little time Your friend shall go to Pella and learn his drill and make himself useful This accordingly had been done Charondas had spent the winter in Pella In this place which Alexander s father had made the capital of his kingdom the army was gathering for the great expedition A gayer or more bustling scene could not well be imagined or except the vast array which Xerxes had swept all Asia to bring against Greece a century and a half before a stranger collection of specimens of humanity Savage mountaineers from the Thracian Highlands and fishermen from the primitive lake villages of Paeonia jostled in the streets with representatives of almost every city of Greece the Lesser Greece which was the home of the race and the Greater Greece which had spread its borders over the shores of the Mediterranean and the Black Sea which had almost touched with its outposts the Caspian on the east and the Pillars of Hercules on the west The prospect of a booty such as passed all the dreams of avarice the hope of ransacking the treasuries into which all Asia had poured its wealth for generations had drawn adventurers from all points of the compass The only difficulty that the recruiting officers had was in choosing The king was determined that the strength of his army should be his own Macedonians A sturdy race untouched by the luxury which had corrupted the vigor of more civilized Greece they supplied a material of the most solid value Nor was it now the rough untempered metal that it had been a generation before Philip had wrought it by years of patient care into a most serviceable weapon and it only remained for his son to give its final polish and to wield it So complete was the organization left behind him by the great king that such recruits as were needed to make up the necessary numbers of the army of Asia and none but tried soldiers were recruited easily fell into their proper places The preparation of siege trains of such machines as battering rams and the like of the artillery of the time catapults small and great some used for throwing darts and some for hurling stones was a more laborious business The equipment of the army was far from complete Every anvil in Macedonia was hard at work Of provisions no great store was prepared The king counted for supplying his needs in this direction in the country which he was about to overrun The military chest was empty or worse than empty for Philip who always preferred the spear of silver to the spear of steel had left little but debt behind him The personal baggage of the army was on the most moderate scale Never was there a force which gave a better promise of being able to march anywhere and more amply fulfilled it Charondas as it may easily be imagined did not find the time hang heavily on his hands

Lonsdale, 2007-12-10. This book offers a strategic analysis of one of the most outstanding military careers in history identifying the most pertinent strategic lessons from the campaigns of Alexander the Great. David Lonsdale argues that since the core principles of strategy are eternal the study and analysis of historical examples have value to the modern theorist and practitioner. Furthermore as strategy is so complex and challenging the remarkable career of Alexander provides the ideal opportunity to understand best practice in strategy as he achieved outstanding and continuous success across the spectrum of warfare in a variety of circumstances and environments. This book presents the thirteen most pertinent lessons that can be learned from his campaigns dividing them into three categories: grand strategy, military operations and use of force. Each of these categories provides lessons pertinent to the modern strategic environment. Ultimately however the book argues that the dominant factor in his success was Alexander himself and that it was his own characteristics as a strategist that allowed him to overcome the complexities of strategy and achieve his expansive goals.

The Field Campaigns of Alexander the Great Stephen English, 2011-06-13. Alexander the Great is one of the most famous men in history and many believe he was the greatest military genius of all time. Julius Caesar wept at the feet of his statue in envy of his achievements. Most of his thirteen year reign as king of Macedon was spent in hard campaigning which conquered half the then known world during which he never lost a battle. Besides the famous set piece battles Granicus, Issus, Gaugamela, Hydaspes, Alexander's army marched thousands of miles through hostile territory fighting countless smaller actions and calling for a titanic logistical effort. There is a copious literature on Alexander the Great but most are biographies of the man himself with relatively few recent works analyzing his campaigns from a purely military angle. This book will combine a narrative of the course of each of Alexander's campaigns with clear analysis of strategy, tactics, logistics etc. This will combine with Stephen English's *The Army of Alexander the Great* and *The Sieges of Alexander the Great* to form a very strong three volume examination of one of the most successful armies and greatest conquerors ever known.
